Past performance is not necessarily indicative of future performance. Unit prices and investment returns may go down, as well as up.

(For the 6 months ended 30 November 2024)

The basis of calculating and assumption made in calculating the returns:

Percentage Growth = 
$$\frac{N^1-N^2}{N^2} \times 100$$

 $N^1$  = NAV on the end of the period

 $N^2$  = NAV on the beginning of the period

$$*Average\ Total\ Return = \frac{{\it Total\ Sub\ Period\ Returns}}{{\it Number\ of\ Sub\ Periods}}$$

\*\*Annual Total Return =  $(1 + Cumulative Return) N^3 / N^4 - 1$ 

 $N^3$  = Number of periods per year

N<sup>4</sup> = Total number of periods

Factor in for unit splits and distributions paid out (if any during the period)

### **Market Review**

The six-month period to end-November 2024 continued to be a favourable environment for investors in the technology sector. With inflation continuing its downward trend and the United States (US) Federal Reserve (Fed) beginning to reduce interest rates, investor confidence in a "soft landing" for the US economy increased. The decisive victory by Donald Trump in both the electoral college and, somewhat surprisingly, in the popular vote in the recent US elections has also been supportive for the US equity market and technology stocks. At the same time, growing confidence in the duration of investment in Artificial Intelligence (AI) and High Performance Computing (HPC) alongside increasingly evident use cases has been a tailwind for the sector.

### Contributors or detractors for the 6-months ending 30 November 2024

NVIDIA was the strongest contributor as earnings continued to surprise to the upside on the back of strong demand for its graphics processing units (GPUs) that have become critical in running generative AI models. Marvell Technology also contributed significantly due to the strength of its optical and custom compute semiconductor products as customers upgrade their technology infrastructure to cope with the higher demands placed on it due to AI. Outside of the semiconductor sector, Meta Platforms contributed materially as the business continued to benefit from the deployment of AI which is improving user engagement and advertisement placement. This in turn has contributed to both faster revenue growth and improved profitability.

ASML detracted after guiding for sales in 2025 to be at the lower end range of prior targets due to reduced near-term demand for its products along with lower sales in China. That said, confidence in the longer-term outlook remains and we like ASML's position as a leader in the market. Advanced Micro Devices (AMD) underperformed after a mixed third quarter of 2024 earnings report which showed strength in AMD's AI related semiconductor sales partially offset by relative weakness in other parts of its business. Still, AMD remains well placed longer-term to benefit from the AI compute cycle with a compelling product roadmap ahead. Samsung Electronics detracted as concerns built on its competitive positioning in High Bandwidth Memory (HBM). HBM is an essential component for AI but Samsung seems to be lagging in this area.

In terms of activity, we exited Samsung due to concerns noted above having added it earlier in the period. We also exited Qualcomm due to news that it could be interested in acquiring Intel which added to our existing concerns around the company's exposure to Apple and risk from internal modem development efforts. Applied Materials was sold on elevated risks around future business in China.

We added a new position in Broadcom where we believe it is well placed to benefit from its strong positioning for datacentre connectivity with Ethernet switches and routers as well as its potential in custom silicon. ASML, was added after a period of underperformance given its favourable long-term prospects in the semiconductor capital equipment market where it is a leader. We also added the German enterprise software company, SAP, where the upgrade cycle for its S4/HANA platform is more visible and the new Chief Financial Officer is improving profitability.

## **Market Outlook And Investment Strategy**

We remain excited to be early in another great wave of technology innovation and continue to see a very favourable environment for active stock pickers ahead.

We believe the new AI compute wave can deliver significant productivity gains to the economy and to companies, driving lower inflation and enhanced profit growth. Semiconductors, public cloud platforms, cyber security and digital advertising have been some of the earliest beneficiaries of AI investment. While we continue to see all these areas as structurally attractive, we also believe that being valuation disciplined and discriminating among product leaders will be increasingly important as AI deployments develop.

We continue to search for areas which will benefit from the fourth wave, but where earnings power remains underappreciated. It will likely take years rather than months for the greatest benefits of AI to come to fruition and so it may take time for the beneficiaries of AI development to become more apparent to investors. We are wary of extrapolating early adoption in a parabolic manner but equally recognise the significant opportunity ahead as AI enables the technology sector to disrupt more of the old economy.

As with prior technology waves, with the opportunity for higher returns also comes the potential for increased volatility. The US economy is entering a period of political and economic transition with both the recent Presidential election and a shifting stance from the Fed. We believe the best way to navigate this is to retain our focus on key long-term secular themes that we believe can drive growth in exposed companies beyond and despite volatility.

Given our experience in navigating prior compute waves, we continue to stay focused on sustainable barriers to entry, incorporate environmental, social and governance (ESG) insights and rely on our valuation discipline to guide us in identifying those companies that will become or will remain global technology leaders. The technology sector benefits from one of the strongest tailwinds in the equity market, but with more macroeconomic turbulence still likely, we believe experienced investment "co-pilots" with proven navigation skills are needed to help chart a smoother path to achieve investors' risk and return objectives.

### NOTES TO THE UNAUDITED FINANCIAL STATEMENTS FOR THE FINANCIAL PERIOD ENDED 30 NOVEMBER 2024

### 1. THE FUND, THE MANAGER AND THEIR PRINCIPAL ACTIVITIES

TA Global Technology Fund ("the Fund") was constituted pursuant to the execution of Deed of Trust ("the Deeds") dated 4 March 2011 and 29 January 2020 between the Manager, TA Investment Management Berhad, and the Trustee, Maybank Trustees Berhad.

The principal activity of the Fund is to invest in "Permitted Investments" as defined under Division 7.1 of the deed, which include all types of collective investment schemes including unlisted unit trusts that are regulated and registered/authorised/approved by the relevant authorities in their home jurisdiction and short-term money market instruments. The Fund commenced operations on 26 May 2012 and will continue its operations until terminated by the Manager or the Trustee as provided under Part 12 of the deed.

The Manager, TA Investment Management Berhad, a company incorporated in Malaysia, is a wholly-owned subsidiary of TA Securities Holdings Berhad. Its ultimate holding company is TA Enterprise Berhad. Its principal activities are the establishment and management of unit trust funds and fund management. The Manager is licensed to carry out dealing in securities and fund management activities under the Capital Markets and Services Act 2007.

#### 2. BASIS OF PREPARATION

### (a) Statement of Compliance

The financial statements of the Fund have been prepared in accordance with MFRS Accounting Standards as issued by the Malaysian Accounting Standards Board ("MFRS Accounting Standards") and IFRS Accounting Standards as issued by International Accounting Standards Board ("IFRS Accounting Standards").

The following are accounting standards, interpretations and amendments of the MFRS Accounting Standards that have been issued by the Malaysian Accounting Standards Board ("MASB") but have not been adopted by the Fund:

# MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2024

- Amendments to MFRS 16, Leases Lease Liability in a Sale and Leaseback
- Amendments to MFRS 101, Presentation of Financial Statements Non-current Liabilities with Covenants and Classification of Liabilities as Current or Non-current
- Amendments to MFRS 107, Statement of Cash Flows and MFRS 7, Financial Instruments: Disclosures - Supplier Finance Arrangements

## MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2025

 Amendments to MFRS 121, The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability

(For the 6 months ended 30 November 2024)

### 2. BASIS OF PREPARATION (CONTD.)

### (a) Statement of Compliance (contd.)

# MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2026

Amendments to MFRS 9, Financial Instruments and MFRS 7, Financial Instruments:
 Disclosures – Classification and Measurement of Financial Instruments

## MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after 1 January 2027

- MFRS 18, Presentation and Disclosure in Financial Statements
- MFRS 19, Subsidiaries without Public Accountability: Disclosures

# MFRS Accounting Standards, interpretations and amendments effective for annual periods beginning on or after a date yet to be confirmed

 Amendments to MFRS 10, Consolidated Financial Statements and MFRS 128, Investments in Associates and Joint Ventures – Sale or Contribution of Assets between an Investor and its Associate or Joint Venture

The Fund plans to adopt the above mentioned accounting standards, interpretations and amendments:

- from the annual period beginning on 1 June 2024 for those amendments that are
  effective for annual periods beginning on or after 1 January 2024, except for
  amendments to MFRS 16 which are not applicable to the Fund.
- from the annual period beginning on 1 June 2025 for the amendments that are effective for annual periods beginning on or after 1 January 2025.
- from the annual period beginning on 1 June 2026 for those amendments that are effective for annual periods beginning on or after 1 January 2026.
- from the annual period beginning on 1 June 2027 for the accounting standard that is
  effective for annual periods beginning on or after 1 January 2027, except for MFRS 19
  which is not applicable to the Fund.

The initial application of the above mentioned accounting standards, interpretations or amendments is not expected to have any material financial impact to the financial statements of the Fund.

### (b) Basis of measurement

The financial statements of the Fund have been prepared on the historical cost basis except for financial assets at fair value through profit or loss ("FVTPL") which are measured at their fair value.

### (c) Functional and presentation currency

The financial statements are presented in US Dollar ("USD"), which is the Fund's functional currency.

(For the 6 months ended 30 November 2024)

### 2. BASIS OF PREPARATION (CONTD.)

### (d) Significant Accounting Estimates and Judgments

The preparation of the Fund's financial statements requires the Manager to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability in the future.

No major judgments have been made by the Manager in applying the Fund's accounting policies. There are no key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

### 3. MATERIAL ACCOUNTING POLICIES

### (a) Material accounting policies information

The Fund adopted amendments to MFRS 101, *Presentation of Financial Statements* and MFRS Practice Statement 2 - *Disclosures of Accounting Policies* from 1 June 2023. The amendments require the disclosure of 'material', rather than 'significant', accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting entities to provide useful, entity-specific accounting policy information that users need to understand other information in the financial statements.

Although the amendments did not result in any changes to the Fund's accounting policies, it impacted the accounting policy information disclosed in the financial statements. The material accounting policy information is disclosed in the respective notes to the financial statements where relevant.

### (b) Income recognition

Income is recognised to the extent that it is probable that the economic benefits will flow to the Fund and the income can be reliably measured. Income is measured at the fair value of consideration received or receivable.

Interest income is recognised using the effective interest rate method.

### 4. MANAGER'S FEE

The Manager's fee is computed on a daily basis at 1.8% (2023: 1.8%) per annum of the NAV of the Fund, net of manager's fee rebates ranging from 0.50% to 0.70% (2023: 0.50% to 0.70%) per annum earned from the Manager and a dealer respectively, on the Fund's NAV of investment in other collective investment scheme, as offered to an agreed by the Trustee and the Manager.

(For the 6 months ended 30 November 2024)

### 5. TRUSTEE'S FEE

Trustee's fee is computed on a daily basis at 0.055% (2023: 0.055%) per annum of the NAV of the Fund, subject to minimum of RM12,000 (2023: RM12,000).

### 6. INCOME TAX EXPENSE

Income tax is calculated at the Malaysian statutory tax rate of 24% of the estimated assessable profit for the financial period.

The tax charges for the financial period is in relation to the taxable income earned by the Fund after deducting tax allowable expenses. In accordance with Schedule 6 of the Income Tax Act 1967, interest income earned by the Fund is exempted from Malaysian tax.

A reconciliation of income tax expense applicable to net income before tax at the statutory income tax rate to income tax expense at the effective income tax rate of the Fund is as follows:

	01.06.2024 to 30.11.2024 USD	01.06.2023 to 30.11.2023 USD
Net income before taxation	34,375,001	24,411,887

#### 15. SEGMENT INFORMATION

The Manager and Investment Committee of the Fund are responsible for allocating resources available to the Fund in accordance with the overall investment strategies as set out in the Investment Guidelines of the Fund. The Fund's investments were primarily made in the form of collective investment scheme in Janus Henderson Horizon Fund - Global Technology Fund, with the balance in liquid assets.

The investment objective is to achieve long-term capital appreciation by investing in a collective investment scheme, which invests mainly in globally diversified portfolio of technology related companies. There have been no changes in reportable segments in the current financial period.

(For the 6 months ended 30 November 2024)

#### 16 FINANCIAL RISKS AND MANAGEMENT OBJECTIVES AND POLICIES

The Fund maintains investment portfolio in a variety of listed and unlisted financial instruments as dictated by its deed and investment management strategy.

The Fund is exposed to a variety of risks including market risk (which includes interest rate risk and currency risk), credit risk and liquidity risk. Whilst these are the most important types of financial risks inherent in each type of financial instruments, the Manager and the Trustee would like to highlight that this list does not purport to constitute an exhaustive list of all the risks inherent in a investment in the Fund

The Fund's objectives in managing risks are the creation and protection of unitholders' value. Risks are inherent in the Fund's activities, but they are managed through a process of ongoing identification, measurement and monitoring of risks. Financial risk management is also carried out through sound internal control systems and adherence to the investments restrictions as stipulated in the Trust Deed, the Securities Commission's Guidelines on Unit Trust Funds and the Capital Markets and Services Act, 2007.

### (a) Market Risk

Market risk arises when the value of securities fluctuate in response to the activities of individual companies, and general market or economic conditions. The market risk is managed through portfolio diversification and asset allocation whereby the securities exposure will be reduced in the event of anticipated market conditions.

### (b) Interest Rate Risk

The risk refers to the exposure of the Fund's assets to movements in interest rates. In this regards, the Fund's exposure to the interest rate risk is mainly confined to deposit placement with financial institution.

Interest rate is a general economic indicator that will have an impact on the management of the fund regardless of whether it is a based fund or otherwise. The reason for this is because a high level of interest rates will inevitably effect corporate profits and this will have an impact on the value of equity and the demand for fixed income securities.

### (c) Currency Risk

As the investments of the Fund may be denominated in currencies different from the Class currency, fluctuations of the exchange rates of foreign currencies against the USD may affect the value of the units of the Fund. To mitigate this risk, the Manager may from time to time employ currency hedging techniques to manage the impact of the exchange rate fluctuations on the Fund and/or for the purpose of efficient portfolio management.

(For the 6 months ended 30 November 2024)

### 16. FINANCIAL RISKS AND MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

### (d) Credit Risk

Credit risk refers to the ability of issuers and counterparties to honour obligations to make timely payments on interest and principal and proceeds from realisation of investments. This is managed by the internal policy of setting a ceiling or limit to the exposure and also the constant process of credit evaluation to mitigate such risks to an acceptable level.

### (e) Liquidity Risk

The Fund maintains sufficient level of liquid assets, after consultation with the Trustee, to meet anticipated payments and cancellation of units by unitholders. Liquid assets comprise cash, deposit with licensed institution and other instruments, which are capable of being converted into cash within 7 business days. The Fund's policy is to always maintain a prudent level of liquid assets so as to reduce the liquidity risk.

### 17. COMPARATIVE FIGURES

The current period's figures and comparative figures are presented as follow:
