Investment Policy & Strategy	A minimum of 95% of the Fund's NAV will be invested in the Janus Henderson Horizon Fund – Global Technology Leaders Fund ("the Target Fund"), with the balance in liquid assets.						
	<p>The Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the hedged Classes which are not denominated in the base currency of the Fund. The Manager may adopt a temporary defensive strategy by maintaining a sufficient level of liquid asset that may be inconsistent with the Fund's principal investment and asset allocation strategy. The defensive strategy may be necessary to protect the Fund's investment in response to adverse market, economic, political, or any other conditions. As a result, the Fund's performance may diverge from the Target Fund's return and tracking error may increase.</p> <p>If and when the Manager considers the investment in the Target Fund is unable to meet the objective of the Fund, the Manager may choose to replace the Target Fund with another collective investment scheme that is deemed more appropriate. The Manager will seek Unit Holders' approval before any such changes are made.</p> <p><i>Investors may obtain a copy of the Target Fund's Prospectus from the Manager upon request.</i></p>

Please refer to Chapter 1, 2 & 4 of the replacement prospectus dated 15 October 2021 ("Prospectus") for further information.

4. Who am I investing with?

Manager	TA Investment Management Berhad (Registration Number: 199501011387 (340588-T))
Trustee	Maybank Trustees Berhad (Registration Number: 196301000109 (5004-P))

5. What are the possible outcomes of my investment?

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of profit earned. However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

Specific risks related to the Fund:

Country Risk	The value of the assets of the Fund may be affected by uncertainties such as currency repatriation restrictions, other developments in the law or regulations, and the political and economic conditions of the countries in which the Fund is invested in. Careful consideration shall be given to risk factors such as liquidity risk, political and economic environment of the countries before any investments are made.
Currency Risk	<p>The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the base currency of the Fund.</p> <p>(i) Currency risk at the hedged Class level Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency against the base currency of the Fund. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when USD moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by investors in these Classes.</p> <p>(ii) Currency risk at the non-hedged Class level For investors in the non-hedged Classes, the impact of the exchange rate movement between the base currency of the Fund and the currency of the respective Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the base currency of the Fund.</p>

Sector Investment Risk	Because equities within a given economic sector or industry tend to be affected by many of the same factors, the Fund may be more volatile than the funds that invest more broadly and may underperform the overall equity market for any given period of time. Sector investment risk can be mitigated by investing into a more defensive sector at different business cycle.
Regulatory Risk	Trading and settlement practices of some of the markets in which the Fund may invest may not be the same as those in more developed markets, and this may increase settlement risk and/or result in delays in realising investments made by the Fund. In addition, the Fund will be exposed to credit risk on parties with whom it trades and will bear the risk of settlement default. The Trustee may also be instructed by the Manager to settle transactions on a delivery free of payment basis where the Manager believes that this form of settlement is common market practice. Investors should be aware that this may result in a loss to the Fund if a transaction fails to settle, and the Trustee will not be liable to the Fund for such loss.
Counterparty Risk	Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Any default by the counterparty would affect the NAV of the Fund. The Fund will only enter into derivatives contract that are issued by counterparty with a minimum long-term rating provided by any domestic or global rating agency that indicates strong capacity for timely payment of financial obligations. In the event of a downgrade of a counterparty below the minimum long-term rating, analysis will be conducted to assess the impact of unwinding the affected trades and replacement cost. We reserve the right to deal with the derivatives contract in the best interest of the Unit Holders.
Fund Management of the Target Fund Risk	As the investments of Fund are invested in the Target Fund, the Manager has no control over the management company of the Target Fund's investment technique, knowledge or management expertise. In the event of mismanagement of the investments by the management company of the Target Fund, the Fund which invests substantially most of its assets into the Target Fund would be affected negatively. The Fund would also be affected should there be any unresolved dispute between the Manager and the management company of the Target Fund. Although the probability of such occurrences is minor, should the situation arise TAIM reserves the right to seek other collective investment scheme that is consistent with the objective of the Fund.
Temporary Suspension of the Target Fund	If the right of the Fund to redeem its Shares of the Target Fund is temporarily suspended, the Fund may also be affected if the Fund does not have sufficient liquidity to meet redemption request from Unit Holder. As such, the Manager will also suspend the redemption of Units of the Fund. Any redemption request received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension.

Note:

Please refer to Section 1.15 of the Prospectus for further information.

Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed and the investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).

FEE & CHARGES

7. What are the fees and charges involved?

Fees and charges¹ related to the Fund:

Sales Charge	A maximum of 5.50% of the NAV per Unit of / amount invested in the Fund (rounded to two (2) decimal points) is imposed either by IUTAs, unit trust consultants or by the Manager.
Repurchase Charge	The Manager has no intention to impose any repurchase charge.
Switching Fee	The Manager does not impose any switching fee, however, if the amount of sales charge of the fund that the Unit Holder intends to switch into is more than the sales charge imposed by the fund being switched from, then the difference in the sales charge between the two (2) funds shall be borne by the Unit Holder.
Transfer Fee	An administrative charge of RM5.00 or any other amount as the Manager may deem appropriate.

Annual Management Fee	Up to 1.80% per annum of the NAV of the Fund.
Annual Trustee Fee²	0.055% per annum of the NAV of the Fund calculated on a daily basis subject to a minimum RM12,000 per annum.

Notes:

1. We may for any reason and at any time, waive or reduce: (A) any fees (except the trustee fee); (B) other charges payable by you in respect of the Fund; and/or (C) transactional values including but not limited to the Units or amounts, for any Unit Holder and/or investments made via any distribution channels or platform.
2. Actual rate excluding foreign custodian fee and charges.

Please refer to Chapter 3 of the Prospectus for further information.

The fund performed very strongly over the past year as the unprecedented impact of the tragic pandemic accelerated multiple major technology trends across remote working, remote learning, ecommerce, streaming, video games, and cloud adoption. This drove strong earnings growth for related technology stocks that also benefitted from a growth scarcity valuation premium given the pandemic impact on other sectors. However, this period can be split in half as prior to the positive vaccination news in early November 2020, the focus was just on these secular growth work-from-home winners with the market demonstrating very little valuation sensitivity as rates set new all-time lows. That changed after the vaccine news, which gave the market more confidence in the economic recovery from the pandemic, and then in early 2021 as inflation concerns accompanying that recovery led to a jump in interest rate expectations pressuring higher duration stocks. The fund has sought to navigate some violent style and sector rotations in the market by continuing to focus on identifying unexpected earnings growth at a reasonable valuation while balancing secular growth technology winners with a growing barbell of technology stocks that benefit from the reopening of the economy. That helped to reduce the volatility and drawdown of the fund during the most recent market rotations, helping with relative outperformance.
