1.7 Commencement Date

1.8 Investment Objective

**The Fund will invest in Derivatives which enable the Fund's performance to be exposed to the performance of the Rainbow Basket for potential annual payouts. Income distribution will be paid to you by way of cash deposit to a bank account held in your own name.*

Investors are advised that **this Fund is neither a capital guaranteed nor a capital protected fund.** The capital will be preserved by investments in Fixed Income Instruments. **Consequently, the return of capital is SUBJECT TO the credit and default risk and currency risk associated with the investments in Fixed Income Instruments.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

Prospectus in respect of the TA Rainbow Income Fund 18

1.9 Investment Policy and Strategy

The Fund seeks to achieve its investment objective by investing at least 85% of its NAV in Fixed Income Instruments to repay the initial investment of investors at Maturity Date (including sales charge). Up to 10% of the Fund's NAV will be invested in Derivatives linked to the performance of the Rainbow Basket to generate return.

The Fund intends to invest in deposits and/or money market instruments issued by Malaysian financial institutions rated at least "A" by RAM or equivalent rating by other domestic rating agencies. Whereas for investment in Bonds, the Bonds will be rated at least "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. The Fund may invest up to 50% of its NAV in foreign Bonds should the Manager finds it appropriate to do so. The tenure of the Bonds will match (i.e.: 3 years) or will be similar (i.e.: shorter than 3 years) to the Tenure of the Fund.

The Fund may enter into derivative contracts which include, but are not limited to foreign exchange forward contracts and swap for the purposes of hedging and not for speculative purposes. Foreign exchange forward contracts and other currency derivatives may be used to hedge the returns and principal of all foreign denominated Bonds back to the Base Currency.

As the Fund is a close-ended fixed income fund, the Fund will be managed on a semi-active basis by the Manager. At the Maturity Date, issuers of the Fixed Income Instruments held by the Fund will be obligated to pay the notional amount provided there is no occurrence of credit default by the issuers. In order to mitigate credit and default risk, the selection will be based on stringent credit research and analysis. Semi-active management of the portfolio refers to the possibility that securities in the portfolio may be traded and rebalanced if needed to address default risk and/or uptrend interest rate concerns.

Fund structure

* Net interest income = interest earned from Fixed Income Instruments – operating expenses**

** operating expenses include trustee fees and foreign custodian fees (paid monthly), audit and tax adviser's fees (paid annually), printing and posting of annual and semi-annual reports, and any other expenses allowed under the Deed.

*Please note that the graph set out above is for illustration purposes only. **This Fund is neither a capital guaranteed nor a capital protected fund.***

i. How the capital preservation¹ is achieved

The Fixed Income Instruments invested will, upon Maturity Date, return a value equivalent to 100% of the capital invested by investors. If the issuers of the Fixed Income Instruments are unable to service any interest payments or repay the principal amount upon redemption of the Fixed Income Instruments by the Fund and/or Maturity Date, investors may not be able to receive the full amount of capital invested. In such case, the Manager will unwind the Fixed Income Instruments based on the marked-to-market price and return the proceeds from the sale of the Fixed Income Instruments to the investors.

In addition, the Fund may enter into derivative contract to fully hedge the returns and principal of all foreign denominated Bonds back to the Base Currency. However, if the Fund is unable to fully hedge the above returns and principal, investors may not be able to receive the full amount of capital invested.

Below is an illustration on how the capital preservation is achieved based on indicative interest rate:

Table 1:

Asset Allocation	Credit Rating	Indicative interest/coupon rate p.a.	Indicative % allocation	Weightage average interest/coupon rate
Fixed Income Instruments	AAA	3.70%	10.0%	0.370%
	AA1	4.50%	15.0%	0.675%
	AA3	4.30%	15.0%	0.645%
	AA3	4.20%	15.0%	0.630%
	AA1	4.70%	12.0%	0.564%
	AA2	4.25%	15.0%	0.638%
	AAA	4.10%	10.5%	0.431%
Total			92.5%	3.952%

Note:

The credit rating in Table 1 may refer to the rating of the issuers of the deposits or money market instruments, or the rating of the Bonds.

Table 2:

100% of the capital invested by investors (a)	100,000,000.00
Minus sales charge of 3.00% of amount invested (b)	3,000,000.00
Amount for investment on Commencement Date (c = a - b)	97,000,000.00
93% of the capital invested by investors will be invested in Fixed Income Instruments (d = c x 92.5%)	89,725,000.00
Indicative interest income earned from Fixed Income Instruments for 3 years (e = f - d)	11,063,739.84
Value of Fixed Income Instruments after 3 years (f)	100,788,739.84
Operating expenses (g)	270,000.00
Net cash proceeds available to distribute to investors at Maturity Date (h = f - g)	100,518,739.84

Based on the example in Table 1 above, the weighted average interest rate for the Fixed Income Instruments is 3.952% per annum based on the indicative % allocation.

¹ This Fund is neither a capital guaranteed nor a capital protected fund.

The formula for annual compounded interest, including principal sum, is:

$$A = P(1 + r)^t$$

where:

A = the future value of the investment, including interest

P = the principal investment amount

r = the annual interest rate

t = the number of years the money is invested for

Hence, assuming that 92.5% of the capital invested by investors i.e: RM89,725,000 will be invested in Fixed Income Instruments, the value of the Fixed Income Instruments after 3 years will be RM100,788,739.84.

$$\begin{aligned} A &= RM89,725,000(1 + 0.03952)^3 \\ &= RM100,788,739.84 \end{aligned}$$

The indicative interest income earned from the Fixed Income Instruments for 3 years would be RM11,063,739.84.

Based on the illustration above, the net cash proceeds available to distribute to investors at Maturity Date is more than the capital invested by investors. Hence, Unit Holders may receive 100% of the capital invested on the Maturity Date, which is inclusive of the sales charge imposed on the subscription of Units during the Offer Period.

*Please note that the calculation set out above is for illustration purposes only. **This Fund is neither a capital guaranteed nor a capital protected fund.***

ii. Derivatives

The Fund will invest up to 10% of its NAV in Derivatives linked to the performance of the Rainbow Basket to provide potential payouts to the Fund. The Derivatives is subject to price fluctuations which may also lead to fluctuations in the NAV of the Fund i.e: if the price of the Derivatives depreciates, the NAV of the Fund will also be negatively impacted. As the Derivatives is either in the form of listed Derivative or over-the-counter Derivative, the Derivatives is subject to the counterparty/issuer risk, which we will seek to mitigate by carrying out a stringent selection process on the counterparty/issuer prior to undertaking the investments in the Derivatives. The Fund will only invest in Derivatives that is issued by counterparty/issuer with a minimum long-term credit rating of investment grade by an international rating agency. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories).

The Rainbow Basket comprises of three (3) assets at any one time and the Manager will adopt a qualitative and quantitative approach in selecting the Underlying Assets, taking into consideration the best interests of the Unit Holders. With the prevailing market condition, the Manager will conduct a filtration process to select the types of assets that would meet the investment objective of the Fund based on the investment outlook of each of the assets. After that, from a pool of shortlisted assets, the Manager will use a fundamental and technical analysis to identify potential Underlying Assets and examine related economic, financial and other factors to derive a forecast and movement of the potential Underlying Assets. The Manager will select top three (3) Underlying Assets/best Rainbow Basket for the Fund and the selected Underlying Assets will be fixed throughout the Tenure of the Fund. The Manager will endeavour to provide a diversified Rainbow Basket in determining the selection of the Underlying Assets.

The Manager will invest in Derivatives at the Commencement Date for a notional sum of up to 100% of the Fund's NAV and hold the Derivatives until its expiry. If there is any redemption

Prospectus in respect of the TA Rainbow Income Fund 18

from investors before the Maturity Date, the Manager may sell the equivalent amount of Derivatives within five (5) Business Days from the date of the investors' redemption request based on the prevailing bid price.

The currency denomination of the Derivatives may differ from the Base Currency. As such, the return of the Fund is subject to the foreign exchange currency risk based on the Conversion Factor.

On each annual Observation Date, if the performance of the Rainbow Basket is more than 0%, Unit Holders will receive an income distribution on that Observation Date. If the performance of the Rainbow Basket is less than or equal to 0%, Unit Holders will not receive any income distribution on that Observation Date.

A weightage will be assigned to each of the Underlying Assets on each Observation Date based on the following ratio:

Table 3:

Rainbow Basket	Ratio of the Weightage
1 st Best Performing Underlying Asset	45%
2 nd Best Performing Underlying Asset	30%
3 rd Best Performing Underlying Asset	25%

Please note that the ratio of the weightage set out above is for illustration purposes only and shall be fixed on the Commencement Date.

The Manager will inform Unit Holders with regards to the details of the Rainbow Basket i.e.: Underlying Assets, ratio of the weightage, Average Strike Level for each of the Underlying Assets, participation rate and Observation Date after the Commencement Date. Although a change to the ratio of the weightage as illustrated in Table 3 as a result of a change in market condition e.g. change of interest rate during the Offer Period is unlikely, the Manager will inform Unit Holders after the Commencement Date should there be any change to such ratio of the weightage. For the avoidance of doubt, the Underlying Assets and the ratio of the weightage will be fixed throughout the Tenure of the Fund upon the Fund's investment in Derivatives on the Commencement Date.

The Manager will also inform Unit Holders with regards to the performance of the Rainbow Basket, income distributions, distribution date, NAV per Unit and payment date of the income distributions after each Observation Date. The performance of the Rainbow Basket will be made available on our website at www.tainvest.com.my and annual reports of the Fund.

iii. **What is a notional amount?**

The notional amount is the amount as stated in a contract entered into by the counterparty/issuer of the Derivatives and the Manager and/or the Trustee, as the case may be, on behalf of the Fund for the investment in the Derivatives. It is the basis for calculating the potential income distribution of the Fund. At all times, the notional amount is equivalent to the total asset of the Fund as at the Commencement Date plus total sales charge imposed on the subscription of Units during the Offer Period unless the Manager received any redemption request from Unit Holders.

iv. **Payout of the Rainbow Basket**

Assumption:

Notional amount = RM100,000,000

Amount invested by Unit Holder (including sales charge) = RM100,000

Conversion Factor = $\text{USDMYR}_T / \text{USDMYR}_{\text{START}}$

Indicative terms for Rainbow Basket

Performance (i, T) = For each Underlying Asset (i), [(Average Quarterly Price Level (i, T) / Average Strike Level (i, T)) - 1] x 100%

Where:

$$\text{Average Quarterly Price Level}(T) = \frac{\text{Price}_T + \text{Price}_{T-3m} + \text{Price}_{T-6m} + \text{Price}_{T-9m}}{4}$$

$$\text{Average Strike Level} = \frac{\text{Price}_t + \text{Price}_{t+1m} + \text{Price}_{t+2m}}{3}$$

t= Commencement Date

T = 1,2,3, which is the anniversaries date commencing from the Commencement Date

Rainbow Basket	Ratio of the Weightage

$$\frac{\text{Participation Rate}}{T} \times \text{Conversion Factor (T)} \times \text{Max} \left[0, \sum_{i=1}^3 (\text{Weight}(i) \times \text{Performance}(i, T)) \right]$$

Investment Return Amount received by Unit Holder(T) = Payout(T) x Amount invested by Unit Holder

Below are the illustrations on how the Conversion Factor (T) is computed:

Year (T)	USDMYR _{START}	USDMYR _T	Conversion Factor (T)
1	4.67	4.50	= 4.50 / 4.67 = 0.9636
2	4.67	4.67	= 4.67 / 4.67 = 1.0000
3	4.67	4.70	= 4.70 / 4.67 = 1.0064

Please note that the calculation set out above is for illustration purposes only.

Note:

The Derivatives is denominated in USD, as such the payout from the Rainbow Basket will be subjected to Conversion Factor. This means, if USD weakens compared to MYR, the investor will only suffer foreign exchange losses on the payout of the Rainbow Basket. Whereas if the USD strengthens against the MYR, investor will only enjoy foreign exchange gains on the payout of the Rainbow Basket.

3. The performance of the Underlying Assets only affects the annual payout of the Rainbow Basket and will not affect the capital preservation.
4. Investors may not be able to receive the full amount of capital invested if they redeem Units before the Maturity Date.

1.17 Risk Factors

1.17.1 General Risks of Investing in a Unit Trust Fund

While we believe that the investment policy will be effective and that investment in unit trust funds may be rewarding, you should be aware that there are risks associated with their investment in unit trust funds. Below are some of the **general risks** which you should be aware of when investing in a unit trust fund:

a) Market Risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

b) Manager Risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.

c) Inflation Risk

Inflation risk is the risk that investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor's purchasing power even though the value of the investment in monetary terms has increased.

d) Non-compliance Risk

This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the Manager. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.

e) Loan Financing Risk

This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

f) Operational Risk

Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the Fund. The Manager has put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders' interests.

1.17.2 Specific Risks associated with the investment portfolio of the Fund

Below are some of the **specific risks** when investing in the Fund; these may include but are not limited to:

a) Credit and Default Risk

Credit risk relates to the creditworthiness of the issuers of the Fixed Income Instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Fixed Income Instruments. In the case of rated Bonds, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of the Fixed Income Instruments either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Fixed Income Instruments. This could adversely affect the value of the Fund. The Manager seeks to mitigate this risk by investing not more than 20% of the Fund's NAV in any single issuer, and only if the Fixed Income Instruments are rated by any global or domestic rating agency to be of the best quality and offer highest safety for timely payment of interest and principal, such single issuer limit may be increased to 30% of the Fund's NAV. Investors are advised that despite any effort by the Manager in the selection of Fixed Income Instruments, the Fund's investments in Fixed Income Instruments are still subject to the credit and default risk of the issuers of the Fixed Income Instruments. As a result of this risk, the Fund's capital is neither guaranteed nor protected.

b) Currency Risk

As the investments of the Fund in Derivatives may be denominated in currencies other than the Base Currency, any fluctuation in the exchange rate between the Base Currency and the currencies in which the investments are denominated may have an impact on the NAV and annual payout of the Fund. Investors should be aware that if the currencies in which the investments are denominated depreciate against the Base Currency, this will have an adverse effect on the NAV and annual payout of the Fund in the Base Currency and vice versa.

Due to the investment in foreign Bonds may be denominated in currencies other than the Base Currency, the investment in foreign Bonds may also subject to the currency risk. However, the Fund may enter into derivative instruments such as foreign exchange forward contracts and swaps as part of the hedging strategy to mitigate the foreign currency risk for the investment in foreign Bonds. The foreign currency may not be perfectly hedged, there is no guarantee that it will be possible to remove all foreign currency exposures. Hence, if the Fund is unable to fully hedge the foreign currency and the hedging strategy does not meet its intended objective, this may have an adverse impact on the NAV of the Fund and investors may not be able to receive the full amount of capital invested.

c) Interest Rate Risk

Interest rate risk refers to the impact of interest rate changes on the valuation of Bonds. When interest rates rise, prices generally decline and this may lower the market value of the Bonds. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, the Manager will manage the Bonds to match (i.e.: 3 years) or be similar (i.e.: shorter than 3 years) to the Tenure of the Fund.

For investment in deposits and money market instruments, the rise or fall of interest rates will not affect the value of the Fund if such investments are placed and held until the maturity date of the deposits and money market instruments. However, if the Fund rollovers the investment in deposits and money market

instruments with lower interest rate, the Fund may be subject to interest rate risk which may affect the capital preservation at the Maturity Date.

d) Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices. To mitigate the liquidity risk, the Manager will invest in Bonds which are rated at least "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. In the event the Bonds may not be able to be liquidated within a specific period of time, or may be sold below their valuation due to insufficient liquidity in the markets for the purposes of meeting redemption request or unwinding due to downgrade of credit rating, where applicable, this will negatively impact the NAV of the Fund and the investments of the Unit Holders.

e) Country Risk

The Fund may be affected by risks specific to the countries in which it invests in. Such risks may be caused by but not limited to changes in the economic and political climate, restriction on currency repatriation or other developments in the law or regulations of the countries in which the Fund invests in. This may impact the prices of the Fund's investments in those countries and consequently may also adversely affect the Fund's NAV.

f) Derivatives Risk

The use of Derivatives is to gain exposure to the performance of the Rainbow Basket which will provide income (if any) to Unit Holders on each Observation Date. For instance, if the performance of the Rainbow Basket is more than 0%, Unit Holders will receive an income distribution on that Observation Date. If the performance of the Rainbow Basket is less than or equal to 0%, Unit Holders will not receive any income distribution on that Observation Date.

The NAV of the Fund will be impacted by the valuation of the Derivatives. Factors that may impact the valuation of the Derivatives include, but are not limited to, price movement of the Underlying Assets, volatility of the Underlying Assets, interest rate levels and the correlation of the Underlying Assets. Any change in the aforesaid factors would either positively or negatively impact the valuation of the Derivatives hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the Derivatives that the Fund is invested in. If Unit Holders redeem Units prior to the Maturity Date, the Manager will be forced to unwind an equivalent amount of the Derivatives based on prevailing bid price and in such situation, the Derivatives may be disposed of at a loss which may adversely affect the value of the investments by the Unit Holders.

g) Counterparty/Issuer Risk

The Fund will be exposed to credit risk of the counterparty/issuer for investments in Derivatives. Any default by the counterparty/issuer would affect the NAV of the Fund. In mitigating this risk, the Manager will carry out a stringent selection process on the counterparty/issuer prior to undertaking investment in Derivatives. The Fund will only invest in the Derivatives that are issued by counterparty/issuer with a minimum long-term credit rating of investment grade (including gradation and subcategories) by an international rating agency. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories). This will ensure that the Fund is able to meet its payment and delivery obligations incurred under transactions in derivative with the counterparty/issuer. In the event where the rating of the counterparty/issuer/guarantor falls below the minimum required, or the counterparty/issuer/guarantor ceases to be rated, analysis will be conducted by the Manager to assess the impact of unwinding the affected trades and replacement cost. The Manager should, within six (6) months or sooner, if the Trustee considers it to be in the best interest of the Unit Holders, take the necessary action to ensure that the requirements are complied with.

1.17.3 Risk Mitigation

Risk management is one of the core processes in managing the Fund. It is essential to identify possible risks arising due to uncertainty and manage it accordingly with risk management strategies. The risk management strategies undertaken by the Fund for Fixed Income Instruments and Derivatives encompasses the following:-

i. Fixed Income Instruments

a. Deposits / money market instruments

To reduce single issuing party exposure, the Fund will diversify the investments by holding a basket of deposits/money market instruments issued by Malaysian financial institutions where the value of the Fund's investments issued by any single issuer must not exceed 20% of the Fund's NAV. The issuer of deposits / money market instruments that are purchased shall have a minimum rating of "A" by RAM or equivalent.

b. Bonds

To reduce single issuing party exposure, the Fund will diversify the investments where the value of the Fund's investments issued by any single issuer must not exceed 20% of the Fund's NAV. The Bonds that are purchased shall have a minimum rating of "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. The Bonds are purchased with the objective of holding until maturity (passive). The Bonds may only be restructured when the Bonds purchased are at risk to ensure capital preservation.

The following may lead to a potential restructuring of the Bonds:

- i. The Bonds are put on rating watch by rating agencies with possible downgrading due to various reasons;
- ii. The issuer of Bonds exhibits a dwindling business growth potential and profitability;
or
- iii. The issuer of Bonds exhibits a worsening financial performance with increasing trends of bad debts provision and trade and other receivables.

However, if any of the Bonds have been downgraded to "BBB" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies but remain as "investment grade" by definition from the international rating agencies, the Manager may continue to hold the downgraded Bonds up to the maturity date of the Bonds so long as the Manager remains comfortable with the default risk after conducting credit assessment by taking into consideration of both quantitative and qualitative factors and concluded that the probability of default is low.

ii. Derivatives

To mitigate the counterparty/issuer risk, we engage a stringent credit selection process on the counterparty/issuer by conducting credit risk management process whereby such risk arises when the counterparty/issuer is not able to meet its contractual obligations. Where the counterparty is not rated, the counterparty must be guaranteed by the parent company of the counterparty which has an investment grade credit rating (including gradation and subcategories) as this will reduce the risk where the guarantor no longer provides the guarantee to the unrated counterparty during the tenure of the Fund. It is also important to note that an event of downgrade does not constitute a default. In the event if the downgrade in the rating of the counterparty/issuer/guarantor may lead to high credit risk, or where there is material adverse change to the counterparty/issuer/guarantor, the Manager may consider unwinding the Derivatives to mitigate potential losses that may arise.

The Manager uses commitment approach to calculate the Fund's global exposure relating to the Derivatives. The commitment approach undertaken by the Manager is to ensure that the Fund's global exposure to the Derivatives will not exceed the total NAV of the Fund. Under the commitment approach, each Derivatives position is in principle converted into the market value of the equivalent position in the underlying asset or by the notional value of that Derivatives.

3.1 Sale and Purchase of Units

3.1.1 Computation of NAV and NAV per Unit of the Fund

The NAV of the Fund means the total value of the Fund's investment, assets and properties less the Fund's expenses and liabilities incurred or accrued for the day.

The NAV of the Fund is calculated on a weekly basis.

An illustration of computation of NAV and the NAV per Unit for a particular day:-

Fixed Income Instruments	RM	92,070,000.00000000
Derivatives	RM	5,850,000.00000000
Deposits	RM	625,504.50000000
Total Assets	RM	98,545,504.50000000
Less liabilities	RM	1,048,000.00000000
NAV before deducting Trustee fee for the day	RM	97,497,504.50000000
Less Trustee fee for the day (0.04% per annum) (0.04% x RM97,497,504.50) ÷ 365)	RM	106.84658027
NAV after deducting Trustee fee	RM	97,497,397.65341970
Units in circulation		97,500,000.00000000
NAV per Unit	RM	0.99997331
NAV per Unit (rounded to four (4) decimal places)	RM	1.0000

Please note that the calculation set out above is for illustration purposes only. For the purpose of calculating the fees and charges, the calculation of such fees and charges will be based on the NAV per Unit that has not been rounded up.

3.2 Pricing of Units

We adopt the single pricing policy which is in line with the SC's requirement for the Malaysian unit trust industry. Under this regime, both the selling price and redemption price of Units are fixed at the Offer Price during the Offer Period. After the Offer Period, the redemption price will be at the NAV per Unit of the Fund.

The weekly NAV per Unit of the Fund is valued at the next valuation point after a redemption request is received by us, i.e., on forward price basis.

Example:

Making an investment

Illustration: Determining the Investment Amount & Units Entitlement

Assuming an investor decided to invest RM10,000 in the Fund during the Offer Period. The Offer Price is RM1.0000 and the sales charge is 3.00% of the Offer Price. The sales charge is calculated based on his investment amount and is illustrated as follows:

Investment amount	RM	10,000.00
Number of Units allocated (RM10,000 / RM1.0000)		10,000
Add: sales charge 3.00% of investment amount (3.00% x RM10,000)	RM	300.00

Prospectus in respect of the TA Rainbow Income Fund 18

Amount payable by investor	RM	10,300.00
----------------------------	----	-----------

Please note that the calculation set out above is for illustration purposes only.

Redeeming an investment

Investors may redeem their investment on every Thursday by submitting a complete transaction form to the Manager on any Business Day. The redemption application will be processed on a weekly basis and the redemption amount is calculated by multiplying the NAV per Unit at the next valuation point after the Manager receives the redemption application, with the number of Units to be redeemed.

Determining the Redemption Amount		
Number of Units to be redeemed		10,000.00
If, for example, the NAV per Unit calculated at the next valuation point is RM0.9909, the redemption value, would be:		
Multiply by NAV per Unit	RM	0.9909
Redemption value	RM	9,909
Less: redemption charge 3.00% of redemption value (3.00% x RM9,909)	RM	(297.27)
Net amount payable to investor	RM	9611.73

Please note that the calculation set out above is for illustration purposes only.

Incorrect Pricing

The Manager shall take immediate remedial action to rectify any incorrect valuation and pricing of the Fund and/or the Units and to notify the Trustee and the relevant authorities of the same unless the Trustee considers the incorrect valuation and pricing of the Fund and/or the Units is of minimal significance. An incorrect valuation and pricing of the Fund and/or the Units shall result in a reimbursement of moneys unless the Trustee considers that such incorrect valuation and pricing of the Fund and/or the Units is of minimal significance.

The Trustee shall not consider an incorrect valuation and pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of zero point five per centum (0.5%) or more of the NAV per Unit unless the total impact on a Unit Holder's account is less than RM10.00. An incorrect valuation and pricing not considered to be of minimal significance by the Trustee shall result in reimbursement of moneys in the following manner:

- (a) if there is an over valuation and pricing in relation to the redemption of Units, the Manager shall reimburse the Fund; and
- (b) if there is an under valuation and pricing in relation to the redemption of Units, the Fund shall reimburse the Unit Holder or former Unit Holder.

Dear Sirs

Re: Taxation of the Funds and Unit Holders

This letter has been prepared for inclusion in this Prospectus relating to TA Rainbow Income Fund 18 ("the Fund").

Taxation of the Fund

Income Tax

The Fund is a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia is liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

The Fund may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia was previously exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Based on the Finance Act 2021, income derived by a resident unit trust from foreign sources and received in Malaysia from 1 January 2022 onwards will be subject to Malaysian income tax. A transitional tax rate of 3% is accorded on the gross amount of the foreign source income received in Malaysia from 1 January 2022 to 30 June 2022. From 1 July 2022, the prevailing tax rate of 24% will apply to the chargeable income computed in respect of the foreign source income remitted into Malaysia by the Fund.

Where the same foreign income has been taxed in both Malaysia and the foreign country, a tax credit in the form of bilateral relief under a Double Tax Agreement ("DTA") or unilateral relief under the domestic law (if there is no available DTA or a limited DTA which does not provide such relief) may be given in respect of such income, subject to conditions.

Gains from the realisation of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income or profits earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or
- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

Discounts earned by the Fund from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Fund's expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Fund are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

^{N1} Effective from 1 January 2019, the exemption shall not apply to the interest paid or credited to a unit trust that is a wholesale fund which is a money market fund.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions. Based on the Finance Act 2021, income tax exemption shall not apply to interest paid or credited by a special purpose vehicle to a company pursuant to the issuance of asset-backed securities lodged with the Securities Commission or approved by the Labuan Financial Services Authority from 1 January 2022 where the company and the person who established the special purpose vehicle solely for the issuance of the asset-backed securities are in the same group.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") has been replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and subsidiary legislation, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Fund such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Fund is only deriving income from such activities, the Fund is not liable to be registered for service tax.

However, certain expenses incurred by the Fund such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Fund is a cost to the Fund and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders.

Corporate unit holders, resident or non-resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016), on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund.

Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 17% on chargeable income of up to RM600,000, effective from YA 2020. This concessionary income tax rate is given only to corporate unit holders having gross business income for the relevant year of assessment of not more than RM50 million, in addition to the share capital requirement. For chargeable income in excess of RM600,000, the tax rate of 24% is still applicable.

However, the said tax rate of 17% on chargeable income of up to RM600,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Based on the Finance Act 2021, a corporate tax rate of 33% (“Cukai Makmur”) will be levied on corporate unit holders with chargeable income exceeding RM100 million. Corporate unit holders with chargeable income below RM100 million will still be taxed at tax rate of 24%. However, the chargeable income in respect of foreign source income received in Malaysia from 1 July 2022 is exempted from the application of Cukai Makmur, computed based on a prescribed formula. The Cukai Makmur is effective for YA 2022 only.

The tax rate of 33% on chargeable income exceeding RM100 million would not apply to corporate unit holders in Malaysia that qualify for the preferential tax rate of 17% on chargeable income of up to RM600,000.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 30% with effect from YA 2020.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, are subject to Malaysian income tax at the rate of 30% with effect from YA 2020. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdiction.

The distribution of single-tier Malaysian dividends and tax exempt income by the Fund will not be subject to tax in the hands of the unit holders in Malaysia. Units split by the Fund will also be exempt from tax in Malaysia in the hands of the unit holders.

However, based on the Finance Act 2021, the income distributed to a unit holder other than an individual, out of the interest income of a unit trust that is a retail money market fund which is paid or credited by a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013, or any development financial institution regulated under the Development Financial Institutions Act 2002 will be subjected to tax. This is effective from 1 January 2022.

Further, a new withholding tax mechanism is applicable on the above distribution. The income distributed to the unit holder other than an individual will be subject to withholding tax at the rate of 24% and the tax deducted can be utilised to set off against the tax payable by a tax resident unit holder. Withholding tax deducted on the income distributed to a non-individual unit holder who is not a tax resident in Malaysia will be regarded as a final tax. This is effective from 1 January 2022.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfer or redemption of the units are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Service Tax

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018, the imposition and scope of service tax has been widened to include any imported taxable service. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Neoh Beng Guan
Executive Director

DEFINITIONS

Account Holder

The "Account Holder" means the person listed or identified as the holder of a Financial Account by the Financial Institution that maintains the account. This is regardless of whether such person is a flow-through Entity. Thus, for example, if a trust or an estate is listed as the holder or owner of a Financial Account, the trust or the estate is the Account Holder, rather than the trustee or the trust's owners or beneficiaries. Similarly, if a partnership is listed as the holder or owner of a Financial Account, the partnership is the Account Holder, rather than the partner in the partnership. A person, other than a Financial Institution, holding a Financial Account for the benefit or account of another person as agent, custodian, nominee, signatory, investment advisor, or intermediary, is not treated as holding the account, and such other person is treated as holding the account.

Active NFE

An NFE is an Active NFE if it meets any of the criteria listed below. In summary, those criteria refer to

- active NFEs by reason of income and assets;
- publicly traded NFEs;
- Governmental Entities, International Organisation, Central Banks, or their wholly owned Entities;
- holding NFEs that are members of a nonfinancial groups;
- start-up NFEs;
- NFEs that are liquidating or emerging from bankruptcy;
- treasury centres that are members of a nonfinancial group; or
- non-profit NFEs.

Controlling Person(s)

Controlling Person(s) are the natural person(s) who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("Passive NFE") then a Financial Institution is required to determine whether or not these Controlling Persons are Reportable Persons. This definition corresponds to the term "beneficial owner" described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation. The term covers any person other than an individual (i.e. a natural person)

Financial Institution

The term "Financial Institution" means a "Custodial Institution", a "Depository Institution", an "Investment Entity", or a "Specified Insurance Company". Please see the relevant domestic guidance and the CRS for further classification definitions that apply to Financial Institutions.

NFE

"NFE" is an Entity that is not a Financial Institution.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Related Entity

An Entity is a "Related Entity" of another Entity if either Entity controls the other Entity, or the two Entities are under common control. For this purpose, control includes direct or indirect ownership of more than 50% of the vote and value in an Entity.

Reportable Person

A "Reportable Person" defined as a "Reportable Jurisdiction Person", other than:

- a corporation the stock of which is regularly traded on one or more established securities markets;
- any corporation that is a related Entity of a corporation described in clause (i);
- a Governmental Entity;
- an International Organisation;
- a Central Bank; or a Financial Institution (except for an Investment Entity described in Sub Paragraph A (6) b) of the CRS that are not Participating Jurisdiction Financial Institutions. Instead, such Investment Entities are treated as Passive NFE's)

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

DEFINITIONS

Account Holder

The term "Account Holder" means the person listed or identified as the holder of a Financial Account. A person, other than a Financial Institution, holding a Financial Account for the benefit of another person as an agent, a custodian, a nominee, a signatory, an investment advisor, an intermediary, or a legal guardian, is not treated as the Account Holder. In these circumstances that other person is the Account Holder. For example, in the case of a parent/child relationship where the parent is acting as a legal guardian, the child is regarded as the Account Holder. With respect to a jointly held account, each joint holder is treated as an Account Holder.

Controlling Person

This is a natural person who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("NFE") then a Financial Institution must determine whether such Controlling Persons are Reportable Persons. This definition corresponds to the term 'beneficial owner' as described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Controlling Person of a trust

Means the settlor(s) the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership). The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) of beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the activities of the trust.

Where the settlor(s) of a trust is an Entity then the CRS requires Financial Institutions to also identify the Controlling Persons of the settlor(s) and when required report them as Controlling Persons of the trust.

In a case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions.

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

Reportable Jurisdiction

A Reportable Jurisdiction is a jurisdiction with which an obligation to provide financial account information is a place and that is identified in a published list.

15. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust scheme with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:-

- The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the potential for losses as well as gains.
- You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold to settle your loan.
- Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore study the terms and conditions carefully before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

16. MONEY LAUNDERING STATEMENTS

The applicant hereby warrants that:-

- The applicant is the underlying principal of the Account (where applicable)
- No person other than the applicant has or will have any interest in the Account (where applicable); and
- All monies as may be paid to TAIM from time to time shall come from a legitimate (and not illegal) source
- The applicant agrees to provide all such information and documents as may be necessary to verify the applicant's identity and do all such acts and things as may be necessary to enable TAIM to comply with all applicable anti-money laundering and counter financing of terrorism (AML/ CFT), and know-your-customer laws, rules and regulations (whether in Malaysia or elsewhere). The applicant agrees that TAIM shall not be liable or responsible in anyway whatsoever and shall be held harmless against any loss arising

as a result of or in connection with any delay or failure to process any application or transaction if such information or documents requested by TAIM have not been promptly provided by the applicant to TAIM.

- e) TAIM reserves the right to terminate the relationship if any documents requested pursuant to the AML/ CFT requirements are not received within 14 business days. In the event of termination, units will be redeemed at the closing NAV price on the 15th business day.

11. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust scheme with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following: -

- a) The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment, the greater the potential for losses as well as gains.
- b) You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- c) If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold to settle your loan.
- d) Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore study the terms and conditions carefully before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

12. MONEY LAUNDERING STATEMENTS

The applicant hereby warrants that: -

- a) The applicant is the underlying principal of the Account (where applicable)
- b) No person other than the applicant has or will have any interest in the Account (where applicable); and

- d) The applicant agrees to provide all such information and documents as may be necessary to verify the applicant's identity and do all such acts and things as may be necessary to enable TAIM to comply with all applicable anti-money laundering and counter financing of terrorism (AML/ CFT), and know-your-customer laws, rules and regulations (whether in Malaysia or elsewhere). The applicant agrees that TAIM shall not be liable or responsible in anyway whatsoever and shall be held harmless against any loss arising as a result of or in connection with any delay or failure to process any application or transaction if such information or documents requested by TAIM have not been promptly provided by the applicant to TAIM.
