

TA Global Select Equity Fund (TAGSEL) - USD Class

Information as at 29 February 2024 (based on NAV to NAV with distributions reinvested)

Fund Objective

The Fund aims to achieve a return in excess of the global equity markets by investing in a collective investment scheme which invests primarily in companies globally.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

Investor Profile

The Fund is suitable for investors who:-

- seek long-term capital growth through exposure to global equity markets;
- understand the risks of the Target Fund, including the risk of capital loss; and
- are comfortable with the volatility and the risk of investing in a collective investment scheme.

Investment Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 85% of the Fund's NAV in the Target Fund and the remainder of the Fund's NAV will be invested in Liquid Assets.

The Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the hedged Classes which are not denominated in the Base Currency.

If and when the Manager considers the investment in the Target Fund is unable to meet the investment objective of the Fund or the Target Fund is no longer in the best interest of the Unit Holders, the Manager may replace the Target Fund with another collective investment scheme that is deemed more appropriate. As this is a feeder fund, the Manager will stay invested in the Target Fund as long as the Target Fund's investment objective and strategies will enable the Fund to meet its investment objective. Nevertheless, during adverse market conditions, the Manager may take a temporary defensive position which may be inconsistent with the Fund's strategy by reducing its investment into the Target Fund and increase the Fund's liquidity level by investing in Liquid Assets to safeguard the Unit Holders' interest.

Currently, the Fund invests in Class C (acc) - USD shares of the Target Fund. The Fund may change its entire investment into another class of the Target Fund (which must be denominated in the same currency) if the Manager is of the opinion that the change is in the interest of the Unit holders. If the Manager wishes to effect such change, the Manager will seek concurrence from the Trustee and the Unit Holders will be notified before implementation. Please refer to Chapter 2, The information on JPMorgan Investment Funds – Global Select Equity Fund ("Target Fund") for details of the Target Fund. Investors may obtain a copy of the Target Fund's Prospectus from the Manager upon request.

TA Global Select Equity Fund (TAGSEL) - MYR Hedged Class

Information as at 29 February 2024 (based on NAV to NAV with distributions reinvested)

Fund Objective

The Fund aims to achieve a return in excess of the global equity markets by investing in a collective investment scheme which invests primarily in companies globally.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

Investor Profile

The Fund is suitable for investors who:-

- seek long-term capital growth through exposure to global equity markets;
- understand the risks of the Target Fund, including the risk of capital loss; and
- are comfortable with the volatility and the risk of investing in a collective investment scheme.

Investment Strategy

The Fund seeks to achieve its investment objective by investing a minimum of 85% of the Fund's NAV in the Target Fund and the remainder of the Fund's NAV will be invested in Liquid Assets.

The Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the hedged Classes which are not denominated in the Base Currency.

If and when the Manager considers the investment in the Target Fund is unable to meet the investment objective of the Fund or the Target Fund is no longer in the best interest of the Unit Holders, the Manager may replace the Target Fund with another collective investment scheme that is deemed more appropriate. As this is a feeder fund, the Manager will stay invested in the Target Fund as long as the Target Fund's investment objective and strategies will enable the Fund to meet its investment objective. Nevertheless, during adverse market conditions, the Manager may take a temporary defensive position which may be inconsistent with the Fund's strategy by reducing its investment into the Target Fund and increase the Fund's liquidity level by investing in Liquid Assets to safeguard the Unit Holders' interest.

Currently, the Fund invests in Class C (acc) - USD shares of the Target Fund. The Fund may change its entire investment into another class of the Target Fund (which must be denominated in the same currency) if the Manager is of the opinion that the change is in the interest of the Unit holders. If the Manager wishes to effect such change, the Manager will seek concurrence from the Trustee and the Unit Holders will be notified before implementation. Please refer to Chapter 2, The information on JPMorgan Investment Funds – Global Select Equity Fund ("Target Fund") for details of the Target Fund. Investors may obtain a copy of the Target Fund's Prospectus from the Manager upon request.
