CHAPTER 1: THE FUND

1.1 Name of the Fund

TA Rainbow Income Fund 3

1.2 Fund Category

Fixed Income (Close-ended).

1.3 Fund Type

Income

1.4 Base Currency

Ringgit Malaysia.

1.5 Offer Period

A period of forty-five (45) days which is from 23 April 2019 – 06 June 2019.

The Offer Period may be shortened when we deem appropriate to enter the market to capitalize on the prevailing yields and/or market condition. This is subject to Trustee's approval in the interest of existing Unit Holders.

We will inform Unit Holders on the change of Commencement Date, if the Offer Period has been shortened.

Units will not be available for sale after the Offer Period.

1.6 Offer Price

RM1.0000

1.7 Commencement Date

The Fund will commence on the seventh (7th) Business Day after the end of the Offer Period.

1.8 Investment Objective

The Fund aims to provide income* whilst preserving capital** on Maturity Date.

**The Fund will invest in options and/or structured warrants to provide potential annual returns. Income distribution will be paid to you by way of cash deposit to a bank account held in your own name.*

Investors are advised that this Fund is neither a capital guaranteed nor a capital protected fund. The capital will be preserved by investments in Fixed Income Instruments. **Consequently, the return of capital is SUBJECT TO the credit and default risk of the issuers of the Fixed Income Instruments.

Any material change to the investment objective of the Fund would require Unit Holders' approval.

1.9 Investment Policy and Strategy

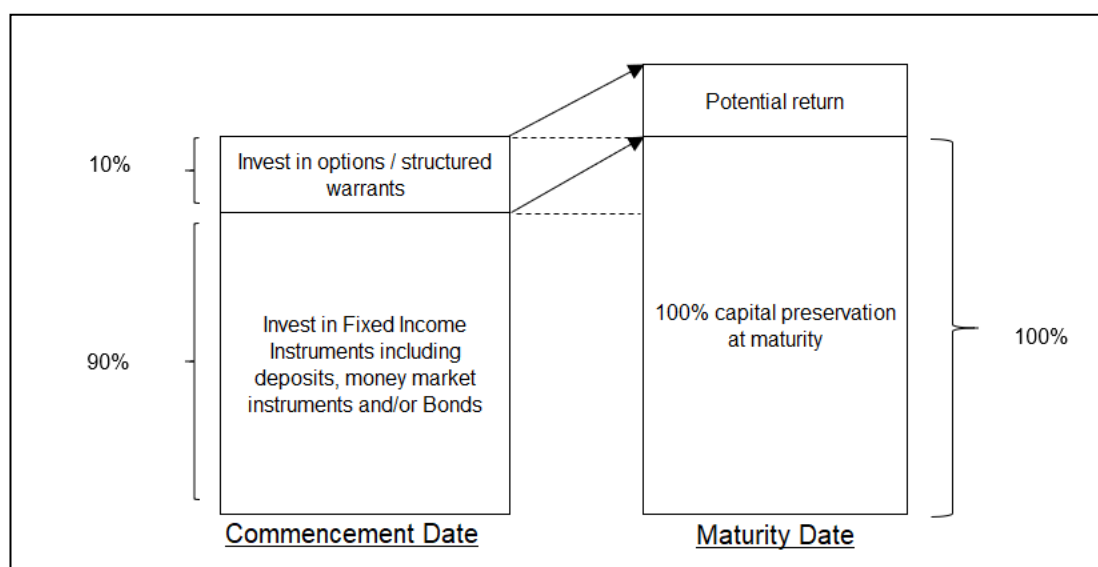

The Fund seeks to achieve its investment objective by investing at least 90% of its NAV in Fixed Income Instruments which aim to repay the initial investment of investors at Maturity Date (including sales charges). Up to 10% of the Fund's NAV will be invested in options / structured warrants linked to the performance of the Rainbow Basket to generate return.

For the Fixed Income Instruments, the Fund intends to invest a minimum of 50% of the Fund's NAV in deposits and/or money market instruments issued by Malaysian financial institutions rated at least "A" by RAM or equivalent and a maximum of 50% of the Fund's NAV in Bonds with at least "AA" by RAM or equivalent and their tenures must match or similar to the Tenure of the Fund.

As this is a close-ended fixed income fund, the Fund will be semi-actively managed by the Manager. At maturity, issuers of the Fixed Income Instruments held by the Fund will be obligated to pay the notional amount provided there is no occurrence of credit default by the issuers. In order to mitigate credit and default risk, the selection will be based on stringent credit research and analysis. Semi-active management of the portfolio refers to the possibility that securities in the portfolio may be traded and rebalanced if needed to address default risk and/or uptrend interest rate concerns.

The Fund will invest in markets where the regulatory authority is an ordinary and/or associate member of the International Organization of Securities Commissions (IOSCO).

Fund structure

i. How the capital preservation¹ is achieved

The Fixed Income Instruments invested will, upon maturity of the Fund, return a value equivalent to 100% of the capital invested by investors. **If the issuers of the Fixed Income Instruments are unable to service any interest payments or repay the principal amount upon redemption and/or maturity of the Fund, investors may not be able to receive the full amount of capital invested.** In such case, the Manager will unwind the Fixed Income Instruments based on the marked-to-market price and return the proceeds from sale of the investment in Fixed Income Instruments to the investors.

Below is an illustration on how the capital preservation is achieved based on indicative interest rate:

¹ This Fund is neither a capital guaranteed nor a capital protected fund.

Prospectus in respect of the TA Rainbow Income Fund 3

Asset allocation	Description	Indicative % allocation	Indicative interest rate p.a.	Weighted average interest rate
Deposits / Money market instruments	Bank A	20%	4.00 %	0.800%
	Bank B	20%	3.75 %	0.750%
	Bank C	20%	3.60 %	0.720%
Bonds	AAA	10%	4.24 %	0.424%
	AA1	10%	4.49 %	0.449%
	AA1	10%	4.56 %	0.456%
Total		90%		3.599%

Example:

100% of the capital invested by investors	RM 100,000,000.00
90% of the capital invested by investors will be invested in Fixed Income Instruments	RM 90,000,000.00
Indicative interest income earned from Fixed Income Instruments for 3 years	RM 10,074,119.04
Total Fixed Income Instruments after 3 years	RM 100,074,119.04

Based on the example above, the weighted average interest rate for the Fixed Income Instruments is 3.60%p.a. based on the indicative % allocation.

The formula for annual compounded interest, including principal sum, is:

$$A = P(1 + r)^t$$

where:

A = the future value of the investment, including interest

P = the principal investment amount

r = the annual interest rate

t = the number of years the money is invested for

Hence, assuming that 90% of the capital invested by investors i.e: RM90,000,000 will be invested in Fixed Income Instruments, the total Fixed Income Instruments after 3 years will be RM100,074,119.04.

$$A = RM90,000,000(1 + 0.036)^3$$

$$= RM100,074,119.04$$

The indicative interest income earned from the Fixed Income Instruments for 3 years would be RM10,074,119.04.

Please note that the calculation set out above is for illustration purposes only. This Fund is neither a capital guaranteed nor a capital protected fund.

The total amount of the value of the investment as at the Maturity Date is equivalent to the total asset of the Fund as at the Commencement Date plus total sales charge imposed on the subscription of Units during the Offer Period.

What is a notional amount?

The notional amount is the amount as stated in a contract entered into by the issuer of the options / structured warrants and the Manager and/or the Trustee, as the case may be, on behalf of the Fund for the purchase of the options and/or structured warrants. It is the basis for calculating the potential income distribution of the Fund and at all times, the notional amount is equivalent to the total asset of the Fund as at the Commencement Date plus total sales charge imposed on the subscription of Units during the Offer Period.

ii. About the Options / Structured Warrants

The Fund will invest up to 10% of its NAV in options and/or structured warrants linked to the performance of the Rainbow Basket to provide potential returns to the Fund. The options and/or structured warrants are subject to the price fluctuations which may also lead to fluctuations in the NAV of the Fund i.e: if the price of the options and/or structured warrants depreciates, the NAV of the Fund will also be negatively impacted. As the options and/or structured warrants are structured by an external party, the options and/or structured warrants are subject to the counterparty risk, which we will seek to mitigate by carrying out a stringent selection process on the counterparty prior to undertaking the investment in options and/or structured warrants.

The Rainbow Basket comprises three Underlying Assets at any one time and the Manager will adopt a qualitative and quantitative approach in the selection of the Underlying Assets, taking into consideration the best interests of the Unit Holders. With the prevailing market condition, the Manager will conduct a filtration process to select the types of Underlying Assets that would meet the investment objective of the Fund based on the investment outlook of each of the Underlying Assets. After that, from a pool of shortlisted Underlying Assets, the Manager will use a fundamental and technical analysis to identify potential Underlying Assets and examine related economic, financial and other factors that derive a forecast and movement of the potential Underlying Assets. The Manager will select top three Underlying Assets to be the Rainbow Basket for the Fund.

Although the Rainbow Basket comprises three Underlying Assets at any one time, the Manager will endeavour to provide a diversified portfolio of asset classes for the purposes of determining the selection of the Underlying Assets.

The Manager will purchase the options and/or structured warrants at the Commencement Date and hold the options and/or structured warrants until its expiry. If there is any redemption from investors before the Maturity Date, the Manager will sell the equivalent amount of option and/or structured warrants within five (5) Business Days from the date of the investors' redemption request based on the marked-to-market price.

The currency denomination of the options and/or structured warrants of the Fund may differ from the Fund's base currency. As such, the return of the Fund is subject to the foreign exchange currency risk based on the Conversion Factor.

On each annual Observation Date, if the basket performance for the Rainbow Basket is more than zero, Unit Holders will receive a payout. Otherwise, Unit Holders will receive no payout for the Observation Date. A weightage will be assigned to each of the Underlying Assets in the Rainbow Basket with dynamic performance-based allocation on each Observation Date based on the following:

1 st Best Performing Underlying Asset	60%
2 nd Best Performing Underlying Asset	30%
3 rd Best Performing Underlying Asset	10%

The Manager will inform Unit Holders with regards to the Underlying Assets, initial price level for each of the Underlying Assets, weightage of the Rainbow Basket and Observation Date after the Commencement Date, inclusive of any changes on the weightage as a result of a change in market condition e.g: change of interest rate during the Offer Period.

- a) The value of the Fund's placement in deposits with any single institution must not exceed 20% of the Fund's NAV;
- b) For investment in derivatives, the exposure to the Underlying Assets must not exceed the investment spread limits stipulated in the Guidelines and the value of the Fund's over-the-counter ("OTC") derivative transaction with any single counter-party must not exceed 10% of the Fund's NAV;
- c) The value of the Fund's investments in units/shares of any collective investment scheme must not exceed 20% of the Fund's NAV;
- d) The value of the Fund's investments in Bonds issued by any single issuer must not exceed 20%. However, the single issuer limit may be increased to 30% of the Fund's NAV if the Bonds are rated by any global or domestic rating agency to be of the best quality and offer highest safety for timely payment of interest and principal;
- e) The aggregate value of the Fund's investments in transferable securities, money market instruments, deposits and OTC derivatives issued by or placed with, as the case may be, any single issuer/institution must not exceed 25% of the Fund's NAV. Where the single issuer limit is increased to 30% pursuant to item (d) above, the aggregate value of the Fund's investments must not exceed 30% of the Fund's NAV;
- f) The Fund's exposure from derivatives position should not exceed the Fund's NAV at all times;

¹This Fund is neither a capital guaranteed nor a capital protected fund.

- g) The Fund's investments in Bonds must not exceed 20% of the Bonds issued by any single issuer;

The above stated restrictions and limits shall be complied with at all times based on the most up-to-date value of the Fund's investments. However, a 5% allowance in excess of any restriction or limit may be permitted where the restriction or limit is breached through the appreciation or depreciation in the NAV of the Fund (as a result of an appreciation or depreciation in value of the Fund's investments or as a result of the redemption of Units or payment made out of the Fund). Once the relevant restriction or limit is breached, no further acquisitions of the particular investment involved shall be made and we will within a reasonable period of not more than three (3) months from the date of the breach, take all necessary steps and actions to rectify the breach.

There are no restrictions and limits imposed on securities or instruments issued or guaranteed by the Malaysian government or Bank Negara Malaysia.

1.17 Risk Factors

1.17.1 General Risks of Investing in a Unit Trust Fund

While we believe that the investment policy will be effective and that investment in unit trust funds may be rewarding, you should be aware that there are risks associated with their investment in unit trust funds. Below are some of the **general risks** which you should be aware of when investing in a unit trust fund:

a) Market Risk

Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.

b) Manager Risk

This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant law or Guidelines due to factors such as human error or weaknesses in operational process and systems, may adversely affect the performance of the Fund.

c) Inflation Risk

Inflation risk is the risk that investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor's purchasing power even though the value of the investment in monetary terms has increased.

d) Non-compliance Risk

This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the management company. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has

put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.

e) Loan Financing Risk

This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed money includes investors being unable to service the loan repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan.

f) Operational Risk

Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the unit trust fund. The Manager has put in place internal controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders' interests.

1.17.2 Specific Risks associated with the investment portfolio of the Fund

Below are some of the **specific risks** when investing in the Fund; these may include but are not limited to:

a) Credit and Default Risk

Credit risk relates to the creditworthiness of the issuers of the Fixed Income Instruments and their expected ability to make timely payment of interest and/or principal. Any adverse situations faced by the issuer may impact the value as well as liquidity of the Fixed Income Instruments. In the case of rated Bonds, this may lead to a credit downgrade. Default risk relates to the risk that an issuer of the Fixed Income Instruments either defaulting on payments or failing to make payments in a timely manner which will in turn adversely affect the value of the Fixed Income Instruments. This could adversely affect the value of the Fund. The Manager seeks to mitigate the risk by investing not more than 20% of the Fund's NAV in any single issuer. Investors are advised that despite any effort by the Manager in the selection of Fixed Income Instruments, the Fund's investments in Fixed Income Instruments are still subject to the credit and default risk of the issuers of the Fixed Income Instruments. As a result of this risk, the Fund's capital is neither guaranteed nor protected.

b) Currency Risk

As the investments of the Fund may be denominated in currencies other than the base currency of the Fund, any fluctuation in the exchange rate between the base currency of the Fund and the currencies in which the investments are denominated may have an impact on the value of these investments. Investors should be aware that if the currencies in which the investments are denominated depreciate against the base currency of the Fund, this will have an adverse effect on the NAV of the Fund in the base currency of the Fund and vice versa. Investors should note that any gains or losses arising from the fluctuation in the exchange rate may further increase or decrease the returns of the investment.

c) Interest Rate Risk

Interest rate risk refers to the impact of interest rate changes on the valuation of Bonds. When interest rates rise, Bonds' prices generally decline and this may lower the value of the Fund's investment in Bonds. The reverse may apply when interest rates fall. In order to mitigate interest rate risk, the Manager will need to manage the Bonds portfolio taking into account the coupon rate and time to maturity of the Bonds.

d) Liquidity Risk

Liquidity risk refers to the ease of liquidating an asset depending on the asset's volume traded in the market. If the Fund holds assets that are illiquid, or are difficult to dispose of, the value of the Fund will be negatively affected when it has to sell such assets at unfavourable prices.

e) Options / Structured Warrant Investment Risk

The NAV of the Fund will be impacted by the valuation of the options and/or structured warrants. Factors that may impact the valuation of the options and/or structured warrants may include, but not limited to movement of the Rainbow Basket, volatility of the Rainbow Basket, interest rate levels, the correlation of the Rainbow Basket and other such factors. Any change in the aforesaid factors would either positively or negatively impact the valuation of the options and/or structured warrants hence impacting the NAV of the Fund. As such, the Fund's NAV will be exposed to potential price volatility, which will be dependent on the valuation of the options and/or structured warrants that the Fund invested in. If Unit Holders redeem Units prior to the Maturity Date, the Manager will be forced to unwind an equivalent amount of the options and/or structured warrants based on marked-to-market price and in such situation, the options and/or structured warrants may be disposed of at a loss which may adversely affect the value of the investments by the Unit Holders.

f) Issuer Risk

Issuer risk is prevalent as the potential returns derived from the Fund's investment in options and/or structured warrants are dependent on the ongoing ability and willingness of the issuer i.e. a financial institution to fulfil its financial commitments to the Fund in a timely manner. Bankruptcy, fraud or regulatory non-compliance arising out of and/or in connection with the issuer may impair the operations and/or the performance of the Fund. The Manager seeks to mitigate this risk through stringent credit selection process of the issuer of the options and/or structured warrants prior to commencement of investments. Monitoring mechanisms established by the Manager may also potentially mitigate this risk. If, in the opinion of the Manager where there is material adverse change to an issuer, the Manager may consider unwinding the issuer's options and/or structured warrants to mitigate potential losses in returns that may arise.

1.17.3 Risk Mitigation

Risk management is one of the core processes in managing the Fund. It is essential to identify possible risks arising due to uncertainty and manage it accordingly with risk management strategies. The risk management strategies undertaken by the Fund for Fixed Income Instruments and options / structured warrant encompasses the following:-

i. Fixed Income Instruments

a. Deposits / money market instruments

To reduce single issuing party exposure, the Fund will diversify the investments by holding a basket of deposits/money market instruments issued by Malaysian financial institutions where the value of the Fund's investments issued by any single issuer must not exceed 20% of the Fund's NAV. The issuer of deposits / money market instruments that are purchased shall have a minimum rating of "A" by RAM or equivalent.

b. Bonds

To reduce single issuing party exposure, the Fund will diversify the investments where the value of the Fund's investments issued by any single issuer must not exceed 20% of the Fund's NAV. The Bonds that are purchased shall have a minimum rating of "AA" by RAM or equivalent. The Bonds are purchased with the objective of holding until maturity (passive). The Bonds may only be restructured when the Bonds purchased are at risk to ensure capital preservation. The following may lead to a potential restructuring of the Bonds:

- i. The Bonds are put on rating watch by rating agencies with possible downgrading due to various reasons

- ii. The issuer of Bonds exhibits a dwindling business growth potential and profitability
- iii. The issuer of Bonds exhibits a worsening financial performance with increasing trends of bad debts provision and trade and other receivables

ii. **Options / structured warrants**

To reduce the issuer risk, we engage a stringent credit selection process of the issuer of the options / structured warrants by conducting credit risk management process whereby such risk arises when the issuer is not able to meet their contractual obligations. It is also important to note that an event of downgrade does not constitute a default. In the event if the downgrade in the rating of the issuer may lead to high credit risk, or where there is material adverse change to an issuer, the Manager may consider unwinding the issuer's options / structured warrants to mitigate potential losses in returns that may arise.

In addition, the Manager may take temporary defensive positions that may be inconsistent with the Fund's strategy in attempting to respond to adverse economic, political or any other market conditions including downgrade in the rating of the issuer in the case of an options and/or structured warrant and/or Bonds. In such circumstances, the Manager may allocate up to 100% of the Fixed Income Instruments into liquid assets which may be inconsistent with the Fund's objective and asset allocation strategy.

The overall risk management strategies for the Fund are as follows:

1. monitoring market and economic conditions;
2. monitoring adherence to the Fund's objective and investment restrictions and limits;
3. monitoring the performance of the Fund;
4. monitoring the Bonds' ratings and taking precautionary steps if the Bonds are downgraded; and
5. escalating and reporting investment matters to the investment committee, senior management team, audit and compliance committee and board of directors.

CHAPTER 3: TRANSACTION INFORMATION

3.1 Sale and Purchase of Units

3.1.1 Computation of NAV and NAV per Unit of the Fund

The NAV of the Fund means the total value of the Fund's investment, assets and properties less the Fund's expenses or liabilities incurred or accrued for the day.

The NAV of the Fund is calculated on a weekly basis.

An illustration of computation of NAV and the NAV per Unit for a particular day:-

Fixed Income Instruments	RM	124,370,000.69
Options / structured warrants	RM	11,549,883.00
Other assets (liquid assets)	RM	994,960.01
Total Assets	RM	136,914,843.70
Less liabilities	RM	(124,370.00)
NAV before deducting trustee fee for the day	RM	136,790,473.70
Less trustee fee for the day (0.04% per annum) (0.04%x RM136,790,473.70) ÷ 365)	RM	(149.91)
NAV after deducting trustee fee	RM	136,790,323.79
Units in circulation		130,000,000.00
NAV per Unit	RM	1.0522333
NAV per Unit (rounded to four decimal places)	RM	1.0522

Please note that the calculation set out above is for illustration purposes only.

3.2 Pricing of Units

We adopt the single pricing policy which is in line with the SC's requirement for the Malaysian unit trust industry. Under this regime, both the selling price and buying price of Units are fixed at the Offer Price during the Offer Period. After the Offer Period, the buying price will be the NAV per Unit of the Fund.

The weekly NAV per Unit of the Fund is valued at the next valuation point after a redemption request is received by us, i.e., on forward price basis.

Example:

Making an investment

Illustration: Determining the Investment Amount & Units Entitlement

Assuming an investor decided to invest RM10,000 in the Fund during the Offer Period. The NAV per Unit is RM1.0000 and the sales charge is 3.00% of the NAV per Unit. The sales charge is calculated based on his investment amount and is illustrated as follows:

Investment amount	RM	10,000.00
Number of Units allocated (RM10,000 / RM1.0000)		10,000
Add: sales charge 3.00% of investment amount (3.00% x RM10,000)	RM	300.00
Amount payable by investor	RM	10,300.00

Prospectus in respect of the TA Rainbow Income Fund 3

Redeeming an investment

Investors may redeem their investment on every Thursday by submitting a complete transaction form and returning to the Manager on any Business Day. The redemption application will be processed on a weekly basis and the redemption amount is calculated by multiplying the NAV per Unit at the next valuation point after the Manager receives the redemption application, with the number of Units to be redeemed.

Determining the Redemption Amount		
Number of Units to be redeemed		10,000.00
If for example, the NAV per Unit calculated at the next valuation point is RM1.1000, the redemption value, would be:		
Multiply by NAV per Unit	RM	1.1000
Redemption value	RM	11,000.00
Less: redemption charge 3.00% of redemption value (3.00% x RM11,000)	RM	(330.00)
Net amount payable to investor	RM	10,670.00

Please note that the calculation set out above is for illustration purposes only.

Incorrect Pricing

The Manager shall take immediate action to rectify any incorrect valuation and/or pricing of the Fund and/or the Units and to notify the Trustee and the relevant authorities of the same unless the Trustee considers the incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance. An incorrect valuation and/or pricing of the Fund and/or the Units shall result in a reimbursement of moneys unless the Trustee considers that such incorrect valuation and/or pricing of the Fund and/or the Units is of minimal significance.

The Trustee shall not consider an incorrect valuation and/or pricing of the Fund and/or the Units to be of minimal significance if the error involves a discrepancy of zero point five per centum (0.5%) or more of the NAV per Unit unless the total impact on a Unit Holder's account is less than RM10.00 in absolute amount. An incorrect valuation and/or pricing not considered to be of minimal significance by the Trustee shall result in reimbursement of moneys and/or creation of Units in the following manner:

- (a) if there is an over valuation and/or pricing in relation to the redemption of Units, the Manager shall reimburse the Fund; and
- (b) if there is an under valuation and/or pricing in relation to the redemption of Units, the Fund shall reimburse the Manager and the Manager shall reimburse the Unit Holder or former Unit Holder.

3.10.2 Bases for Valuation of the Assets of the Fund

Investment Instruments	Valuation Basis
Deposits	For deposits placed with financial institution, valuation will be performed by reference to the principal value provided by the financial institution that issues or provides such investments including interests accrued thereon for the relevant period, if any.
Money market instruments	Investments in money market instruments are valued at book cost, meaning cost of acquisition plus accretion of discount on yield to maturity method. For zero negotiable instruments of deposit, valuation will be done using the indicative price quoted by the financial institution that issues or provides such instruments. For investments in commercial papers, valuation will be performed by reference to the price quoted by a Bond Pricing Agency (BPA) registered by the Securities Commission.
Bonds	Unlisted bonds denominated in ringgit Malaysia will be valued based on the price quoted by BPA registered by the Securities Commission. However, if: (a) a valuation based on the market price does not represent the fair value of the bonds, for example during abnormal market conditions; or (b) no market price is available, including if a suspension in the quotation of the bonds for a period exceeding 14 days, or such shorter period as agreed by the Trustee,

Prospectus in respect of the TA Rainbow Income Fund 3

Investment Instruments	Valuation Basis
	<p>then the bonds would be valued at fair value, as determined in good faith by us based on the methods or bases approved by the Trustee after appropriate technical consultation.</p> <p>In a case where we are of the view that the price quoted by BPA or the average indicative price quoted by three (3) independent and reputable financial institutions for a specific bond differs from our view of the market price by more than twenty (20) basis points, we may use the market price of our view, provided that we record our basis for using such price, obtain the necessary internal approvals to use such price and keep an audit trail of all decisions and basis of adopting such price.</p>
Options / structured warrants	Valuation of the options and/or structured warrants shall be based on closing market price. If a valuation based on the market price does not represent the fair value of the options and/or structured warrants or no market price is publicly available, including in the event of suspension in the quotation of the options and/or structured warrants for a period exceeding fourteen (14) days, or such shorter period as agreed by the Trustee, such investment will be valued at fair value determined in good faith by the Manager, on methods or bases which have been verified by the auditors of the Fund and approved by the Trustee.
Any other instruments	Fair value as determined in good faith by us, on methods or bases which have been verified by the auditor of the Fund and approved by the Trustee.

Dear Sirs

Re: Taxation of the Fund and Unit Holders

This letter has been prepared for inclusion in this First Prospectus in connection with the offer of units in the TA Rainbow Income Fund 3 ("the Fund").

Taxation of the Fund

Income Tax

The Fund is a unit trust for Malaysian tax purposes. The taxation of the Fund is therefore governed principally by Sections 61 and 63B of the Income Tax Act, 1967 ("the Act").

Subject to certain exemptions, the income of the Fund in respect of investment income derived from or accruing in Malaysia are liable to income tax at the rate of 24% effective Year of Assessment ("YA") 2016.

Gains from the realisation of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to tax in the country from which it is derived.

Interest income earned by the Fund from the following are exempt from tax:-

- any savings certificates issued by the Government; or
- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia; or
- a bank or financial institution licensed under the Financial Services Act 2013 or Islamic Financial Services Act 2013^{N1}; or
- any development financial institution regulated under the Development Financial Institutions Act 2002^{N1}; or

^{N1} Effective from YA 2017, in the case of a wholesale fund which is a money market fund, the exemption shall only apply to a wholesale fund which complies with the criteria as set out in the relevant guidelines of the Securities Commission. The Finance Act 2018 has been gazetted on 27 December 2018 with the amendment that the current tax exemption on interest income derived from Malaysia and paid or credited by a licensed bank or financial institution to a wholesale money market fund is now entirely withdrawn. The above amendment is effective from 1 January 2019.

Prospectus in respect of the TA Rainbow Income Fund 3

- sukuk originating from Malaysia, other than convertible loan stocks, issued in any currency other than Ringgit and approved or authorized by, or lodged with, the Securities Commission, or approved by the Labuan Financial Services Authority^{N2}.

The Fund may receive dividends, interest and other income from investments outside Malaysia. Income derived from sources outside Malaysia and received in Malaysia by a resident unit trust is exempt from Malaysian income tax. However, such income may be subject to tax in the country from which it is derived.

Discounts earned by the Fund from the following are also exempt from tax:-

- securities or bonds issued or guaranteed by the Government; or
- debentures or sukuk, other than convertible loan stock, approved or authorized by, or lodged with, the Securities Commission; or
- Bon Simpanan Malaysia issued by the Central Bank of Malaysia.

Tax deductions in respect of the Fund's expenses such as manager's remuneration, expenses on maintenance of register of unit holders, share registration expenses, secretarial, audit and accounting fees, telephone charges, printing and stationery costs and postage ("permitted expenses") are allowed based on a prescribed formula subject to a minimum of 10% and a maximum of 25% of the total permitted expenses.

Single tier Malaysian dividends received by the Fund are exempt from tax and expenses in relation to such dividend income are disregarded.

Real Property Gains Tax ("RPGT")

Gains on disposal of investments by the Fund will not be subject to income tax in Malaysia. However, such gains may be subject to RPGT in Malaysia, if the gains are derived from sale of Malaysian real properties and shares in Malaysian real property companies (as defined). Such gains would be subject to RPGT at the applicable rate depending on the holding period of the chargeable assets.

Sales Tax and Service Tax

The Goods and Services Tax ("GST") is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Under the Sales Tax Act 2018, Service Tax Act 2018 and the subsidiary legislations, the sales tax rate for taxable goods is 5% or 10% while the service tax rate for taxable services is generally 6%. There are certain goods which are exempted from sales tax.

The issue, holding or redemption of any unit under a trust fund does not fall within the list of taxable services under the First Schedule of the Service Tax Regulations 2018 and hence, is not subject to service tax. The investment activities of the Fund such as buying and selling of securities and deposits in financial institutions are also not subject to service tax. As such, if the Fund is only deriving income from such activities, the Fund is not liable to be registered for service tax.

^{N2} Effective from YA 2017, income tax exemption shall not apply to interest paid or credited to a company in the same group, licensed banks and prescribed development financial institutions.

Prospectus in respect of the TA Rainbow Income Fund 3

However, certain expenses incurred by the Fund such as legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007. The service tax incurred by the Fund is a cost to the Fund and is not recoverable, unlike the GST input tax which is claimable under the GST regime.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable services. This is effective from 1 January 2019.

Taxation of Unit Holders

Income Tax

Unit holders are taxed on an amount equivalent to their share of the total taxable income of the Fund, to the extent that this is distributed to them. The income distribution from the Fund may carry with it applicable tax credits proportionate to each unit holder's share of the total taxable income in respect of the tax paid by the Fund. Unit holders will be entitled to utilise the tax credit as a set off against the tax payable by them. Any excess over their tax liability will be refunded to the unit holders. No other withholding tax will be imposed on the income distribution of the Fund.

Corporate unit holders, resident or non resident in Malaysia, would be taxed at the corporate tax rate of 24% (effective from YA 2016) on distributions of income from the Fund to the extent of an amount equivalent to their share of the total taxable income of the Fund. Corporate unit holders in Malaysia with paid-up capital in the form of ordinary shares of RM2.5 million and below will be subject to a tax rate of 18% (to be reduced to 17% effective from YA 2019) on chargeable income of up to RM500,000. For chargeable income in excess of RM500,000, the tax rate of 24% is still applicable.

However, the said tax rate of 18% (to be reduced to 17% effective from YA 2019) on chargeable income of up to RM500,000 would not apply if more than 50% of the paid up capital in respect of ordinary shares of that corporate unit holder is directly or indirectly owned by a related company which has a paid up capital exceeding RM2.5 million in respect of ordinary shares, or vice versa, or more than 50% of the paid up capital in respect of ordinary shares of both companies are directly or indirectly owned by another company.

Pursuant to Income Tax (Exemption) (No. 2) Order 2017 [P.U.(A) 117], a tax exemption equivalent to a reduction in the prevailing corporate tax rate from 1% to 4% will be effectively given for YA 2017 and YA 2018 based on percentage increase in the chargeable business income for the relevant YA as compared to the immediately preceding YA, subject to meeting the stipulated conditions.

Individuals and other non-corporate unit holders who are resident in Malaysia will be subject to income tax at scale rates. The scale tax rates range from 0% to 28% with effect from YA 2016.

Individuals and other non-corporate unit holders who are not resident in Malaysia, for tax purposes, will be subject to Malaysian income tax at the rate of 28% with effect from YA 2016. Non-resident unit holders may also be subject to tax in their respective jurisdictions and depending on the provisions of the relevant tax legislation and any double tax treaties with Malaysia, the Malaysian tax suffered may be creditable in the foreign tax jurisdictions.

Prospectus in respect of the TA Rainbow Income Fund 3

The distribution of single-tier Malaysian dividends and tax exempt income by the Fund will not be subject to tax in the hands of the unit holders in Malaysia. Distribution of foreign income will also be exempt in the hands of the unit holders.

Units split by the Fund will be exempt from tax in Malaysia in the hands of the unit holders.

Any gains realised by the unit holders (other than financial institutions, insurance companies and those dealing in securities) from the transfers or redemptions of the unit are generally treated as capital gains which are not subject to income tax in Malaysia. However, certain unit holders may be subject to income tax in Malaysia on such gains, due to specific circumstances of the unit holders.

Sales Tax and Service Tax

GST is replaced by Sales Tax and Service Tax effective from 1 September 2018.

Only taxable services listed in the First Schedule of the Service Tax Regulations 2018 are subject to service tax, which exclude investment income or gains.

However, legal fees, consultancy fees and management fees may be subject to service tax at 6%. For management fees, this specifically excludes fees charged by any person who is licensed or registered with the Securities Commission for carrying out the regulated activity of fund management under the Capital Markets and Services Act 2007.

Based on the Finance Act 2018 which has been gazetted on 27 December 2018 the imposition and scope of service tax is now widened to include any imported taxable services. This is effective from 1 January 2019.

The tax position is based on our understanding and interpretation of the Malaysian tax legislations and proposals as they stand at present. All prospective investors should not treat the contents of this letter as advice relating to taxation matters and are advised to consult their own professional advisers concerning their respective investments.

Yours faithfully

Neoh Beng Guan

DEFINITIONS

Account Holder

The "Account Holder" means the person listed or identified as the holder of a Financial Account by the Financial Institution that maintains the account. This is regardless of whether such person is a flow-through Entity. Thus, for example, if a trust or an estate is listed as the holder or owner of a Financial Account, the trust or the estate is the Account Holder, rather than the trustee or the trust's owners or beneficiaries. Similarly, if a partnership is listed as the holder or owner of a Financial Account, the partnership is the Account Holder, rather than the partner in the partnership. A person, other than a Financial Institution, holding a Financial Account for the benefit or account of another person as agent, custodian, nominee, signatory, investment advisor, or intermediary, is not treated as holding the account, and such other person is treated as holding the account.

Active NFE

An NFE is an Active NFE if it meets any of the criteria listed below. In summary, those criteria refer to

- active NFEs by reason of income and assets;
- publicly traded NFEs;
- Governmental Entities, International Organisation, Central Banks, or their wholly owned Entities;
- holding NFEs that are members of a nonfinancial groups;
- start-up NFEs;
- NFEs that are liquidating or emerging from bankruptcy;
- treasury centres that are members of a nonfinancial group; or
- non-profit NFEs.

Controlling Person(s)

Controlling Person(s) are the natural person(s) who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("Passive NFE") then a Financial Institution is required to determine whether or not these Controlling Persons are Reportable Persons. This definition corresponds to the term "beneficial owner" described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation. The term covers any person other than an individual (i.e. a natural person)

Financial Institution

The term "Financial Institution" means a "Custodial Institution", a "Depository Institution", an "Investment Entity", or a "Specified Insurance Company". Please see the relevant domestic guidance and the CRS for further classification definitions that apply to Financial Institutions.

NFE

"NFE" is an Entity that is not a Financial Institution.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Related Entity

An Entity is a "Related Entity" of another Entity if either Entity controls the other Entity, or the two Entities are under common control. For this purpose, control includes direct or indirect ownership of more than 50% of the vote and value in an Entity.

Reportable Person

A "Reportable Person" defined as a "Reportable Jurisdiction Person", other than:

- a corporation the stock of which is regularly traded on one or more established securities markets;
- any corporation that is a related Entity of a corporation described in clause (i);
- a Governmental Entity;
- an International Organisation;
- a Central Bank; or a Financial Institution (except for an Investment Entity described in Sub Paragraph A (6) b) of the CRS that are not Participating Jurisdiction Financial Institutions. Instead, such Investment Entities are treated as Passive NFE's)

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

DEFINITIONS

Account Holder

The term "Account Holder" means the person listed or identified as the holder of a Financial Account. A person, other than a Financial Institution, holding a Financial Account for the benefit of another person as an agent, a custodian, a nominee, a signatory, an investment advisor, an intermediary, or a legal guardian, is not treated as the Account Holder. In these circumstances that other person is the Account Holder. For example in the case of a parent/child relationship where the parent is acting as a legal guardian, the child is regarded as the Account Holder. With respect to a jointly held account, each joint holder is treated as an Account Holder.

Controlling Person

This is a natural person who exercises control over an entity. Where that entity is treated as a Passive Non-Financial Entity ("NFE") then a Financial Institution must determine whether such Controlling Persons are Reportable Persons. This definition corresponds to the term 'beneficial owner' as described in Recommendation 10 and the Interpretative Note on Recommendation 10 of the Financial Action Task Force Recommendations (as adopted in February 2012).

Controlling Person of a trust

Means the settlor(s) the trustee(s), the protector(s) (if any), the beneficiary(ies) or class(es) of beneficiaries, and any other natural person(s) exercising ultimate effective control over the trust (including through a chain of control or ownership). The settlor(s), the trustee(s), the protector(s) (if any), and the beneficiary(ies) or class(es) or beneficiaries, must always be treated as Controlling Persons of a trust, regardless of whether or not any of them exercises control over the activities of the trust.

Where the settlor(s) of a trust is an Entity then the CRS requires Financial Institutions to also identify the Controlling Persons of the settlor(s) and when required report them as Controlling Persons of the trust.

In a case of a legal arrangement other than a trust, such term means persons in equivalent or similar positions.

Entity

The term "Entity" means a legal person or a legal arrangement such as a corporation, organisation, partnership, trust or foundation.

Passive NFE

Under the CRS a "Passive NFE" means any NFE that is not an Active NFE. An Investment Entity located in a Non-Participating Jurisdiction and managed by another Financial Institution is also treated as a Passive NFE for purposes of the CRS.

Reportable Account

The term "Reportable Account" means an account held by one or more Reportable Persons or by a Passive NFE with one or more Controlling Persons that is a Reportable Person.

Reportable Jurisdiction

A Reportable Jurisdiction is a jurisdiction with which an obligation to provide financial account information is a place and that is identified in a published list.

14. UNIT TRUST LOAN FINANCING RISK DISCLOSURE STATEMENT

Investing in a unit trust scheme with borrowed money is more risky than investing with your own savings.

You should assess if loan financing is suitable for you in light of your objectives, attitude to risk and financial circumstances. You should be aware of the risks, which would include the following:-

- a. The higher the margin of financing (that is, the amount of money you borrow for every ringgit of your own money which you put in as deposit or down payment), the greater the potential for losses as well as gains.
- b. You should assess whether you have the ability to service the repayments on the proposed loan. If your loan is a variable rate loan, and if interest rates rise, your total repayment amount will be increased.
- c. If unit prices fall beyond a certain level, you may be asked to provide additional acceptable collateral or pay additional amounts on top of your normal installments. If you fail to comply within the time prescribed, your units may be sold to settle your loan.
- d. Returns on unit trusts are not guaranteed and may not be earned evenly over time. This means that there may be some years where returns are high and other years where losses are experienced. Whether you eventually realise a gain or loss may be affected by the timing of the sale of your units. The value of units may fall just when you want your money back even though the investment may have done well in the past.

This brief statement cannot disclose all the risks and other aspects of loan financing. You should therefore study the terms and conditions carefully before you decide to take a loan. If you are in doubt about any aspect of this risk disclosure statement or the terms of the loan financing, you should consult the institution offering the loan.

15. MONEY LAUNDERING STATEMENTS

The applicant hereby warrants that:-

- a. The applicant is the underlying principal of the Account (where applicable)
- b. No person other than the applicant has or will have any interest in the Account (where applicable); and
- c. All monies as may be paid to TAIM from time to time shall come from a legitimate (and not illegal) source
- d. The applicant agrees to provide all such information and documents as may be necessary to verify the applicant's identity and do all such acts and things as may be necessary to enable TAIM to comply with all applicable anti-money laundering and counter financing of terrorism (AML/ CFT), and know-your-customer laws, rules and regulations (whether in Malaysia or elsewhere). The applicant agrees that TAIM shall not be liable or responsible in anyway whatsoever and shall be held harmless against any loss arising as a result of or in connection with any delay or failure to process any application or transaction if such information or documents requested by TAIM have not been promptly provided by the applicant to TAIM.
- e. TAIM reserves the right to terminate the relationship if any documents requested pursuant to the AML/ CFT requirements are not received within 14 business days. In the event of termination, units will be redeemed at the closing NAV price on the 15th business day.
