Certain asset classes of the Fund may be components of and may have similar weightings to the benchmark. However, the benchmark is not used to define the portfolio composition of the Fund or as a performance target. The Manager has broad discretion to deviate from its asset allocation, weightings and risk characteristics. Thus, investors are cautioned that the risk profile of the Fund is not the same as the risk profile of the benchmark. There is no guarantee that the Fund will outperform the benchmark.</p>																							

Investment Policy & Strategy	<p>The Fund seeks to achieve its investment objective by investing in a diversified portfolio of collective investment schemes (which includes listed exchange traded funds) that provide access into equities, fixed income, property-related (including REITs) and commodity-related securities, issued globally.</p> <p>With the aim of building a well-diversified portfolio, the selection of collective investment schemes will be made based on the geographical and asset class focus to broaden the investment reach. The Fund will invest in four main asset classes (equities, fixed income, property-related and commodity-related) that perform differently at different cycle of the market. The Manager will vary the asset allocation of each collective investment schemes between 0% to 30% of the Fund's NAV respectively based on the outlook of each asset class and the limit for each asset class will be between 0% to 50% of the Fund's NAV. As such, this will assist in minimising any concentration risk in single asset class that may arise.</p> <p>The Fund may also invest in other asset class of the collective investment schemes if the Manager deem appropriate to capture market opportunities.</p> <p>The Fund may employ financial derivatives instruments for hedging purposes.</p> <p>The Fund may take temporary defensive positions that may be inconsistent with the Fund's strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Manager reserves the right to temporarily hold the Fund's assets in Liquid Assets which may be inconsistent with the Fund's objective and asset allocation strategy as a defensive strategy.</p> <p>The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities and our assessment of the market.</p>

Distribution Policy	<p>Distribution is annual/semi-annual basis, if any and may be made from realised gains or realised income and/or out of capital.</p> <p>The rationale for providing for payment of distribution out of capital for the Fund is to allow for the ability to provide a stable and consistent level of distribution to investors.</p> <p>In order for the Manager to generate the distributable income, all or parts of the fees and expenses incurred by the Fund may be charged to the capital of the Fund.</p> <p>The effects of distributing income out of capital would include but are not limited to the following:</p> <ul style="list-style-type: none"> the value of the investments in the Fund may be reduced; the capital of the Fund may be eroded. <p>The distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital of the Fund is depleted. As a result, the value of future returns would be diminished and there would be an impact on the future growth potential of the Fund as the available assets to grow in the future is the net of the expenses charged to the Fund.</p> <p>Please note that if distribution is made, such distribution is not a forecast, indication or projection of the future performance of the Fund. The Manager has the right to make provisions for reserves in respect of distribution of the Fund. If the distribution available is too small or insignificant, any distribution may not be of benefit to the Unit Holders as the total cost to be incurred in any such distribution may be higher than the amount for distribution. The Manager has the discretion to decide on the amount to be distributed to the Unit Holders. The Manager also has the discretion to make income distribution on an ad-hoc basis, taking into consideration the performance of the Fund.</p>																							

Note:

Please refer to Chapter 1 and Chapter 3 of the Prospectus for further information.

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number: 199501011387 (340588-T))
Trustee	CIMB Commerce Trustee Berhad (Registration Number: 199401027349 (313031-A))

5. What are the possible outcomes of my investment?

This is a fund-of-funds that will be investing in a diversified portfolio of collective investment schemes (which includes listed exchange traded funds) that provide access into equities, fixed income, property-related (including REITs) and commodity-related securities, issued globally.

The investors may gain from the appreciation of unit price as a result of the increase in value of the collective investment schemes. However, investment involves risk. The value of the Fund may rise or fall. The Fund intends to distribute income, if any, on an annual/semi-annual basis from realised gains or realised income and/or out of capital. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

Specific risks related to the Fund:

Currency Risk	<p>The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency.</p> <p>(i) Currency risk at the hedged Class level Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when Base Currency moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by investors in these hedged Classes.</p> <p>(ii) Currency risk at the non-hedged Class level For investors in the non-hedged Classes, the impact of the exchange rate movement between the Base Currency and the currency of the respective non-hedged Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the Base Currency.</p>
Counterparty Risk	<p>Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into derivatives contract that are issued by counterparty with a minimum long-term credit rating of investment grade (including gradation and subcategories) by an international rating agency. In the event where the rating of the counterparty falls below the minimum required, or the counterparty ceases to be rated, analysis will be conducted by the Manager to assess the impact of unwinding the affected trades and replacement cost. The Manager should, within six (6) months or sooner, if the Trustee considers it to be in the best interest of the Unit Holders, take the necessary action to ensure that the requirements are complied with.</p>
Country Risk	<p>Investments of the Fund in global markets may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. This may impact on the prices of the Fund's investment in those countries and consequently may also adversely affect the Fund's NAV.</p>
Collective Investment Scheme Risk	<p>This risk refers to any adverse effect on the collective investment schemes in which the Fund is investing in that will impact the NAV of the Fund. For example, the collective investment schemes may underperform its benchmark due to poor market conditions and as a result, the NAV of the Fund will be adversely affected since the performance of the Fund is dependent on the performance of the collective investment schemes. While the Manager will exercise due skill and care in selecting the collective investment scheme, it does not have control over the management of the collective investment schemes and there is no guarantee that the investment objective of the collective investment schemes will be met.</p>
Temporary Suspension of the Collective Investment Scheme Risk	<p>If the right of the Fund to redeem its shares of the collective investment schemes is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holder.</p> <p>To avoid suspension of the Fund, the Fund will hold adequate Liquid Assets (up to 15% of the Fund's NAV) and if the Liquid Assets are insufficient to meet redemption requests, the Manager will either liquidate the investments of the Fund in other collective investment schemes or seek temporary financing, considering which is in the best interests of Unit Holders. If the Manager has exhausted all possible avenues to avoid a suspension of the Fund, the Manager may as a last resort, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to market value or fair value of the substantial portion of the Fund's investment in collective investment schemes cannot be determined.</p>

	Please note that during the suspension period, there will be no NAV per Unit available and hence, any redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted.
Distribution Out of Capital Risk	Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount the Unit Holders originally invested or from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital that the Fund has available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

Note:

Please refer to Chapter 1.17 of the Prospectus for further information on the risk factors.

Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed and the investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat and the right to have the investor's particulars appearing in the register of Unit Holders of the Fund).

FEE & CHARGES¹

7. What are the fees and charges involved?

Fees and charges related to the Fund:

Sales Charge²	Up to 5.50% of the NAV per Unit of the Class is imposed either by IUTAs, unit trust consultants or by the Manager.							
Redemption Charge	No redemption charge will be imposed for each redemption.							
Switching Fee³	Administrative fee for a switching transaction from each Class may be imposed, subject to our discretion.							
	USD Class	MYR Class	AUD Hedged Class	SGD Hedged Class	GBP Hedged Class	RMB Hedged Class	EUR Hedged Class	MYR Hedged Class
	USD25	-	AUD25	SGD25	GBP25	RMB25	EUR25	-
	or such other lower amount as we may decide from time to time.							
Transfer Fee	No transfer fee will be imposed for each transfer.							
Annual Management Fee⁴	Up to 1.80% per annum of the NAV per Unit of the Fund, calculated and accrued on a daily basis.							
Annual Trustee Fee	Up to 0.04% per annum of the NAV of the Fund subject to a minimum of RM10,000 per annum calculated and accrued daily (excluding foreign custodian fees and charges) and is to be charged to the Fund by the Trustee.							

Notes:

1. We may for any reason and at any time, waive or reduce: (a) any fees (except the Trustee's fee); (b) other charges payable by you in respect of the Fund; and/or (c) transactional values including but not limited to the Units or amount, for any Unit holder and/or investments made via any distribution channels or platform.
2. All sales charge is to be rounded to two (2) decimal points. The Manager reserves the right to waive and/or reduce the sales charge from time to time at its absolute discretion. Investors may negotiate with their preferred distribution channel for a lower sales charge. Investment through the distribution channel shall be subjected their respective terms and conditions.
3. In addition to switching fee, Unit Holders will have to pay the difference in sales charge, if any, when switching from a Class to any other funds managed by us. No sales charge difference will be charged if the Class or fund (or its Class) to be switched into has a lower sales charge.
4. We may, at our own discretion, from time to time, charge an annual management fee that is lower than that stated above.

Please refer to Chapter 2 of the Prospectus for further information.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

8. How often are valuations available?

The Fund will be valued on a daily basis, which is on the Valuation Day.

If the collective investment schemes in which the Fund is invested herein is closed for business or the valuation of the units or shares of the collective investment schemes is not available during the Valuation point, the Manager will value the investment based on the latest available price as at the day the particular collective investment schemes was last opened for business or transacted.

Price of the Fund will be published on next Business Day (T+1 day) and the Unit Holders may obtain the latest price of the Fund from our website at www.tainvest.com.my or FIMM's website.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off Policy	<ul style="list-style-type: none">• A cooling-off right is only given to an individual investor who is investing in any of the unit trust funds managed by us for the first time but shall not include the following persons:<ul style="list-style-type: none">a) our staff; andb) a person registered with a body approved by the SC to deal in unit trusts funds.• There is a cooling-off period of six (6) Business Days commencing from the day your application is accepted or deemed to be accepted by the Manager.
