Asset Allocation	<ul style="list-style-type: none">• Minimum of 60% to 98% of the Fund's NAV in Shariah-compliant equities and Shariah-compliant equity-related securities; and• At least 2% of the Fund's NAV in Liquid Assets.		
Performance Benchmark	<p>The performance of the Fund cannot be compared directly with any specific publicly available benchmark. However, the Fund has a target return of 8% per annum.</p> <p><i>Note:</i> This is not a guaranteed return and is only a measurement of the Fund's performance. The Fund may not achieve the target return in a particular financial year but targets to achieve this over Medium to Long Term.</p>		
Investment Policy & Strategy	<p>The Fund seeks to achieve its investment objective by investing primarily in global Shariah-compliant equities and Shariah-compliant equity-related securities (including Shariah-compliant ADRs, Shariah-compliant GDRs and Shariah-compliant warrants). The remaining of the Fund's NAV will be invested in Liquid Assets.</p> <p>The investment universe will include, but is not limited to, Shariah-compliant equities and Shariah-compliant equity-related securities listed on exchanges globally. The Fund invests in companies which is unconstrained by geographical location, but diversified across different countries with maximum 80% of the Fund's NAV per country. The exposure in each country is driven mainly by bottom up fundamental research and top down macro considerations as a check on the overall exposure. The Fund may employ Islamic financial derivative instruments for hedging purposes.</p>		

	<p>Up to 35% of the Fund's NAV may be invested in China "A" Shares listed on PRC stock exchange through the Stock Connects and/or any other mutual market access program as may be permitted by the relevant regulations from time to time. The Fund may also invest in Shariah-compliant equities via other eligible access products (where the underlying assets would comprise Shariah-compliant equities defined above).</p> <p>The Fund may invest in Islamic collective investment schemes to access investment opportunities which are not available through direct investments in Shariah-compliant equities and Shariah-compliant equity-related securities.</p> <p>The Fund may take temporary defensive positions that may be inconsistent with the Fund's strategy in attempting to respond to adverse economic, political or any other market conditions. In such circumstances, the Fund may temporarily hold up to 100% of the Fund's assets in Liquid Assets which may be inconsistent with the Fund's objective and asset allocation strategy as a defensive strategy.</p> <p>The investment management function of the Fund has been delegated to an external investment manager, Fullerton Fund Management Company Ltd.</p>

	AUD Hedged Class	AUD100	
	SGD Hedged Class	SGD100	
	GBP Hedged Class	GBP100	
	RMB Hedged Class	RMB100	
or such other lower amount as we may decide from time to time.			
Minimum Redemption	The minimum redemption of Unit for each Class is 500 Units or such other lesser number of Units as we may from time to time decide.		
Minimum Holdings	The minimum holdings of Unit for each Class is 500 Units or such other lesser number of Units as we may from time to time decide.		
Distribution Policy	Classes (for USD Class, MYR Class, MYR Hedged Class, AUD Hedged Class, SGD Hedged Class, GBP Hedged Class and RMB Hedged Class)	Distribution Rate	Frequency
	Class A	-	Incidental
	Class B	Fixed payout of 5.00% per annum	Monthly
	Distribution may be made out of income and/or capital of the Fund.		
	For Class A, distribution (if any) may be declared in our absolute discretion. There is no guarantee, assurance and/or certainty that we will make distributions.		
	For Class B, we will declare a fixed distribution. Further, we have the absolute discretion but not the obligation to declare a higher distribution (i.e. above the fixed rate of distribution) when the Fund performs well.		
	Our current intention is to declare distribution out of the income and/or capital of the Fund. We intend to declare distribution out of income as much as possible and to retain discretion to distribute out of capital as deemed appropriate by us. The rationale for providing the payment of distribution out of capital for the Fund is to allow for the ability to provide a stable and consistent level of distribution to investors.		
	For the Manager to generate the distributable income, all or parts of the fees and expenses incurred by the Fund may be charged to the capital of the Fund.		
	The effects of distributing income out of the Fund's capital would include but are not limited to the following:		
	<ul style="list-style-type: none">the value of the investments in the Fund may be reduced; andthe capital of the Fund may be eroded.		
The distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital of the Fund is depleted. As a result, the value of future returns would be			

	<p>diminished and there would be an impact on the future growth potential of the Fund as the available assets to grow in the future is the net of the expenses charged to the Fund.</p> <p>Although Class A and Class B may make distribution out of income and/or capital, the potential distribution out of capital for Class B is expected to be more substantial than Class A due to the fixed distribution for Class B.</p> <p>Please note that if distribution is made, such distribution is not a forecast, indication or projection of the future performance of the Fund. The Manager has the right to make provisions for reserves in respect of distribution of the Fund. For Class A, if the distribution available is too small or insignificant, any distribution may not be of benefit to the Unit Holders as the total cost to be incurred in any such distribution may be higher than the amount for distribution and the Manager has the discretion to decide on the amount to be distributed to the Unit Holders. The Manager also has the discretion to make distribution on an ad-hoc basis, taking into consideration the performance of the Fund.</p> <p>For the avoidance of doubt, any distribution will be rounded to two (2) decimal points (sen per Unit) based on the policy on rounding adjusting of the NAV per Unit of the Class.</p>

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number: 199501011387 (340588-T))
Trustee	CIMB Islamic Trustee Berhad (Registration Number: 198801000556 (167913-M))
Shariah Adviser	Amanie Advisors Sdn Bhd (Registration Number: 200501007003 (684050-H))
External Investment Manager	Fullerton Fund Management Company Ltd (UEN: 200312672W)

5. What are the possible outcomes of my investment?

This is a Shariah-compliant equity fund that invests primarily in global Shariah-compliant equities and Shariah-compliant equity-related securities. The performance of the Fund would be dependent on the asset classes that are investable by the Fund and reliant on the External Investment Manager’s expertise in managing the Fund to meet its investment objective.

The investors may gain from the appreciation of unit price as a result of the increase in value of the underlying and/or accrual of profit earned. However, investment involves risk. The value of the Fund may rise or fall. Distribution is incidental and may be made from realised gains or realised income and/or out of capital. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

General risks of investing in a unit trust fund	
Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
Manager Risk	This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.
Inflation Risk	Inflation risk is the risk that investor’s investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor’s purchasing power even though the value of the investment in monetary terms has increased.
Non-compliance Risk	This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the management company. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.
Financing Risk	This risk occurs when investors take a financing to finance their investment. The inherent risk of investing with financed money includes investors being unable to service the financing payments. In the event Units are used as collateral, investors may be required to top-up the investors’ existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the financing.
Operational Risk	Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor’s transactions with the Fund. The Manager has put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders’ interests.

Suspension Risk

The Manager may, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to the Manager being unable to determine the market value or fair value of a material portion of the Fund's investments. Upon suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be required to remain invested in the Fund for a longer period. In such a scenario, Unit Holder's investments will continue to be subjected to risk factors inherent to the Fund.

Specific risks associated to the Fund**External Investment Manager's Risk**

The investments of Fund are managed by the External Investment Manager. The Manager has no control over the External Investment Manager's investment technique, knowledge or management expertise. In the event of mismanagement of the Fund by the External Investment Manager, the NAV of the Fund would be affected negatively. The Fund would also be affected should there be any unresolved dispute between the Manager and the External Investment Manager. Although the probability of such occurrence is minor, should the situation arise, the Manager reserves the right to seek an alternative external investment manager to replace the External Investment Manager.

Shariah Non-Compliance Risk

As the Fund can only invest in Shariah-compliant instruments, the Fund may suffer losses when the External Investment Manager has to dispose any investments of the Fund to rectify any Shariah non-compliance. If this occurs, the value of the Fund may be adversely affected. This risk is, however, is mitigated through the appointment of Shariah Adviser, who will be responsible to ensure that the Fund is managed and administered in accordance with Shariah requirements.

Shariah Status Reclassification Risk

This risk refers to the risk of a possibility that the currently held Shariah-compliant equities or Shariah-compliant equity-related securities or Liquid Assets invested by the Fund may be reclassified as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the External Investment Manager will take the necessary steps to dispose of or withdraw such equities or equity-related securities or Liquid Assets.

Note: Please refer to cleansing process for the Fund for details.

Profit Rate Risk

Profit rate risk refers to the impact of profit rate changes on the valuation of Islamic money market instruments and Islamic deposits. When profit rates rise, Islamic money market instruments' prices generally decline and this may lower the market value of the Fund's investment in Islamic money market instruments. The reverse may apply when profit rates fall.

Profit rate fluctuations also affect the Islamic deposits' returns of the Fund. Profit rates offered by the financial institutions will fluctuate according to the overnight rate policy determined by Bank Negara Malaysia and this has direct correlation with the Fund's investment in Islamic deposits. The Fund's future reinvestment in Islamic deposits will benefit from the higher profit rate and in the event of falling profit rates, the Fund's future investment in Islamic deposits will be reinvested at lower profit rates which in turn will reduce the Fund's potential returns.

Islamic Collective Investment Scheme Risk

This risk refers to any adverse effect on the Islamic collective investment scheme in which the Fund is investing in that will impact the NAV of the Fund. For example, the Islamic collective investment scheme may underperform its benchmark due to poor market conditions and as a result, the NAV of the Fund will be adversely affected since the performance of the Fund is dependent on the performance of the Islamic collective investment scheme. While the External Investment Manager will exercise due skill and care in selecting the Islamic collective investment scheme, it does not have control over the management of the Islamic collective investment scheme and there is no guarantee that the investment objective of the Islamic collective investment scheme will be met.

Shariah-compliant Equity Risk

Prices of Shariah-compliant equities may be influenced and affected by many micro and macro factors such as economic, political, market, and company-specific changes. Such changes may adversely affect the value of the Shariah-compliant equities which can go up and down. Additionally, different industries, financial markets, and securities can react differently to these changes. This may give rise to fluctuations in the Fund's value and can adversely affect the overall portfolio performance in any given period, resulting in significant losses.

Shariah-compliant Equity Related Securities Risk

The value of the Shariah-compliant equity-related securities depends on the value of the underlying Shariah-compliant equities of that Shariah-compliant equity-related securities. Any upward movement in the value of the underlying Shariah-compliant equities may result an upward movement of the value of the respective Shariah-compliant equity-related securities, and vice versa. Hence, the movement of the value of the Shariah-compliant equity-related securities will affect the value of the Fund. The Fund may also invest in Shariah-compliant equity-related securities such as Shariah-compliant warrant, that have an expiry date and may experience time decay, and the erosion of value accelerates as the instrument advances to its expiry date. If the Shariah-compliant warrant is not exercised on or before the expiry date, the Shariah-compliant warrant will have no value and negatively impact the NAV of the Fund.

Shariah-compliant ADRs and Shariah-compliant GDRs are exposed to counterparty risks in the handling of the depository receipts, may have differing accounting regimes from underlying assets, additional regulatory scrutiny, and may face unequal voting rights or economic interests relative to underlying shares. The prices of Shariah-compliant ADRs and Shariah-compliant GDRs may diverge from the price of their underlying shares. Any adverse price movements of such Shariah-compliant ADRs and Shariah-compliant GDRs will adversely affect the Fund's NAV.

Islamic Financial Derivative Instruments (Islamic FDI) Risk

Islamic financial derivatives, if any, will only be used for the purpose of hedging the Fund's portfolio from certain anticipated losses such as those resulting from unfavourable exchange rate and equity market movements. However, every hedge comes with a cost. In a move to mitigate the risk of uncertainty, the Fund is now exposed to the risk of opportunity loss. Once hedged, the Fund cannot take full advantage of favourable exchange rate and equity market movements. If the exposure which the Fund is hedging against makes money, the act of hedging would have typically reduced the potential returns of the Fund. On the other hand, if the exposure which the Fund is hedging against losses money, the act of hedging would have reduced the loss, if successfully hedged.

Currency Risk

As the investments of the Fund may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV of the Fund in the Base Currency and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency.

(i) Currency risk at the hedged Class level

Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when the Base Currency moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by the investors in these hedged Classes.

Investors in the hedged Classes should also note that in the event if the size of the hedged Classes is relatively small, the Manager may not hedge the respective currency of the hedged Classes against the Base Currency if it is of the view that the hedging is not in the interests of the Fund and/or Unit Holders.

(ii) Currency risk at the non-hedged Class level

For investors in the non-hedged Classes, the impact of the exchange rate movement between the Base Currency and the currency of the respective non-hedged Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the Base Currency.

Country Risk

Investments of the Fund in foreign markets may be affected by changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. This may impact on the prices of the Fund's investment in those countries and consequently may also adversely affect the Fund's NAV.

Liquidity Risk

Liquidity risk exists when a particular investment is difficult to purchase or sell. The Fund's investment in illiquid securities may reduce the returns of the Fund because it may be unable to sell the illiquid securities at an advantageous time or price. Investments in Shariah-compliant securities with substantial market risk tend to have the greatest exposure to liquidity risk. Illiquid securities may be highly volatile and difficult to value. To mitigate the liquidity risk, the External Investment Manager will apply the minimum threshold for daily liquidity of the Shariah-compliant securities in the investment process. In the event the Shariah-compliant securities in the Fund may not be able to be liquidated within a specific period of time, or may be sold below their valuation due to insufficient liquidity in the markets, this will negatively impact the NAV of the Fund and the investments of the Unit Holders.

Concentration Risk

The Fund may not be well diversified in terms of the number of holdings and the number of issuers of securities that the Fund invests in. Consequently, the price movement of the Fund can be more volatile than a fund which is more diversified.

Counterparty Risk

The Fund will be exposed to credit risk of the counterparties for investments in Islamic financial derivative instruments/Liquid Assets with the Islamic financial institutions. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into Islamic financial derivatives instruments/Liquid Assets that are issued by counterparty with a minimum long-term credit rating of investment grade (including gradation and subcategories). Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). In the event where the rating of the counterparty falls below the minimum required, or the counterparty ceases to be rated, analysis will be conducted to assess the impact of unwinding the affected trades and replacement cost. We shall, within six (6) months or sooner, if the Trustee considers it to be in the best interests of the Unit Holders, take the necessary action to ensure that the requirements are complied with.

Distribution Out of Capital Risk

Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount the Unit Holders originally invested or from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital of the Fund has available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

Note:

Please refer to section "Risk Factors" of the Prospectus for further information. Please note that this is part of the specific risks associated to the Fund only. Unit Holders are required to refer to the full risks associated to the Fund in the Prospectus such as Taxation Risk, Stock Connects Risks, Risk of Investing in Emerging and Less Developed Markets, Political and Economic Risk, Small Capitalisation Companies Risk, Settlement Risk, Shariah-compliant Initial Public Offering ("IPO") Securities Risk.

Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed as the investor's name will not appear in the register of Unit Holders. The investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat).

FEE & CHARGES¹

7. What are the fees and charges involved?

Fees and charges related to the Fund:

Sales Charge ²	Up to 5.50% of the NAV per Unit of the Class is imposed either by IUTAs, unit trust consultants or by the Manager.		
Redemption Charge	No redemption charge will be imposed for each redemption.		
Switching Fee ³	Administrative fee for a switching transaction from each Class may be imposed, subject to our discretion.		
		Class A	Class B
	USD Class	USD25	
	MYR Class	-	
	MYR Hedged Class	-	
	AUD Hedged Class	AUD25	
	SGD Hedged Class	SGD25	
	GBP Hedged Class	GBP25	
	RMB Hedged Class	RMB25	
	or such other lower amount as we may decide from time to time.		
Transfer Fee	No transfer fee will be imposed for each transfer.		
Annual Management Fee ⁴	Up to 1.80% per annum of the NAV per Unit of the Fund, calculated and accrued on a daily basis.		
Annual Trustee Fee	0.04% per annum of the NAV of the Fund subject to a minimum of RM12,000 per annum calculated and accrued daily (excluding foreign custodian fees and charges) and is to be charged to the Fund by the Trustee.		

Notes:

1. We may for any reason and at any time, waive or reduce: (a) any fees (except the annual trustee fee¹); (b) other charges payable by you in respect of the Fund; and/or (c) transactional values including but not limited to the Units or amount, for any Unit Holder and/or investments made via any distribution channels or platform. Unit Holders and/or the Fund, shall be responsible for any taxes and/or duties chargeable in respect of all applicable fees, charges and expenses which may be imposed by the government or other authorities from time to time as provided in the Prospectus.
2. All sales charge is to be rounded to two (2) decimal points. The Manager reserves the right to waive and/or reduce the sales charge from time to time at its absolute discretion. Investors may negotiate with their preferred distribution channel for a lower sales charge. Investment through the distribution channel shall be subjected to their respective terms and conditions.
3. In addition to switching fee, Unit Holders will have to pay the difference in sales charge, if any, when switching from a Class to any other funds managed by us. No sales charge difference will be charged if the Class or fund (or its class) to be switched into has a lower sales charge.
4. We may, at our own discretion, from time to time, charge an annual management fee that is lower than that stated above.

Please refer to section "Fees, Charges and Expenses" of the Prospectus for further information.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT.

8. How often are valuations available?

The Fund will be valued on a daily basis, which is on the Valuation Day.

As the Fund may invest in foreign markets, the valuation of the Units in respect of a particular Valuation Day can only be carried out on the following Business Day at the close of business of the last relevant foreign market in which the Fund invests in. If the foreign market in which the Fund is invested therein is closed for business, the Manager will value the investment based on the latest available price as at the day the particular foreign market was last opened for business.

Price of the Fund will be published on next Business Day and the Unit Holders may obtain the latest price of the Fund from our website at www.tainvest.com.my or Federation of Investment Managers Malaysia (FIMM)'s website.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off Policy	<ul style="list-style-type: none"> • A cooling-off right is only given to an individual investor who is investing in any of the unit trust funds managed by us for the first time but shall not include the following persons: <ol style="list-style-type: none"> a) our staff; and b) a person registered with a body approved by the SC to deal in unit trust funds. • There is a cooling-off period of six (6) Business Days commencing from the day your application is accepted or deemed to be accepted by the Manager. Within these six (6) Business Days, you have a right to request for withdrawal of the investment. The refund for every Unit held by you pursuant to the exercise of your cooling-off right are as follows: <ol style="list-style-type: none"> a) if the NAV per Unit on the day the Units were first purchased ("original price") is higher than the price of a Unit at the point of exercise of the cooling-off right ("market price"), the market price at the point of cooling-off; or
---------------------------	--

¹ Any waiver and/or reduction of the annual trustee fee will be at the discretion of the Trustee.

	<p>b) if the market price is higher than the original price, the original price at the point of cooling-off; and</p> <p>c) the sales charge per Unit originally imposed on the day the Units were purchased.</p> <p>• All such requests must be received or deemed to have been received by us on or before 4.00 p.m. on a Business Day. Requests received or deemed to have been received after 4.00 p.m. will be treated as having been received on the following Business Day. If you submit your payment by cheque, the cooling-off period will accrue from the date on which the Manager receives the cheque and payment for the cooling-off will be made after the cheque has been cleared. The proceeds would generally be refunded to you within seven (7) Business Days of receiving the request for withdrawal.</p>						
Redemption of Units	<p>• Redemption of Units can be made by completing a transaction form available from any of our offices or by sending written instructions to any of our offices on any Business Day. Any valid redemption request received by our head office or any of our business centres on or before 4.00 p.m. on a Business Day will be processed based on the NAV per Unit calculated at the end of the Business Day. A redemption request received by us after 4.00 p.m. will be deemed to have been received on the next Business Day. If a redemption request is received by us on non-Business Day, such redemption request will be processed based on the NAV per Unit calculated at the close of the next Business Day.</p> <p>• Under normal circumstances, the redemption proceeds will be paid to you within the period set out in the table below based on the respective Classes.
