Distribution Policy	The Fund intends to distribute income, if any, on a quarterly basis.				
	The distribution, if any, may be made from (1) realised income, (2) realised gains, (3) unrealised income, (4) unrealised gains, (5) capital or (6) a combination of any of the above. The Manager has the right to vary the frequency and/or amounts of distributions.				
	The effects of distributing income out of capital would include but are not limited to the following:				
	<ul style="list-style-type: none">the value of the investments in the Fund may be reduced;the capital of the Fund may be eroded.				
	The distribution is achieved by forgoing the potential for future capital growth. As a result, the value of future returns would be diminished and there would be an impact on the future growth potential of the Fund as the available assets to grow in the future is the net of the expenses charged to the Fund. Please note that if distribution is made, such distribution is not a forecast, indication or projection of the future performance of the Fund.				
Note: The Manager has the right to make provisions for reserves in respect of distribution of the Fund. If the distribution available is too small or insignificant, any distribution may not be of benefit to the Unit Holders as the total cost to be incurred in any such distribution may be higher than the amount for distribution. The Manager has the discretion to decide on the amount to be distributed to the Unit Holders.

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number:199501011387 (340588-T))
Trustee	CIMB Commerce Trustee Berhad (Registration Number: 199401027349 (313031-A))

5. What are the possible outcomes of my investment?

This is a wholesale feeder fund where the Target Fund invests into a diversified portfolio of fixed income or debt securities denominated primarily in USD and Asian currencies in the Asian region. The performance of the Fund would be dependent

on the investments of the Target Fund and reliant on the Investment Manager's expertise in managing the Target Fund to meet its investment objective.

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of interest earned. However, investment involves risk. The value of the Fund may rise or fall. The Fund intends to distribute income on quarterly basis, if any. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

General risks of investing in the Fund	
Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets due to economic, political and/or other factors which will result in a decline in the Fund's NAV.
Inflation Risk	Inflation risk is the risk that investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor's purchasing power even though the value of the investment in monetary terms has increased.
Non-compliance Risk	This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the management company. For example, we may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. We have put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.
Operational Risk	Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the Fund. We have put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, we, in consultation with the Trustee, will take appropriate measures to safeguard the Unit Holders' interests.
Manager Risk	This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant laws or guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.
Loan Financing Risk	This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed or financed money includes investors being unable to service the loan or financing repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan or financing.
Suspension Risk	The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to the Manager being unable to determine the market value or fair value of a material portion of the Fund's investments. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be required to remain invested in the Fund for a longer period. In such a scenario, Unit Holder's investments will continue to be subjected to risk factors inherent to the Fund.
Specific risks related to the Fund	
Risk of Passive Strategy	The Fund adopts a passive strategy of investing a minimum of 85% of its NAV into the Target Fund at all times. This passive strategy would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's NAV declines. All investment decisions on the Target Fund are left with the Investment Manager and the Fund's performance is fully dependent on the performance of the Target Fund.
Currency Risk	The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency.
Currency risk at the hedged Class level	Investors in the hedged Classes are subject to currency risk as the Manager will as much as practicable mitigate this risk by hedging the respective currency against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when Base Currency moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by investors in these hedged Classes.
Country Risk	The Fund invests in the Target Fund which is domiciled in Luxembourg. Any adverse changes in the economic fundamentals, social and political stability, currency movements and foreign investments policies in Luxembourg may have an impact on the prices of the Target Fund and consequently may also affect the Fund's NAV.

Fund management of the Target Fund Risk

We have exercised due skill and care in selecting the Target Fund. However, we do not have control over the management of the Target Fund and there is no guarantee that the investment objective of the Target Fund will be met. This may affect the value of the Unit Holders' investments in the Fund.

The Target Fund may change its objective and become inconsistent with the objective of the Fund. In such instances, we will replace the Target Fund with other collective investment scheme which we consider to be more appropriate in meeting the objective of the Fund. Any changes on the replacement of the Target Fund would require the Unit Holders' approval.

Counterparty Risk

Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Hence, any default or downgrade in rating by the counterparty may affect the NAV of the Fund. In mitigating this risk, the Manager will carry out stringent selection process on the counterparty prior to entering into derivatives contract with the counterparty.

Temporary Suspensions of the Collective Investment Scheme Risk

If the right of the Fund to redeem its shares of the Target Fund is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holders. During the suspension period, there will be no NAV per Unit available and hence, any application for subscription, redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted.

Distribution Out of Capital Risk

Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital of the Fund which is available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

Note:

Please refer to section "Risk Factors" of the Information Memorandum, including specific risks related to the Target Fund for further information.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. The various assets classes generally exhibit different levels of risk.

You are recommended to read the whole Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your adviser(s) for a better understanding of the risks.

Please be advised that if a Sophisticated Investor invests in Units through an IUTA which adopts the nominee system of ownership, the Sophisticated Investor would not be considered to be a Unit Holder under the Deed as the Sophisticated Investor's name will not appear in the register of Unit Holders. The Sophisticated Investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat).

FEE & CHARGES¹**7. What are the fees and charges involved?****Fees and charges related to the Fund:**

Sales Charge²	Up to 1.50% of the NAV per Unit imposed either by IUTAs, unit trust consultants or the Manager.
Redemption Charge	Nil.
Switching Fee³	No switching fee will be imposed for each switch.
Transfer Fee	No transfer fee will be imposed for each transfer.
Annual Management Fee⁴	Up to 1.00% per annum of the NAV of the Fund, calculated and accrued on a daily basis.
Annual Trustee Fee⁵	Up to 0.04% per annum of the NAV of the Fund, subject to a minimum fee of RM12,000.00 per annum of the Fund.

Notes:

1. We may for any reason and at any time, waive or reduce: (a) any fees (except the annual trustee fee¹); (b) other charges payable by you in respect of the Fund; and/or (c) transactional values including but not limited to the Units or amount, for any Unit Holder and/or investments made via any distribution channels or platform. Unit Holders and/or the Fund, shall be responsible for any taxes and/or duties chargeable in respect of all applicable fees, charges and expenses which may be imposed by the government or other authorities from time to time as provided in the Information Memorandum.
2. All sales charge is to be rounded to two (2) decimal points. Sophisticated Investors may negotiate for a lower sales charge through the sales and promotional campaigns from time to time; alternatively, Sophisticated Investors may negotiate with their preferred distributors for a lower sales charge. Investment through the distributors shall be subject to their respective terms and conditions.
3. Unit Holders will have to pay the difference in sales charge, if any, when switching from the Class to any other funds managed by us.
4. We may, at our own discretion, from time to time, charge an annual management fee that is lower than that stated above.
5. Actual rate excluding foreign custodian fees and charges.

Please refer to section "Fees and Charges Related to the Fund" of the Information Memorandum for further information.

¹ Any waiver and/or reduction of the annual trustee fee will be at the discretion of the Trustee.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

8. How often are valuations available?

The Fund will be valued on a daily basis, which is on the Valuation Day.

Price of the Fund will be published on next Business Day and the Unit Holders may obtain the latest price of the Fund from our website at www.tainvest.com.my or Federation of Investment Managers Malaysia (FIMM)'s website.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off Policy	A cooling-off right is not available for the Fund.
Redemption of Units	<ul style="list-style-type: none"> Redemption of Units can be made by completing the transaction form available from any of our offices or by sending written instructions to any of our offices on any Business Day. Any valid redemption request received by our head office or any of our business centres before 4.00p.m. on a Business Day will be processed based on the NAV per Unit calculated at the next valuation point. A redemption request received after 4.00p.m. will be deemed to have been received on the next Business Day. If a redemption request is received on Saturday, the request will be processed based on the NAV per Unit calculated at the close of the next Business Day, which in this case will normally be Monday. Redemption proceeds will be paid to you within ten (10) Business Days from the day the redemption request is received by us based on the selected payment method stated in the transaction form received by our head office. In case of joint holders, we will process the redemption request based on the operating instruction stated in the account opening form when you first invested in the Fund. For avoidance of doubt, all redemption proceeds will be made payable to the principal applicant by default, unless there is a request by the principal applicant that the redemption proceeds be made payable to the joint applicant.

Note:

Please refer to section "Redemption of Units" of the Information Memorandum for further information.
