PRODUCT HIGHLIGHTS SHEET

TA RAINBOW INCOME FUND 18

BRIEF INFORMATION OF THE PRODUCT

1. What is this product about?

TA Rainbow Income Fund 18 (the "Fund") aims to provide income whilst preserving capital on Maturity Date.

**The Fund will invest in Derivatives which enable the Fund's performance to be exposed to the performance of the Rainbow Basket for potential annual payouts. Income distribution will be paid to you by way of cash deposit to a bank account held in your own name.*

Investors are advised that **this Fund is neither a capital guaranteed nor a capital protected fund**. The capital will be preserved by investments in Fixed Income Instruments. **Consequently, the return of capital is SUBJECT TO the credit and default risk and currency risk associated with the investments in Fixed Income Instruments.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

PRODUCT SUITABILITY

2. Who is this product suitable for?

The Fund is suitable for investors who:-

- seek Medium Term investment horizon;
- have low to moderate risk profile; and
- seek capital preservation*.

**The Fund is neither a capital guaranteed nor a capital protected fund.*

KEY PRODUCT FEATURES

3. What am I investing in?

Fund Category	Fixed Income (Close-ended).
Launch Date	21 November 2022.
Fund Type	Income.
Base Currency	Ringgit Malaysia.
Offer Price	RM1.0000.
Asset Allocation	<ul style="list-style-type: none"> • Minimum of 85% of the Fund's NAV in Fixed Income Instruments. • Maximum of 10% of the Fund's NAV in Derivatives. • Maximum of 5% of the Fund's NAV in deposits for liquidity purposes.
Performance Benchmark	Maybank 12 months fixed deposit rate as at the Commencement Date of the Fund.
Investment Policy & Strategy	<p>The Fund seeks to achieve its investment objective by investing at least 85% of its NAV in Fixed Income Instruments to repay the initial investment of investors at Maturity Date (including sales charge). Up to 10% of the Fund's NAV will be invested in Derivatives linked to the performance of the Rainbow Basket to generate return.</p> <p>The Fund intends to invest in deposits and/or money market instruments issued by Malaysian financial institutions rated at least "A" by RAM or equivalent rating by other domestic rating agencies. Whereas for investment in Bonds, the Bonds will be rated at least "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. The Fund may invest up to 50% of its NAV in foreign Bonds should the Manager finds it appropriate to do so. The tenure of the Bonds will match (i.e.: 3 years) or will be similar (i.e.: shorter than 3 years) to the Tenure of the Fund.</p> <p>The Fund may enter into derivative contracts which include, but are not limited to foreign exchange forward contracts and swap for the purposes of hedging and not for speculative purposes. Foreign exchange forward contracts and other currency derivatives may be used to hedge the returns and principal of all foreign denominated Bonds back to the Base Currency.</p> <p>As the Fund is a close-ended fixed income fund, the Fund will be managed on a semi-active basis by the Manager. At the Maturity Date, issuers of the Fixed Income Instruments held by the Fund will be obligated to pay the notional amount provided there is no occurrence of credit default by the issuers. In order to mitigate credit and default risk, the selection will be based on stringent credit research and analysis. Semi-active management of the portfolio refers to the possibility that securities in the portfolio may be traded and rebalanced if needed to address default risk and/or uptrend interest rate concerns.</p>

Minimum Initial Investment	RM1,000 or such lower amount as we may from time to time decide.
Minimum Additional Investment	RM1,000 or such lower amount as we may from time to time decide.
Minimum Redemption	1,000 Units or such other lesser number of Units as we may from time to time decide.
Minimum Holdings	1,000 Units or such other lesser number of Units as we may from time to time decide.
Distribution Policy	Subject to availability of income, distribution will be made once a year.
Maturity Date	A date which falls on the third (3 rd) anniversary of the Commencement Date. If the said date falls on a non-Business Day, the Maturity Date shall be the next Business Day.

Note:

Please refer to Chapter 1 and Chapter 3 of the Prospectus for further information.

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number: 199501011387 (340588-T))
Trustee	CIMB Commerce Trustee Berhad (Registration Number: 199401027349 (313031-A))

5. What are the possible outcomes of my investment?

The Fund intends to repay the initial investment of investors at Maturity Date based on the investment in Fixed Income Instruments. For investments in Derivatives, the Fund aims to provide potential returns based on the performance linked to the Underlying Assets. The Fund is neither a capital guaranteed nor a capital protected fund. Investors may not get back the full amount invested and the principal amount invested may be at risk. Annual returns are also not fixed or guaranteed.

KEY RISKS

6. What are the key risks associated with this product?

Specific risks related to the Fund:

Credit and Default Risk	Credit risk relates to the creditworthiness of the issuers of the Fixed Income Instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Fixed Income Instruments. In the case of rated Bonds, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of the Fixed Income Instruments either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Fixed Income Instruments. This could adversely affect the value of the Fund. The Manager seeks to mitigate this risk by investing not more than 20% of the Fund's NAV in any single issuer, and only if the Fixed Income Instruments are rated by any global or domestic rating agency to be of the best quality and offer highest safety for timely payment of interest and principal, such single issuer limit may be increased to 30% of the Fund's NAV. Investors are advised that despite any effort by the Manager in the selection of Fixed Income Instruments, the Fund's investments in Fixed Income Instruments are still subject to the credit and default risk of the issuers of the Fixed Income Instruments. As a result of this risk, the Fund's capital is neither guaranteed nor protected.
Currency Risk	As the investments of the Fund in Derivatives may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the NAV and annual payout of the Fund. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV and annual payout of the Fund in the Base Currency and vice versa. Due to the investment in foreign Bonds may be denominated in currencies other than the Base Currency, the investment in foreign Bonds may also subject to the currency risk. However, the Fund may enter into derivative instruments such as foreign exchange forward contracts and swaps as part of the hedging strategy to mitigate the foreign currency risk for the investment in foreign Bonds. The foreign currency may not be perfectly hedged, there is no guarantee that it will be possible to remove all foreign currency exposures. Hence, if the Fund is unable to fully hedge the foreign currency and the hedging strategy does not meet its intended objective, this may have an adverse impact on the NAV of the Fund and investors may not be able to receive the full amount of capital invested.
Interest Rate Risk	Interest rate risk refers to the impact of interest rate changes on the valuation of Bonds. When interest rates rise, prices generally decline and this may lower the market value of the Bonds. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, the Manager will manage the Bonds to match (i.e.: 3 years) or be similar (i.e.: shorter than 3 years) to the Tenure of the Fund. For investment in deposits and money market instruments, the rise or fall of interest rates will not affect the value of the Fund if such investments are placed and held until the maturity date of the deposits and money market instruments. However, if the Fund rollovers the investment in deposits and money market instruments with lower interest rate, the Fund may be subject to interest rate risk which may affect the capital preservation at the Maturity Date.

Liquidity Risk	Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices. To mitigate the liquidity risk, the Manager will invest in Bonds which are rated at least "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. In the event the Bonds may not be able to be liquidated within a specific period of time, or may be sold below their valuation due to insufficient liquidity in the markets for the purposes of meeting redemption request or unwinding due to downgrade of credit rating, where applicable, this will negatively impact the NAV of the Fund and the investments of the Unit Holders.
Country Risk	The Fund may be affected by risks specific to the countries in which it invests in. Such risks may be caused by but not limited to changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. This may impact the prices of the Fund's investments in those countries and consequently may also adversely affect the Fund's NAV.
Derivatives Risk	<p>The use of Derivatives is to gain exposure to the performance of the Rainbow Basket which will provide income (if any) to Unit Holders on each Observation Date. For instance, if the performance of the Rainbow Basket is more than 0%, Unit Holders will receive an income distribution on that Observation Date. If the performance of the Rainbow Basket is less than or equal to 0%, Unit Holders will not receive any income distribution on that Observation Date.</p> <p>The NAV of the Fund will be impacted by the valuation of the Derivatives. Factors that may impact the valuation of the Derivatives include, but are not limited to, price movement of the Underlying Assets, volatility of the Underlying Assets, interest rate levels and the correlation of the Underlying Assets. Any change in the aforesaid factors would either positively or negatively impact the valuation of the Derivatives hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the Derivatives that the Fund is invested in. If Unit Holders redeem Units prior to the Maturity Date, the Manager will be forced to unwind an equivalent amount of the Derivatives based on prevailing bid price and in such situation, the Derivatives may be disposed of at a loss which may adversely affect the value of the investments by the Unit Holders.</p>
Counterparty/Issuer Risk	The Fund will be exposed to credit risk of the counterparty/issuer for investments in Derivatives. Any default by the counterparty/issuer would affect the NAV of the Fund. In mitigating this risk, the Manager will carry out a stringent selection process on the counterparty/issuer prior to undertaking investment in Derivatives. The Fund will only invest in the Derivatives that are issued by counterparty/issuer with a minimum long-term credit rating of investment grade (including gradation and subcategories) by an international rating agency. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). This will ensure that the Fund is able to meet its payment and delivery obligations incurred under transactions in derivative with the counterparty/issuer. In the event where the rating of the counterparty/issuer/guarantor falls below the minimum required, or the counterparty/issuer/guarantor ceases to be rated, analysis will be conducted by the Manager to assess the impact of unwinding the affected trades and replacement cost. The Manager should, within six (6) months or sooner, if the Trustee considers it to be in the best interest of the Unit Holders, take the necessary action to ensure that the requirements are complied with.

Note:

Please refer to Chapter 1.17 of the Prospectus for further information on the risk factors.

Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed and the investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat and the right to have the investor's particulars appearing in the register of Unit Holders of the Fund).

FEE & CHARGES¹

7. What are the fees and charges involved?

Fees and charges related to the Fund:

Sales Charge²	Up to 3.00% of the NAV per Unit of the Class is imposed either by IUTAs, unit trust consultants or by the Manager.
Redemption Charge³	3.00% of the NAV per Unit on any redemption of Units made at any point of time before the Maturity Date. The redemption charge will be credited back into the Fund's account for the benefit of the remaining Unit Holders of the Fund.
Switching Fee	No switching is allowed for the Fund. As such, switching fee is not applicable to the Fund.
Transfer Fee	RM5.00 for each transfer.
Annual Management Fee	There is no annual management fee imposed for the Fund.
