PRODUCT HIGHLIGHTS SHEET

TA ALTERNATIVE ABSOLUTE RETURN FUND

BRIEF INFORMATION OF THE PRODUCT

1. What is this product about?

TA Alternative Absolute Return Fund (the "Fund") aims to achieve medium to long-term capital appreciation.

Any material change to the Fund's investment objective would require Unit Holders' approval.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is suitable for Sophisticated Investors who:

- seek for medium to long-term capital appreciation;
- are willing to tolerate the risks associated with investing in the Target Fund.

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number:199501011387 (340588-T))
Trustee	CIMB Commerce Trustee Berhad (Registration Number: 199401027349 (313031-A))

5. What are the possible outcomes of my investment?

This is a wholesale feeder fund where the Target Fund seeks to systematically capture a wide range of market behaviours through diversification across investment style, sector, and time horizon. The Target Fund's strategies can be classified broadly into at least three categories, including systematic macro, short term, and momentum (e.g. trend following), which may be applied across traditional asset classes i.e. equities and equity-related securities, interest rates, fixed income, financial indices, credit and currencies. The Target Fund will enter into an unfunded total return swap to provide exposure to the economic performance of a basket of FDI (the "Portfolio Total Return Swap").

The performance of the Fund would be dependent on the investments of the Target Fund and reliant on the Portfolio Manager's expertise in managing the Target Fund to meet its investment objective.

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of interest earned. However, investment involves risk. The value of the Fund may rise or fall. Distribution is incidental and at the Manager's discretion. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

General risks of investing in the Fund	
Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
Manager Risk	This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.
Inflation Risk	Inflation risk is the risk that an investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce the investor's purchasing power even though the value of the investment in monetary terms has increased.
Non-compliance Risk	This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the Manager. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.
Loan Financing Risk	This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.
Operational Risk	Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the Fund. The Manager has put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders' interests.
Suspension Risk	The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to the Manager being unable to determine the market value or fair value of a material portion of the Fund's investments. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be required to remain invested in the Fund for a longer period. In such a scenario, Unit Holder's investments will continue to be subjected to risk factors inherent to the Fund.
Specific risks related to the Fund	
Concentration Risk	The Fund is exposed to concentration risk as it is investing a minimum of 85% of its NAV into the Target Fund. Hence, this would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's net asset value declines. All investment decisions on the Target Fund are left with the Portfolio Manager and the Fund's performance is fully dependent on the performance of the Target Fund.
Currency Risk	The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency. <ul style="list-style-type: none"> (i) Currency risk at the hedged Class level Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when Base Currency moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by the investors in these hedged Classes. (ii) Currency risk at the non-hedged Class level For investors in the non-hedged Classes, the impact of the exchange rate movement between the Base Currency and the currency of the respective non-hedged Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the Base Currency.
Counterparty Risk	Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Hence, any default or downgrade in rating by the counterparty may affect the NAV of the Fund. In mitigating this risk, the Manager will carry out stringent selection process on the counterparty prior to entering the derivatives contract with the counterparty.

Country Risk

The Fund invests in the Target Fund which is domiciled in Ireland. Any adverse changes in the economic fundamentals, social and political stability, currency movements and foreign investments policies in Ireland may have an impact on the prices of the Target Fund and consequently may also affect the Fund's NAV.

Distribution Out of Capital Risk

Distribution is incidental and at the Manager's discretion. Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital that the Fund which is available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

Temporary Suspension of Collective Investment Scheme Risk

If the right of the Fund to redeem its shares of the Target Fund is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holder. During the suspension period, there will be no NAV per Unit available and hence, any application for subscription, redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted.

Fund Management of the Target Fund Risk

We have exercised due skill and care in selecting the Target Fund. However, we do not have control over the management of the Target Fund and there is no guarantee that the investment objective of the Target Fund will be met. This may affect the value of the Unit Holders' investments in the Fund.

The Target Fund may change its investment objective which may become inconsistent with the investment objective of the Fund. In such instances, we will replace the Target Fund with other collective investment scheme which we consider to be more appropriate in meeting the investment objective of the Fund. Any changes on the replacement of the Target Fund would require the Unit Holders' approval.

Note:

Please refer to section "Risk Factors" of the Information Memorandum, including specific risks related to the Target Fund for further information.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. The various assets classes generally exhibit different levels of risk.

You are recommended to read the whole Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your adviser(s) for a better understanding of the risks.

Please be advised that if a Sophisticated Investor invests in Units through an IUTA which adopts the nominee system of ownership, the Sophisticated Investor would not be considered to be a Unit Holder under the Deed as the Sophisticated Investor's name will not appear in the register of Unit Holders. The Sophisticated Investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat).

FEE & CHARGES¹**7. What are the fees and charges involved?****Fees and charges related to the Fund:**

Sales Charge²	Up to 5.00% of the NAV per Unit imposed either by IUTAs, unit trust consultants or the Manager.				
Redemption Charge	Nil.

taxes and/or duties chargeable in respect of all applicable fees, charges and expenses which may be imposed by the government or other authorities from time to time as provided in the Information Memorandum.

2. All sales charge is to be rounded to two (2) decimal points. Sophisticated Investors may negotiate for a lower sales charge through the sales and promotional campaigns from time to time; alternatively, Sophisticated Investors may negotiate with their preferred distributors for a lower sales charge. Investment through the distributors shall be subject to their respective terms and conditions.
3. In addition to the switching fee, Unit Holders will have to pay the difference in sales charge, if any, when switching from a Class to any other funds managed by us. No sales charge difference will be charged if the Class or fund (or its class) to be switched into has a lower sales charge.
4. We may, at our own discretion, from time to time, charge an annual management fee that is lower than that stated above.
5. Actual rate excluding foreign custodian fees and charges.

Please refer to section "Fees and Charges Related to the Fund" of the Information Memorandum for further information.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

8. How often are valuations available?

The Fund will be valued on a daily basis, which is on the Valuation Day.

As the value of the Fund's investment in the Target Fund at the close of a Business Day will only be determined two (2) Business Days after the close of a Business Day, the valuation of the Units in respect of a particular Business Day can only be carried out two (2) Business Days later.

Price of the Fund will be published on two (2) Business Days after the Valuation Day and the Unit Holders may obtain the latest price of the Fund from our website at www.tainvest.com.my or FIMM's website.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off Policy	A cooling-off right is not available for the Fund.
Redemption of Units	<ul style="list-style-type: none"> • Redemption of Units can be made by completing a transaction form available from our head office or any of our business centres or by sending written instructions to us on any Business Day. Any duly completed redemption request received by us on or before 4.00 p.m. on a Business Day ("Submission Day") will be processed two (2) Business Days after the Submission Day and the NAV per Unit will be based on the valuation at the end of the Business Day when your redemption request is processed by us. Any redemption request received by us after 4.00 p.m. of a Business Day will be deemed to have been received on the next Submission Day. If a redemption request is received by us on non-Business Day, such redemption request will be deemed to have been received on the next Submission Day. • Redemption proceeds will be paid to you within ten (10) Business Days from the day the redemption request is processed by us, which is two (2) Business Days after the Submission Day and will be based on the selected payment method stated in the transaction form. However, for a withdrawal amount exceeding 10% of the total NAV of the Fund, the Manager may extend to fifteen (15) Business Days to pay the redemption proceeds to the Unit Holders. • In case of joint holders, we will process the redemption request based on the operating instruction stated in the account opening form when you first invested in the Fund. For avoidance of doubt, all redemption proceeds will be made payable to the principal applicant by default, unless there is a request by the principal applicant that the redemption proceeds be made payable to the joint applicant.

Note:

Please refer to section "Redemption of Units" of the Information Memorandum for further information.
