

TA Rainbow Income Fund 9 (TARAI9)

Information as at 30 December 2022 (based on NAV to NAV with distributions reinvested)

Fund Objective

The Fund aims to provide income* whilst preserving capital** on Maturity Date.

**The Fund will invest in options and/or structured warrants to provide potential annual returns. Income distribution will be paid to you by way of cash deposit to a bank account held in your own name.*

***Investors are advised that this Fund is neither a capital guaranteed nor a capital protected fund. The capital will be preserved by investments in Fixed Income Instruments. Consequently, the return of capital is SUBJECT TO the credit and default risk of the issuers of the Fixed Income Instruments.*

Investor Profile

The Fund is suitable for investors who:

- seek Medium Term investment horizon;
- have low to moderate risk profile; and
- seek capital preservation¹.

¹This Fund is neither a capital guaranteed nor a capital protected fund.

Investment Strategy

The Fund seeks to achieve its investment objective by investing at least 90% of its NAV in Fixed Income Instruments to repay the initial investment of investors at Maturity Date (including sales charge). Up to 10% of the Fund's NAV will be invested in options / structured warrants linked to the performance of the Rainbow Basket to generate return.

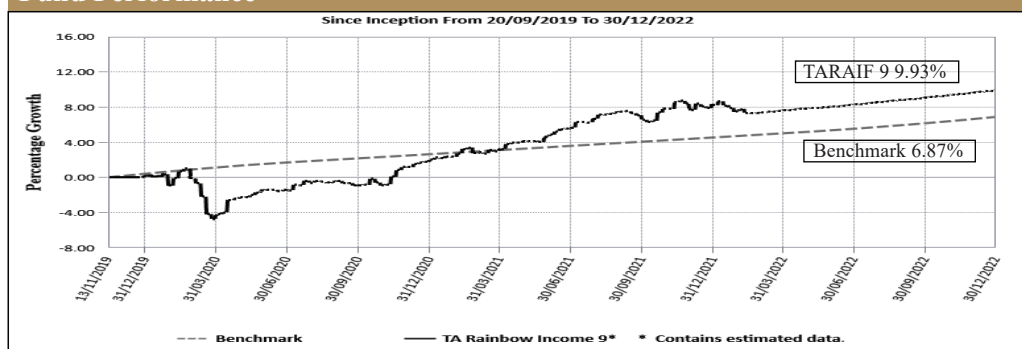

For the Fixed Income Instruments, the Fund intends to invest in deposits and/or money market instruments issued by Malaysian financial institutions rated at least "A" by RAM or equivalent rating by other recognised rating agencies. Whereas for investment in Bonds, the Bonds will be rated at least "A" by RAM or its equivalent rating by other domestic rating agencies and/or any global rating agencies. The Fund may invest up to 30% of its NAV in foreign Bonds should the Manager finds it appropriate to do so. The tenures of the Bonds will match (i.e: 3 years) or will be similar (i.e: shorter than 3 years) to the Tenure of the Fund.

The Fund may enter into derivative contracts which include, but are not limited to foreign exchange forward contracts and swap for the purposes of hedging and not for speculative purposes. Foreign exchange forward contracts and other currency derivatives may be used to hedge the returns and principal of all foreign denominated Bonds back to the Base Currency i.e: RM.

As this is a close-ended fixed income fund, the Fund will be managed on a semi-active basis by the Manager. At the Maturity Date, issuers of the Fixed Income Instruments held by the Fund will be obligated to pay the notional amount provided there is no occurrence of credit default by the issuers. In order to mitigate credit and default risk, the selection will be based on stringent credit research and analysis. Semi-active management of the portfolio refers to the possibility that securities in the portfolio may be traded and rebalanced if needed to address default risk and/or uptrend interest rate concerns.

The Fund will invest in markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO).
