Past performance is not necessarily indicative of future performance. Unit prices and investment returns may go down, as well as up.

The basis of calculating and assumption made in calculating the returns:

$$\text{Percentage Growth} = \frac{N^1 - N^2}{N^2} \times 100$$

N¹ = NAV on the end of the period

N² = NAV on the beginning of the period

$$\text{* Average Total Return} = \frac{\text{Total Sub Period Returns}}{\text{Number of Sub Periods}}$$

$$\text{** Annual Total Return} = (1 + \text{Cumulative Return})^{N^3 / N^4} - 1$$

N³ = Number of periods per year

N⁴ = Total number of periods

Factor in for unit splits and distributions paid out (if any during the period)

TA Rainbow Income Fund 13

(For the financial period ended 31 October 2024)

Market Review

The global equity market has gone through a very mixed and uneven recovery year in 2023 with the United States (US) markets being the main beneficiaries. Funds have been flocking to Western equity markets, which have been viewed as a safe haven, in light of the continuing Ukraine-Russia war and the emergence of the Israel-Hamas war, coupled with financial woes such as attractively high interest rates and a strong US dollar (USD). Therefore, emerging markets have largely been ignored.

In the final meeting of the year in December 2023, the Federal Open Markets Committee (FOMC) kept the target Fed Funds Rate (FFR) unchanged in the 5.25% – 5.50% range. The policy decision was in line with market expectations, while in the accompanying FOMC statement, the “Dot Plot”, and Chairman Powell’s press conference remarks implied a dovish tilt. Specifically, the Federal Reserve’s (Fed) updated economic projection shows lower inflation along with three rate cuts in 2024. It sparked an overnight rally in US Treasuries (UST) which also spilled over to local trading in the Malaysian Government Securities (MGS) / Government Investment Issues (GII) market.

2024 started off well with the US market once again leading the way to its new highs. As the rising interest rate cycle reached its peak and with no new geopolitical crisis surfacing, investors’ confidence seemed to be slowly returning. The year continued its positive momentum in February 2024, with both the US and Japan markets leading new highs. Investors’ confidence seemed to be returning with better stability in the global market and the belief that the economy has found its base to grow on.

In March 2024, despite the ongoing wars and sanctions around the world, as well as the resultant economic uncertainties, the global equity market continued to charge forward to record new highs, on what we believed was a lack of investment options. While consumer demand for goods had been tepid at best, most businesses continued to expand or invest with the intention of countering the risk of sanctions or government restrictions.

In April 2024, the resiliency in US markets thus far in 2024 was commendable, despite the absence of interest rate cuts and after a multi-year of bull run. Better than expected employment and gross domestic product (GDP) growth numbers had been supporting the equity market. Although US inflation numbers had been stubbornly high at over 3% level, it remained a far cry from the almost 7% level during the pandemic period.

In May 2024, volatility continued to roil the equity market as investors warily sought more returns from those markets that were already charting at record high levels or had appreciated substantially.

The strong run in the equity market continued in June 2024 with equity indices charting record highs again for key global stock markets. Key events such as the recent general elections in France and United Kingdom (UK), the upcoming US presidential election, the cooling of US labour market and slowing economic growth globally as well as the softening in consumer spending seemed to have little impact on the market sentiment. Nonetheless, inflation and interest rates remained the key factors in influencing the market direction.

At the July 2024 FOMC meeting, which concluded on the last day of the month, the Fed kept the policy rate unchanged as expected by market participants. The monetary policy

TA Rainbow Income Fund 13

(For the financial period ended 31 October 2024)

statement, along with the Fed Chairman's press conference, highlighted the further disinflationary progress seen in recent economic data. They also communicated the central bank's increased attention to the risk of labour market weakness, which was widely interpreted by market participants as a dovish tilt.

Global markets appeared to have buckled under some stresses at the turn of August 2024 with the US markets causing the significant volatility. The widely expected first interest rate cut in the post-Covid era by the US Fed triggered an unexpected surge in withdrawal of investment funds from the US market. We believe this could be due to the huge unwinding of the USD-Japanese yen (JPY) carry trades and the subsequent massive fund flow movements.

In September 2024, the overall tone of the market appeared to be generally cautious given a series of unexpected global events ranging from the rising Middle East tensions, concern on US economic condition, the impending US Presidential elections to China's aggressive monetary stimulus policy, that will have significant impact on global fund flows and hence the stock market.

Thus far in October 2024, it has been generally a good year for the equity market despite the ongoing geopolitical tensions and uncertainties that the market has to experience. On a 10 months of 2024 (10M2024) year-to-date basis, we see both the NASDAQ and Dow Jones Index charted a gain of 20.5% and 10.8%, respectively while Sensex (India) recorded 9.9% increase, 16.8% gain for Nikkei 225 as well as 10.1% for our FBM KLCI. Since sitting on some decent returns and with the holiday seasons ahead, it is not surprising that the global equity markets have been in a quiet mode. With this, investors are turning risk off for the rest of the year while awaiting the results of the US presidential election as clarity on the future policy direction under a new US president is crucial before making key investment decisions.

The performance of the underlying assets of the Fund during the second observation on 30 August 2024 is as follows:

TA Rainbow Income Fund 13

(For the financial period ended 31 October 2024)

TA Rainbow Income Fund 13 - 2nd Observation

Underlying	Quote	Average Strike 8/30/2022	Q1 Price at 11/30/2023	Q2 Price at 2/29/2024	Q3 Price at 5/30/2024	Q4 Price at 8/30/2024	Average Quarterly Price	% Change	% Weightage (45-30-25)	Total Return

58P 500 Daily Risk Control 10% USD	SPXT10UT	361.959	406.795	449.766	459.906	484.365	415.5311	14.8006	0.45	6.6603
Total Return Index										8.8411

Currency Rate at Start (USD/MYR):	4.4845	
Currency Rate (USD/MYR):	4.3310	As at 8/30/2024
Currency Factor (a):	0.9658	
Gross Total Return for Second Observation (b):	8.8411	
First Observation Payout (30 August 2023) (c):	2.7993	
Second Observation Payout before Currency Factor (30 August 2024) (d=b-c):	6.0418	
Second Observation Payout after Currency Factor (30 August 2024) (e=d*a):	5.8349	
Distribution rate (sen per unit):	6.01	

Payout Formula:

Performance (i,T) = For each Underlying Asset (i), $\left[\frac{\text{Average Quarterly Price Level (i,T)} - \text{Strike Level (i,T)}}{\text{Strike Level (i,T)}} \right] \times 100\%$

where:

$$\text{Average Quarterly Price Level (i,T)} = \frac{\text{Price}_{i,t} + \text{Price}_{i,t+3m} + \dots + \text{Price}_{i,t+3n}}{q}$$

n = 12.2436 which is the number of months from the Commencement Date to Observation Date

q = 4.812 which is the number of quarters from the Commencement Date to Observation Date

t = First quarter date from the Commencement Date or t=3

T = 1,2,3 which is the anniversary date commencing from the Observation Date

Payout (T) = Participation Rate \times Return (T)

$$\text{Return (T)} = \text{Max} \left[0, \text{Weight}(i) \times \text{Performance}(i,T) - \sum_{t=1}^{T-1} \text{Return}(T) \right] \text{ for } T = 2 \text{ and } 3$$

$$\text{Return (1)} = \text{Max} [0, \text{Weight}(i) \times \text{Performance}(i,T)] \text{ for } T=1$$

Note: When T=2, indicating the Second Observation for the Fund, the performance for that period is calculated based on average quarterly performance from the first quarter date to Second Observation Date. Hence, the second year's performance will minus the first year's performance.

(Source: TA Investment Management Berhad, as of 31 October 2024)

DWS Concept Kaldemorgen LC [DWSKALC LX]

The fund rose by 7.13% over the one-year period ended 31 October 2024. In order to achieve total return, the fund invests in different markets and instruments depending on the overall economic cycle and assessment of the fund management with flexible allocation (up to 100% of its assets can be invested in equities, bonds, certificates, money market instruments and cash). This has contributed to a 3-year volatility of 4.7% as of October 2024 and greater exposure across asset classes, sectors and geographies. Based on Morningstar, the investment style of the fund is categorised as a large-cap fund with a blend of value and growth strategies.

As of October 2024, the fund holds 39.4% in equities, 40.3% in bonds, 10.3% in cash, 8.2% in alternative investments, and 1.3% in balanced fund. Euro (54.6%) and USD (34.2%) dominate the portfolio's currency exposure as the major portfolio's geographical exposures are the European Union countries (41.1%) and US (28.5%). For equity components, it spreads the holdings across both cyclical and non-cyclical sectors with the majority in cyclical sector, proven with the top 5 holdings in Health Care (8.0%), Financials (6.8%), Information Technology (5.4%), Communication Services (4.9%), and Industrials (3.5%). The fixed income instruments are mostly with investment-grade credit rating (98.2%), comprising of AAA (44.3%), AA (32.6%), A (8.0%), and BBB (13.3%).

October 2024 was characterised by strong fluctuations on the financial markets, with both bonds and equities ultimately losing ground. The combination of continued strong US economic data and investors' focus on the US election outcome fuelled concerns about a renewed flare-up in inflation and a departure from the Fed's path of interest rate cuts, which was thought to be safe. The ongoing tensions in the Middle East were also a negative factor. Buoyed by the appreciation of the USD (+2% against the euro), the MSCI

TA Rainbow Income Fund 13

(For the financial period ended 31 October 2024)

World Index gained around 0.8% in euro terms. Gold gained almost 7% (in euros) and the price of oil gained around 5% (West Texas Intermediate (WTI) in euros).

(Source: DWS Investment GmbH, as of October 2024)

Allianz US Short Duration High Income Bond [AUSSDAM LX]

Over the one-year period ended 31 October 2024, the fund delivered a total return of 12.11%. The fund concentrates on high-yielding US bonds with short duration and aims to attain above average income at below average volatility. As of October 2024, the portfolio's effective duration is 1.98 years (duration to worst: 2.45 years), and most of the top 10 holdings have a maturity of less than 5 years. The portfolio's yield to maturity is 7.86% (yield to worst: 8.21%) with a 5-year volatility of 7.59% and an average rating of B1/B+. With a total of 109 securities in its holdings, the fund's exposure is spread across industries, with a focus on construction, communication or lease financing.

(Source: Allianz Global Investors, as of October 2024)

S&P 500 Daily Risk Control 10% USD Total Return Index [SPXT10UT]

The index generated a total return of 25.17% over the one-year period ended 31 October 2024. The index relies on S&P 500 methodology and overlays mathematical algorithms to maintain specific volatility target (10%). Index exposure is dynamically rebalanced based on observed S&P 500 historic volatility to maintain the 10% volatility target. Volatility is calculated as a function of historical returns that uses exponential weightings to give more significance to recent observations.

As of 31 October 2024, the index's asset class exposures comprise of equity (83.91%) and cash (16.09%). According to S&P Global's performance review, although US equities were up for most of the month, Halloween saw a drop in the S&P 500 that brought the index into negative territory for the month. This was in part due to mixed earnings results in the Information Technology sector, leading to a drop in the Magnificent 7 (31.57% of the index as of 31 October 2024). The S&P 500 was down 0.99% in October 2024.

(Source: S&P Global, as of October 2024)

Market Outlook And Investment Strategy

On the fixed income portion, we maintain the view of limited upside risk to the Overnight Policy Rate (OPR), consensus estimate: no change at 3.00% in 2024, given Bank Negara Malaysia's remarks in the past few Monetary Policy Committee meetings. Meanwhile, the supply-side risk factors on inflation remain with ongoing geopolitical conflicts as well as planned rollout of the government's subsidies rationalisation initiatives. Following the market correction in October 2024, we consider current market valuation of government bonds fair, especially for investors with a longer investment horizon. On relative valuation basis, we prefer positioning in the front end and belly of the yield curve. In the meanwhile, headline and UST-driven market volatility continue to provide trading opportunities.

TA Rainbow Income Fund 13

(For the financial period ended 31 October 2024)

In terms of Malaysian Ringgit corporate bonds, we expect the pipeline for primary corporate bond issuances to slow down towards year end, while demand remains resilient. We would recommend short to neutral duration positioning, selective primary issuances participation and/or entry at times of market weakness. We prefer credits with strong balance sheets, proven execution capability and financial discipline amidst uncertain macroeconomic prospect.

(Source: TA Investment Management Berhad, as of 31 October 2024)

Soft Commission

The Manager retains soft commissions received from brokers only if the goods and services are of demonstrable benefits to the Unitholders as allowed under the Securities Commission's Guidelines on Unit Trust Funds. The soft commission received include research and advisory services which are used to support the investment decision making process and are of demonstrable benefit to the Unitholders of the Fund and there was no churning of trades.

State Of Affairs Of The Fund

There has been neither significant changes to the state of affair of the Fund nor any circumstances that materially affect any interests of the Unitholders during the financial year under review.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

TRUSTEE'S REPORT

TO THE UNIT HOLDERS OF TA RAINBOW INCOME FUND 13 ("Fund")

We have acted as Trustee of the Fund for the financial year ended 31 October 2024 and we hereby confirm to the best of our knowledge, after having made all reasonable enquiries, TA Investment Management Berhad has operated and managed the Fund during the year covered by these financial statements in accordance with the following:

1. Limitations imposed on the investment powers of the management company under the deed, securities laws and the Guidelines on Unit Trust Funds;
2. Valuation and pricing is carried out in accordance with the deed; and
3. Any creation and cancellation of units are carried out in accordance with the deed and any regulatory requirement.

We are of the opinion that the distribution of income by the Fund is appropriate and reflects the investment objective of the Fund.

For and on behalf of
CIMB Commerce Trustee Berhad

Datin Ezreen Eliza binti Zulkiplee

Chief Executive Officer

Kuala Lumpur, Malaysia

Date: 31 December 2024

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

STATEMENT BY THE MANAGER

We, CHOO SWEE KEE and MOHAMMED A'REEFF BIN ABDUL KHALID, being two of the Directors of TA INVESTMENT MANAGEMENT BERHAD, do hereby state that, in the opinion of the Manager, the accompanying financial statements set out on pages 17 to 45, are drawn up so as to give a true and fair view of the financial position of TA RAINBOW INCOME FUND 13 as at 31 October 2024 and of its financial performance and cash flows for the financial year ended on that date in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MFRS Accounting Standards") and IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

On behalf of the Manager,

CHOO SWEE KEE

MOHAMMED A'REEFF BIN ABDUL KHALID

Kuala Lumpur, Malaysia

Date: 31 December 2024

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

INDEPENDENT AUDITORS' REPORT

TO THE UNITHOLDERS OF TA RAINBOW INCOME FUND 13

(Incorporated in Malaysia)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of TA Rainbow Income Fund 13 (hereinafter referred as "the Fund"), which comprise the statement of financial position as at 31 October 2024, and the statement of comprehensive income, statement of changes in net asset value and statement of cash flows for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 17 to 45.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 31 October 2024, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards as issued by the International Accounting Standards Board ("IFRS Accounting Standards").

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our auditors' report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Fund and Manager of the Fund in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The Manager of the Fund is responsible for the other information. The other information comprises the information included in the Fund Annual Report, but does not include the financial statements of the Fund and our auditors' report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

Information Other than the Financial Statements and Auditors' Report Thereon (continued)

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Manager and Trustee for the Financial Statements

The Manager of the Fund is responsible for the preparation of financial statements of the Fund that give a true and fair view in accordance with Malaysian Financial Reporting Standards and IFRS Accounting Standards. The Manager is also responsible for such internal control as the Manager determines is necessary to enable the preparation of financial statements of the Fund that are free from material misstatement, whether due to fraud or error. The Trustee is responsible for ensuring that the Manager maintains proper accounting and other records as are necessary to enable true and fair presentation of the financial statements.

In preparing the financial statements of the Fund, the Manager is responsible for assessing the ability of the Fund to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Manager either intend to liquidate the Fund or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Fund as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Fund, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

Auditors' Responsibilities for the Audit of the Financial Statements (continued)

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Fund.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Manager.
- Conclude on the appropriateness of the Manager's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Fund to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Fund or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Fund, including the disclosures, and whether the financial statements of the Fund represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with the Manager regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matter

This report is made solely to the unit holders of the Fund, as a body, and for no other purpose. We do not assume responsibility to any other person for the content of this report.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

NOTES TO THE FINANCIAL STATEMENTS FOR THE FINANCIAL YEAR ENDED 31 OCTOBER 2024

1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

TA Rainbow Income Fund 13 ("the Fund") was constituted pursuant to the execution of a Deed of Trust ("the Deed") dated 07 June 2022 between the Manager, TA Investment Management Berhad and the Trustee, CIMB Commerce Trustee Berhad.

The principal activity of the Fund is to invest in "Permitted Investments" as defined under Clause 7 of the deed, which include derivative products, bonds, and money market instruments. The Fund commenced its operations on 06 July 2022 and will continue its operations until terminated by the Trustee as provided under Clause 12 of the deed. The Fund is a close-ended fund maturing on the third (3rd) anniversary of the Commencement Date.

The Manager, TA Investment Management Berhad, a company incorporated in Malaysia, is a wholly-owned subsidiary of TA Securities Holdings Berhad. Its ultimate holding company is TA Enterprise Berhad. The Manager's principal activities are the establishment and management of unit trust funds and fund management. The Manager is licensed to carry out dealing in securities and fund management activities under the Capital Markets and Services Act 2007.

The financial statements were authorised for issue by the Board of Directors of the Manager in accordance with a resolution on 31 December 2024.

2. BASIS OF PREPARATION

(a) Statement of Compliance

The financial statements of the Fund have been prepared in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MFRS Accounting Standards") and IFRS Accounting Standards as issued by International Accounting Standards Board ("IFRS Accounting Standards") collectively known as the "Standards" and the Guidelines on Unit Trust Funds.

The following are accounting standards, interpretations and amendments of the MFRS Accounting Standards that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Fund:

MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2024

- Amendments to MFRS 16, *Leases - Lease Liability in a Sale and Leaseback*
- Amendments to MFRS 101, *Presentation of Financial Statements - Non-current Liabilities with Covenants and Classification of Liabilities as Current or Non-current*
- Amendments to MFRS 107, *Statement of Cash Flows* and MFRS 7, *Financial Instruments: Disclosures - Supplier Finance Arrangements*

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

2. BASIS OF PREPARATION (CONTD.)

(a) Statement of Compliance (contd.)

MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2025

- Amendments to MFRS 121, *The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability*

MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2026

- Amendments to MFRS 9, *Financial Instruments* and MFRS 7, *Financial Instruments: Disclosures – Classification and Measurement of Financial Instruments*
- Amendments that are part of Annual Improvements – Volume 11:
 - Amendments to MFRS 1, *First-time Adoption of Malaysian Financial Reporting Standards*
 - Amendments to MFRS 7, *Financial Instruments: Disclosures*
 - Amendments to MFRS 9, *Financial Instruments*
 - Amendments to MFRS 10, *Consolidated Financial Statements*
 - Amendments to MFRS 107, *Statement of Cash Flows*

MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2027

- MFRS 18, *Presentation and Disclosure in Financial Statements*
- MFRS 19, *Subsidiaries without Public Accountability: Disclosures*

MFRS Accounting Standards, Interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

- Amendments to MFRS 10, *Consolidated Financial Statements* and MFRS 128, *Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The Fund plans to apply the above mentioned accounting standards and amendments:

- from the annual period beginning on 1 November 2024 for those amendments that are effective for annual periods beginning on or after 1 January 2024, except for amendments to MFRS 16 which are not applicable to the Fund.
- from the annual period beginning on 1 November 2025 for the amendments that are effective for annual periods beginning on or after 1 January 2025.
- from the annual period beginning on 1 November 2026 for those amendments that are effective for annual periods beginning on or after 1 January 2026.
- from the annual period beginning on 1 November 2027 for the accounting standard that is effective for annual periods beginning on or after 1 January 2027, except for MFRS 19 which is not applicable to the Fund.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

2. BASIS OF PREPARATION (CONTD.)

(a) Statement of Compliance (contd.)

The initial application of the above mentioned accounting standards or amendments is not expected to have any material financial impact to the financial statements of the Fund.

(b) Basis of measurement

The financial statements of the Fund have been prepared on the historical cost basis except for financial assets at fair value through profit or loss ("FVTPL") which are measured at their fair value.

(c) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Fund's functional currency.

(d) Significant Accounting Estimates and Judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

3. MATERIAL ACCOUNTING POLICIES

(a) Material accounting policies information

The Fund adopted amendments to MFRS 101, *Presentation of Financial Statements* and MFRS Practice Statement 2 - *Disclosures of Accounting Policies* from 1 August 2023. The amendments require the disclosure of 'material', rather than 'significant', accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

Although the amendments did not result in any changes to the Fund's accounting policies, it impacted the accounting policy information disclosed in the financial statements. The material accounting policy information is disclosed in the respective notes to the financial statements where relevant.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

3. MATERIAL ACCOUNTING POLICIES (CONTD.)

(b) Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Interest income is recognised using the effective interest rate method.

4. MANAGER'S FEE

No manager's fee is imposed on this Fund.

5. TRUSTEE'S FEE

Trustee's fee is computed on a daily basis at 0.04% (2023: 0.04%) per annum of the NAV of the Fund, subject to minimum of RM6,000 (2023:RM6,000) per annum.

6. REDEMPTION CHARGE (EXIT FEE)

A charge of 3% (2023: 3%) of the NAV of the Fund for early redemption by unitholders before the Fund's maturity date.

7. INCOME TAX EXPENSE

Domestic income tax expense for the period is calculated at the Malaysian statutory tax rate of 24% of the taxable profit for the financial year/period. Foreign source income will be subject to tax at prevailing rate of 24% with effect from 1 July 2022.

In accordance with Schedule 6 of the Income Tax Act 1967, interest income earned by the Fund is exempted from Malaysian tax, except for interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

7. INCOME TAX EXPENSE (CONTD.)

A reconciliation of income tax expense applicable to net income before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

	Year ended 31.10.2024 RM	06.07.2022 to 31.10.2023 RM
Net income before tax	6,237,335	1,489,741
Taxation at Malaysian statutory rate of 24%	1,496,960	357,538
Effects of interest and other income not subject to tax	(1,493,546)	(564,163)
Effects of expenses not deductible for tax purpose	7,558	205,303
Restriction on tax deductible expenses for unit trust funds	2,400	2,400
Overprovision in prior year	(153)	-
Income tax expense for the financial year	13,219	1,078

13. TOTAL EXPENSE AND PORTFOLIO TURNOVER RATIOS

(a) Total Expense Ratio

The total expense ratio for the financial year ended 31 October 2024 was 0.08% (2023: 0.08%). This ratio represents total expenses expressed as an annualised percentage of the Fund's average NAV, calculated on a daily basis.

(b) Portfolio Turnover Ratio

The portfolio turnover ratio for the financial year ended 31 October 2024 was 0.06 times (2023: 0.70 times). This ratio represents the average of the total acquisitions and disposals of the Fund for the period over the average NAV of the Fund for the financial period calculated on a daily basis.

14 SEGMENT INFORMATION

The Manager and the Investment Committee of the Fund are responsible for allocating resources available to the Fund in accordance with the overall investment strategies as set out in the Investment Policy of the Fund. The Fund is managed by two segments:

- A portfolio of unquoted structured products and unquoted bonds; and
- A portfolio of money market instruments.

The investment objective is to provide potential annual returns over the medium-term of the underlying investment instruments.

The segment information is presented below:

	Unquoted structured products and unquoted bonds RM	Money market instruments RM	Total RM
Year from 01.11.2023 to 31.10.2024			
Interest income	1,793,142	226,226	2,019,368

15 FINANCIAL INSTRUMENTS (CONTD.)

(b) Financial instruments that are carried at fair value

The Fund's financial assets at FVTPL are carried at fair value. The fair values of these financial assets were determined as follows:

Unquoted structured products outside Malaysia

For unquoted structured products, the fair value was determined by reference to their Net Present Value ("NPV") of nominal amount derived from Monte Carlo Model, at the end of the reporting year obtained from the issuer of the investment.

Unquoted bonds in Malaysia

Fair values was determined directly by reference to their marked to market price at the financial position date, quoted by Bond Pricing Agency Malaysia.

(c) Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts approximate the fair values due to their short term nature:

- Deposit with financial institution
- Amount due from brokers
- Interest receivable
- Cash at bank
- Amount due to Trustee
- Other payables and accruals

(d) Fair value hierarchy

The Fund uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. prices) or indirectly (i.e. derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

15 FINANCIAL INSTRUMENTS (CONTD.)

(d) Fair value hierarchy (contd.)

Financial assets at FVTPL:	Level 1 RM	Level 2 RM	Level 3 RM	Total RM
As at 31.10.2024				
Unquoted structured products outside Malaysia	-	-	2,598,132	2,598,132
Unquoted bonds in Malaysia	-	40,158,000	-	40,158,000
	-	40,158,000	2,598,132	42,756,132
As at 31.10.2023				
Unquoted structured products outside Malaysia	-	-	1,690,759	1,690,759
Unquoted bonds in Malaysia	-	45,200,700	-	45,200,700
	-	45,200,700	1,690,759	46,891,459

Level 3 fair value

Type	Description of technique and input used	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Unquoted structured products	The fair value of the unquoted structured products is derived based on the Monte Carlo model.	• Equity correlation	The estimated fair value would increase/(decrease) if the assets correlation were (lower)/higher The estimated fair value would increase/(decrease) if the asset volatility were higher/(lower)

Sensitivity analysis

Management believes that the changing in one or more of the unobservable inputs would not be material. The sensitivity of the fair value measurements to changes in unobservable inputs are therefore not presented.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

16 FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES

(a) Introduction

The Fund maintains investment portfolio in a variety of financial instruments as dictated by its Trust Deed and investment management strategy.

The Fund is exposed to a variety of risks including market risk (which includes interest rate risk), credit risk/counterparty risk and liquidity risk. Whilst these are the most important types of financial risks inherent in each type of financial instruments, the Manager and the Trustee would like to highlight that the list does not purport to constitute an exhaustive list of all the risks inherent in an investment in the Fund.

The Fund's objective in managing risks is the creation and protection of unitholders' value. Risk is inherent in the Fund's activities, but it is managed through a process of ongoing identification, measurement and monitoring of risk. Financial risk management is also carried out through sound internal control systems and adherence to the investments restrictions as stipulated in the deed, the Securities Commission's Guidelines on Unit Trust Funds and the Capital Markets and Services Act 2007.

(b) Risk management structure

The Fund's Manager is responsible for identifying and managing risks. The Board of Directors of the Manager are ultimately responsible for the overall risk management approach within the Fund.

(c) Risk measurement and reporting system

Risk monitoring and controlling mechanism are primarily set up and to be performed based on limits established by the Manager and the Trustee. These limits reflect the investment strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. In addition, the Fund monitors and measures the overall risk bearing capacity in relation to aggregated risk exposures across all risks type and activities.

(d) Risk mitigation

The Fund has investment policy that set out its overall business strategies, its tolerance for risk and its general risk management philosophy. The Manager also has a Compliance Department to ensure that the Fund complies with the various regulations and guidelines as stipulated in its deed, the Securities Commission's Guidelines on Unit Trust Funds and the Capital Markets and Services Act 2007.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

16 FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(e) Excessive risk concentration

Risk concentration indicates the relative exposure of the Fund's performance to developments affecting a particular industry or geographical location. Concentration of risk arises when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographical region, or have similar economic features that would cause their abilities to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of foreign exchange risk may arise if the Fund has a significant net position in a single foreign currency, or aggregate net position in several currencies that tend to move together.

In order to avoid excessive concentration of risk, the Fund's policies and procedures include specific guidelines to focus on maintaining a diversified portfolio in accordance with the deed, investment management's guidelines and the Securities Commission's Guidelines on Unit Trust Funds. Portfolio diversification across a number of sectors and industries minimises the risk not only of any single company's securities becoming worthless but also all holdings suffering uniformly adverse business conditions. Specifically, the deed and Securities Commission's Guidelines on Unit Trust Funds limit the Fund's exposure to a single entity/industry sector to a certain percentage of its NAV.

(f) Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rate. The maximum risk resulting from financial instruments equals their fair values at the reporting date.

(i) Interest rate risk

In general, when interest rates rise, prices of unquoted fixed income securities will tend to fall or vice versa. Therefore, the NAV of the Fund may also tend to fall when interest rates rise or are expected to rise. However, investors should be aware that should the Fund hold an unquoted fixed income security until maturity, such price fluctuations would dissipate as it approaches maturity, and the NAV shall not be affected at maturity.

Interest rate risk sensitivity

The table below summarises the sensitivity of the Fund's net income after taxation and NAV to movements in prices of unquoted bonds held by the Fund as a result of movement in interest rate. The analysis is based on the assumptions that the interest rate increase and decrease by 1% with all other variables held constant.

(g) Credit risk

Credit risk relates to creditworthiness of the issuers of fixed income instruments and its expected ability to make timely payments of interest and/or principal. Investing in non-investment grade and unrated fixed income instruments may result in the Fund being highly exposed to risk of non-payment or untimely payment of interest and/or principal that may cause greater volatility on the Fund's value.

Counterparty risk concerns the Fund's investment in unquoted bonds and unquoted structured products. Counterparty risk is prevalent as the potential returns derived from unquoted bonds and unquoted structured products are dependent on the ongoing ability and willingness of the issuer i.e. a financial institution to fulfill its financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

16 FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(g) Credit risk (contd.)

Financial assets that are either past due or impaired

There are no financial assets that are either past due or impaired at the end of the reporting year.

Credit risk exposure

As at the end of reporting period, the Fund's maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statement of financial position.

16 FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(h) Liquidity risk

Liquidity risk is defined as the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Exposure to liquidity risk arises because of the possibility that the Fund could be required to pay its liabilities or redeem its units earlier than expected. The Fund is exposed to the risk of cash redemption of its units on a regular basis. Units sold to unitholders by the Manager are redeemable at the unitholder's option based on the Fund's NAV per unit at the time of redemption calculated in accordance with the deed.

It is the Fund's policy that the Manager monitors the Fund's liquidity position on a daily basis. The Fund also manages its obligation to pay for redemption of units when required to do so and its overall liquidity risk by requiring a 3-day notice period before redemption.

The Manager's policy is to always maintain a prudent and sufficient level of liquid assets so as to meet normal operating requirements and expected redemption requests by unitholders.

The following table summarises the maturity profile of the Fund's financial assets and financial liabilities. The table also analyses the maturity profile of the Fund's financial assets against the Fund's contractual commitments to provide an overview of the Fund's liquidity.

As at 31.10.2024	Less than 1 year RM	1-2 years RM	Total RM

Notes:

(i) Financial assets

Analysis of financial assets at FVTPL into maturity groupings is based on the expected date on which these assets can be realised. The analysis into maturity grouping is based on the remaining period from the end of the reporting date to the contractual maturity date or if earlier, the expected date on which the assets will be realised.

(ii) Financial liabilities

The maturity grouping is based on the remaining period from the end of the reporting date to the contractual maturity date. When a counterparty has a choice of when the amount is to be paid, the liability is allocated to the earliest period in which the Fund can be expected to pay.

(iii) Equity

As unitholders can request for redemption on their units by giving the Manager a 3 days notice period, equity is categorised as having a maturity of "Less than 1 year". However, the Fund believes that it will be able to liquidate all its investments should the need arise to satisfy all the redemption requirements of the Fund.

TA Rainbow Income Fund 13

(For the financial year ended 31 October 2024)

16 FINANCIAL RISK AND MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

(i) Structured product risk

This risk arises from investments in a structured product which is structured by a third party. The product is linked to the performance of its underlying investments, hence exposing the Fund to the risk of the underlying investment, for example, investments in a structured product which is linked to the performance of a collective investment scheme, will expose the Fund to the risk of the collective investment scheme. As such, the price of the structured product will be dependent on the price of its underlying, where a drop in the price of the collective investment scheme that the structured product is linked to, will also result in a drop in the price of the structured product. As the structured product is structured by a third party, the Fund will also be exposed to counterparty risk and default risk arising from the third party's inability to meet the agreed terms.

17 CAPITAL MANAGEMENT

The primary objective of the Fund's capital management is to ensure that it maximises unitholder's value by expanding its fund size to benefit from economies of scale and achieving growth in NAV from the performance of its investments.

The Fund manages its capital structure and makes adjustments to it, in light of changes in economic conditions. To maintain or adjust the capital structure, the Fund may issue new or bonus units, make distribution payment, or return capital to unitholder by way of redemption of units.

No changes were made in the objectives, policies or processes during the financial year ended 31 October 2024 and financial period ended 31 October 2023.
