

TA Dana Global (TADG)

(Previously known as TA Dana Global 50)

Information as at 31 October 2022 (based on NAV to NAV with distributions reinvested)

Pg 8

Fund Objective

The Fund aims to provide income and capital appreciation.

Investor Profile

The Fund is suitable for investors who:-

- seek income stream;
- seek Long Term capital appreciation; and
- seek diversification in their investment portfolio through exposure to global investments and Underlying Asset.

Investment Strategy

The Fund seeks to achieve the investment objective by investing primarily in Malaysian Islamic fixed income instruments and Islamic money market instruments. Remainder of the Fund's NAV will be invested in Islamic liquid assets.

The Fund will also invest in Islamic Derivative instrument which is issued by the Bank carrying a minimum rating by a domestic or global rating agency that indicates strong capacity for timely payment of financial obligation. The purpose of the Islamic Derivative is to enable the Fund's performance to be exposed to the return of the underlying asset ("Underlying Asset") based on each party's undertaking (Wa'd).

The Fund will be managed on a semi-active basis by the Manager. Semi-active management of the portfolio refers to the possibility that the investments may be traded / rebalanced if needed based on default risk and/or from uptrend interest rate concerns. Please refer risk management strategies of the Fund for information on how the risk is mitigated.

The base currency of the Fund is in RM but the Fund's exposure to the Islamic Derivative may be denominated in foreign currency.

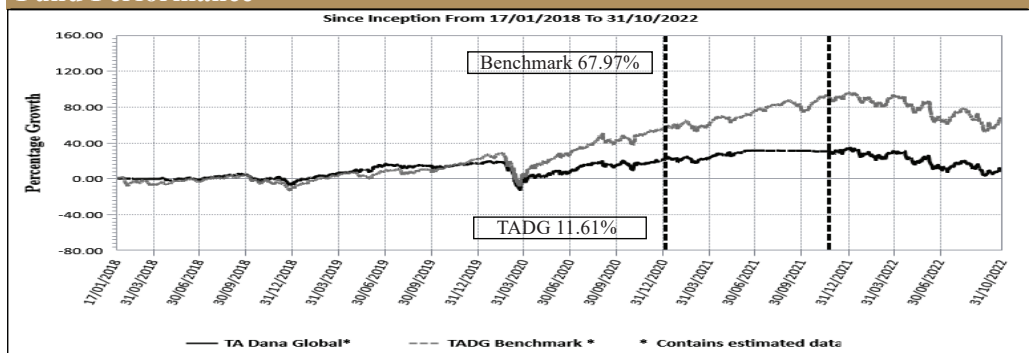

Note: If and when required due to market conditions, the Manager has the discretion to unwind its positions in the Islamic Derivative and the Fund will not be exposed to the return of the Underlying Asset. Upon unwinding, the Manager may enter into new Islamic Derivative transaction with other counterparty. The Manager will notify Unit Holders in writing the information relating to the issuer/Underlying Asset of the Islamic Derivative. Please refer to risk management strategies of the Fund for information on the temporary defensive positions of the Manager.

The Fund's exposure into the Islamic Derivative could potentially result in higher volatility for the Fund's NAV.

Based on the fund's portfolio returns as at October 2022, the Volatility Factor (VF) for this fund is 14.7 and is classified as "High" (source: Lipper). "High" includes funds with VF that are above 14.2 but not more than 17.6. The VF means there is a possibility for the fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision and VC will be revised every six months. The fund's portfolio may have changed since this date and there is no guarantee that the fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

Neither the information nor any opinion expressed constitutes an offer, or an invitation to make an offer to buy or sell any securities or unit trusts. Copies of the Master Prospectus dated 23 November 2021 and the First Supplementary Master Prospectus dated 25 August 2022 have been registered with the Securities Commission Malaysia who takes no responsibility for its contents. These materials have not been reviewed by the Securities Commission Malaysia. Investors are advised to read and understand the contents of the Prospectuses, copies of which are available from our offices, authorised consultants and distributors before investing. Investors should rely on their own evaluation to assess the merits and risks of the investment. If investors are unable to make their own evaluation, they are advised to consult professional advisers where necessary. Product Highlights Sheet ("PHS") is available and that Investors have the right to request for a PHS; and the PHS and any other product disclosure document should be read and understood before making any investment decision. The price of units and distributions payable, if any, may go down as well as up. Investors should also compare and consider the fees, charges and costs involved and the risks when investing in the Fund such as market risk, currency risk and country risk before investing. Where past performance is quoted, past performance of the Fund is no indication of its future performance. Units are issued upon receipt of a duly completed application form referred to in and accompanying the Prospectus. Investors are advised that following the issue of additional distribution, the NAV per unit will be reduced from cum-distribution NAV to ex-distribution NAV. Investors are also advised that, where a unit split is declared, the value of their investment in Malaysian ringgit will remain unchanged after the distribution of the additional units.
