Investment Objective

The Fund aims to provide investors with an avenue to invest in low risk instruments that provide reasonable returns and high level of liquidity which comply with Shariah requirements and as approved by the SACSC and/ or the Shariah Adviser of the Fund.

Any changes to the investment objective of the Fund would require Unit Holders' approval.

Investment Policy, Strategy and Asset Allocation

The Fund may invest 90% to 100% of its NAV in a diversified portfolio which comprises of short-term Islamic money market instruments which have a remaining term of maturity of up to 397 days, Islamic deposits and/or short-term sukuk which have the remaining maturity period of not more than 2 years if it is issued by, or the issue is guaranteed by, either a government, government agency, central bank or supranational. The Fund may also invest up to 10% of its NAV in high quality sukuk with longer remaining maturity period, which is more than 397 days but does not exceed 732 days and/or other Islamic money market collective investment schemes.

The Fund will follow a stringent selection process to ensure quality instruments be invested in accordance with the investment objective. In essence, the selection process involves a screening process that shortlists appropriate investment instruments that matches the Fund's investment requirement and risk-return profile.

The Fund's strategy is to provide returns comparable to that of short-term Islamic money market instruments which simultaneously preserve its principal value and maintain a high degree of liquidity.

The short-term Islamic money market instruments may also include Islamic Negotiable Instruments (INIs) and/or investment accounts. The Fund may invest in Islamic money market collective investment schemes if the Manager deems appropriate.

The Fund is permitted to invest in other Islamic liquid assets including, but not confined to, sukuk issued by the government or quasi-government bodies, namely Khazanah Nasional and Bank Negara Malaysia, sukuk guaranteed by the government and/or corporate sukuk. For avoidance of doubt, the corporate sukuk must be accorded with a minimum credit rating (including gradation and subcategories) of P3/AA by RAM or equivalent.

If the ascribed credit rating falls below the minimum rating, the Fund is to dispose the investment within a reasonable time frame. However, the Fund reserves the right to retain the investment should it be a temporary downgrade.

Risks associated with such investment instruments that the investment managers propose to invest in are provided in section 3.19 – section 3.22 of this Master Prospectus.

Taxation of the Fund

Income Tax

The Funds are a unit trust for Malaysian tax purposes. The taxation of the Funds are therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Funds in respect of investment income derived from or accruing in Malaysia is liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 30 NOVEMBER 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021 AND THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022

The Funds may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign source income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Fund.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement (“DTA”) or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Funds from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Fund from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Funds’ expenses such as manager’s remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage (“permitted expenses”) are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 30 NOVEMBER 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021 AND THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022

Single tier Malaysian dividends received by the Funds are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax (“RPGT”)

Gains on disposal of investments by the Funds will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax (“GST”) has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Funds such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Funds are only deriving income from such activities, the Funds are not liable to be registered for service tax.

However, certain expenses incurred by the Funds such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of funds management under the Capital Markets and Services Act 2007. The service tax incurred by the Funds is a cost to the Funds and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Funds, to the extent that this is distributed to them. The income distribution from the Funds may carry with it applicable tax credits proportionate to each unit holder’s share of the total taxable income in respect of the tax paid by the Funds. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Funds to the extent of an amount equivalent to their share of the total taxable income of the Funds.

Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 30 NOVEMBER 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021 AND THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Funds will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Funds will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income of a unit trust that is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002 will be subjected to tax. This is effective from 1 January 2022.

Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

THIS SECOND SUPPLEMENTARY MASTER PROSPECTUS DATED 30 NOVEMBER 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021 AND THE FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

C. Amendment to “Section 3.11 – TA European Equity Fund” on page 24 of the Master Prospectus

The information relating to the performance benchmark is hereby deleted and replaced with the following:-

Performance Benchmark

The benchmark for the Fund is based on MSCI Europe CR Index. Information on the benchmark of the Fund can be obtained from Bloomberg at www.bloomberg.com.

D. Amendment to “Section 3.19 – General Risks” on page 59 of the Master Prospectus

The information relating to the liquidity risk is hereby deleted and replaced with the following:-

- Liquidity Risk

Liquidity refers to the ease of liquidating an investment of a security/Shariah-compliant security at or near its fair value depending on the investment's volume traded in the market. A unit trust fund holding many securities/Shariah-compliant securities that are illiquid, or difficult to dispose of, will have its value depressed when it has to sell these securities/Shariah-compliant securities at a discount to their fair value. Hence, this will negatively impact the NAV of the Funds and the investments of the Unit Holders. This risk is mitigated through a systematic security selection process and portfolio diversification.

THIS FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021

E. Amendment to “Section 3.22 – Risk Management Strategies” on page 76 of the Master Prospectus

The information relating to the risk management strategies is hereby deleted and replaced with the following:-

3.22 RISK MANAGEMENT STRATEGIES

Our risk management strategy is to conduct fundamental analysis of economic, political and social factors, on a local and global basis, to evaluate their likely effects on the performance of equities, Shariah-compliant equities, fixed income instruments/ sukuk, money market instruments/ Islamic money market instruments and sectors.

Individual securities / Shariah-compliant securities and fixed income securities/ sukuk are further screened by detailed analysis of each security and its underlying business and fundamentals. For TAICP, individual Islamic money market instruments and sukuk are further screened by detailed analysis of each security and its underlying business and fundamentals. For Islamic funds, further consideration is given to the nature of the investments to ensure that they are fully in compliance with Shariah requirements.

In terms of the Funds’ portfolio, risk is controlled by strict diversification on both a sector and individual investment instrument basis. We also use active asset allocation to reduce or increase the Funds’ exposure to various investment instruments depending on the risk reward potential for each investment. This may include the use of futures for hedging purposes, as it can be a more efficient portfolio risk management strategy. For the purposes of the Funds’ investment in derivatives for hedging purposes, the global exposure will be calculated using commitment approach to ensure it does not exceed the Funds’ NAV. The global exposure of the Funds to derivatives is calculated as the sum of the:

- (a) absolute value of the exposure of each individual derivative not involved in netting or hedging arrangements;
- (b) absolute value of the net exposure of each individual derivative after netting or hedging arrangement; and
- (c) the values of cash collateral received pursuant to the reduction of exposure to counterparties of OTC derivatives.

The Funds except TAICP will be guided by the following general principles to control company specific risk*:

- Ensure that the risk taken for any specific security is not too large and a reasonable spread of active risk is maintained across different sectors. Investments that have low contributions to active risk will have larger position limits than investments which have high contributions to active risk. The limit per security will be within the limit set by the investment committee in compliance with the Guidelines.
- Ensure that the risk associated with the overall position taken for the group of companies or the same industries is not too large and within limit set by the SC.

In addition, the following investment procedures and internal controls are designed to control operational risk** for all Funds including TAICP:

- There is strict division of duties between securities trading, confirmation and settlement.
- There are rules on trading and preventing employees to act on insider information. The compliance department will monitor compliance and enforce disciplinary actions on any employee who has breached the code of conduct and compliance.
- There is daily computation of the respective Fund’s NAV and independent verification and reconciliation.

THIS FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021

- There are procedures for senior management, Trustees, investment committee and the board of directors of TAIM to be informed promptly, to investigate and to ensure timely and appropriate rectification of any deviation and non-compliance that may arise.
- There are limits to the placement maintained at financial institutions to manage credit risk exposure.
- There are limits on shares traded with stock brokers to manage settlement risk exposure.
- There are limits and criteria set on credit rating of debt securities/ sukuk.

* Company specific risk refers to external risk associated with the listed company's share price movements.

** Operational risk refers to the internal risk associated with inadequate systems and controls.

Specific Risk Management for Foreign Investments

Country and Foreign Exchange Risks

Diversification of the foreign portion of the portfolio across several country markets and currencies will facilitate risk management of country risk (includes market, political and regulatory risks) and foreign exchange risk. This is further enhanced through the implementation of monitoring processes to identify changes in country specific risk premium arising from changes in market, political and/or regulatory environment of the countries to which the Funds have investment exposure.

Operational Risk

Operational risk arising from international settlement and custody risks are managed through the appointment of an international global custodian.

F. Amendment to “Section 4.1 – Switching Fee” on page 82 of the Master Prospectus

The information relating to switching fee is hereby deleted and replaced with the following:-

Switching Fee

The Manager does not impose any switching fee, however, if the amount of sales charge of the fund that the Unit Holder intends to switch into is more than the sales charge imposed by the fund being switched from, then the difference in the sales charge between the two (2) funds shall be borne by the Unit Holder.

Conversely, no sales charge by the fund that the Unit Holder intends to switch into will be imposed on the Unit Holder, should it be less than or equal to the sales charge paid by the Unit Holder when they invested in the Fund.

The Manager reserves the right to vary the terms of switching. Please refer to section 5.5 of the Master Prospectus for further details.

G. Amendment to “Section 5.5 – Switching” on page 88 of the Master Prospectus

The information relating to the switching of the Funds is hereby deleted and replaced with the following:-

5.5 SWITCHING

Switching of units can be made from one fund to another fund (or its class) managed by us provided that both funds are denominated in the same currency by completing the transaction form.

THIS FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021

Switching will be made at the prevailing NAV per Unit of the Fund to be switched from on a Business Day when the switching request is received and accepted by us on or before the cut off time of 4.00 p.m., subject to any terms and conditions imposed by the intended fund to be switched into, if any. If we receive your switching request after 4.00 p.m., we will process your request on the next Business Day.

Please note that the net asset value per unit of a fund (or its class) to be switched out and the net asset value per unit of the fund to be switched into may be of different Business Days. The table below sets out as a guide when the Unit Holder switches out of a fund into another fund managed by us. All switches will be transacted based on the net asset value per unit of the fund on the same day except for the following:

Switch Out	Switch In	Pricing Day (NAV)	
		Switch Out	Switch In
Non-money market fund*	Non-money market fund**	T Day	T+1 Day
Non-money market fund	Money market fund	T Day	At the next valuation point, subject to clearance of payment and money received by the intended fund.
Money market fund	Money market fund	T Day	At the next valuation point, subject to clearance of payment and money received by the intended fund.

Note:

* For certain funds with foreign investment exposure, the valuation point may be after the close of Bursa Malaysia but before 5.00p.m. on the following day in which the Manager is open for business. As a result of having a valuation point on the following day (T+1day), the net asset value of those funds with foreign investment will not be published on the next Business Day but instead will be published the next following Business Day i.e.: two (2) Business Days later (T+2day).

** for funds where the valuation point is on the same day, the net asset value of the funds will be published on the following Business Day (T+1day).

The minimum Units for a switch is 500 Units or such other lower number of Units as determined by us from time to time and there is no restriction on the frequency of switching. However, you must meet the minimum number of Units per switch and the minimum holdings of Units (after the switch) of the fund that you intend to switch from unless you are redeeming all your investments from the fund.

Switching from Islamic funds to conventional funds is discouraged, especially to Muslim Unit Holders.

The Manager does not impose any switching fee, however, if the amount of sales charge of the fund that the Unit Holder intends to switch into is more than the sales charge imposed by the fund being switched from, then the difference in the sales charge between the two (2) funds shall be borne by the Unit Holder. Conversely, no sales charge by the fund that the Unit Holder intends to switch into will be imposed on the Unit Holder, should it be less than or equal to the sales charge paid by the Unit Holder when they invested in the Fund.

For TADG, switching out of the Fund is not allowed within thirty (30) days of the date of investments.

The Manager reserves the right to vary the terms of switching.

THIS FIRST SUPPLEMENTARY MASTER PROSPECTUS DATED 25 AUGUST 2022 MUST BE READ TOGETHER WITH THE MASTER PROSPECTUS DATED 23 NOVEMBER 2021

H. Amendment to “Section 5.7 – Cooling-Off Period” in Chapter 5 from pages 88 to 89 of the Master Prospectus

The information relating to the cooling-off period is hereby deleted and replaced with the following:-

5.7 COOLING-OFF RIGHT

There is a cooling-off period of six (6) Business Days from the day your application is accepted or deemed to be accepted by the Manager. Within these six (6) Business Days, you have a right to request for withdrawal of the investment. The refund for every Unit held by you pursuant to the exercise of your cooling-off right would be the sum of:

- (a) if the NAV per Unit on the day the Units were first purchased (“original price”) is higher than the price of a Unit at the point of exercise of the cooling-off right (“market price”), the market price at the point of cooling-off; or
- (b) if the market price is higher than the original price, the original price at the point of cooling-off; and
- (c) the sales charge per Unit originally imposed on the day the Units were purchased.

A cooling-off right is only given to an individual investor who is investing in any of the unit trust funds managed by TAIM for the first time but shall not include the following person:

- a staff of TAIM; and
- a person registered with a body approved by the SC to deal in unit trust funds.

All such requests must be received or be deemed to have been received by the Manager before 4.00 p.m. on a Business Day. Requests received or deemed to have been received after 4.00 p.m. will be treated as having been received on the following Business Day.

If you submit your payment by cheque, the cooling-off period will accrue from the date on which the Manager receives the cheque and payment for the cooling-off will be made after the cheque has been cleared. The proceeds would generally be refunded to Unit Holder within seven (7) Business Days of receiving the request for withdrawal.

In the case for EPF Members’ Investment Scheme (EPF-MIS), the cooling-off right is subject to EPF’s terms and conditions. Please note that EPF Investment is subject to EPF Members Investment Scheme terms and conditions.
