5. What are the possible outcomes of my investment?

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of profit earned. However, investment involves risk. The value of the Fund and its distribution (if any) may rise or fall. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

Specific risks related to the Fund:

Specific Stock / Issuer Risk	<p>Any large fluctuations in the prices of Shariah-compliant shares or sukuk of any of the companies that the Fund own may cause the NAV or prices of Units to change too. Such fluctuations can be caused by changes in government laws in the industry in which the company belongs, entry of new competitors or changes in business directions / strategies / operations. It must be noted that it is not possible to anticipate such risk all the time.</p> <p>Nevertheless, the investment managers will endeavour to detect any negative price movements by the constant and detailed research that they will conduct on each company concerned. Upon detection, they will make the necessary decisions to alter the mix of Shariah-compliant securities accordingly.</p> <p>Furthermore, the individual price change will usually have little impact because the Fund will have either a diversified portfolio of investments which spread the overall risk and thus, reduce overall volatility; or an asset allocation which includes cash & Islamic liquid assets, which returns are less volatile in nature.</p>
Credit / Default Risk	<p>This risk is a concern for investments in sukuk and refers to the ability of the issuer or counterpart to honour its obligations to make timely payments of principal and profit. In the event that the issuer is faced with financial difficulties, its credit worthiness may also decrease. This in turn may lead to default in the payments thus would affect the value of the Fund's investment. This risk is managed by the internal policy of setting a ceiling or limit to the exposure and also the constant process of credit evaluation to mitigate such risk to an acceptable level.</p>
Interest Rate Risk	<p>This risk refers to the effect of interest rate changes on the valuation for a sukuk portfolio. In the event of rising interest rates, valuation for sukuk will decrease and vice versa. Meanwhile, sukuk with longer maturity and lower profit rate are more sensitive to interest rate changes. This will be mitigated via the management of the duration structure of the sukuk portfolio.</p> <p>The interest rate is a general economic indicator that will have an impact on the management of Fund. It does not in any way suggest that this Fund will invest in conventional financial instruments. All the investments carried out for this Fund is in accordance with Shariah requirements.</p>

**Shariah Status
Reclassification Risk**

(a) Shariah-compliant equity securities

The risk refers to the risk that the currently held Shariah-compliant equity securities in the portfolio of Islamic funds may be reclassified as Shariah non-compliant in the periodic review of the securities by the SACSC, the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. If this occurs, the Manager will take the necessary steps to dispose of such securities.

Opportunity loss could occur due to the restriction on the Fund to retain the excess capital gains derived from the disposal of the reclassified Shariah non-compliant securities. In such an event, the Fund is required:

- (i) to dispose of such securities with immediate effect or within one (1) calendar month if the value of the securities exceeds or is equal to the investment cost on the last trading day before the effective date of reclassification of the list of Shariah-compliant securities ("Reclassification") by the SACSC or date of review ("Review") by the Shariah Adviser or the Shariah Supervisory Boards of relevant Islamic indices. The Fund is allowed to keep dividends received and capital gains from the disposal of the securities up to the last trading day before the effective date of Reclassification or Review. However, any dividends received and excess capital gains from the disposal of the Shariah non-compliant securities on and after the effective date of Reclassification or Review should be channelled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser;
- (ii) to hold such securities if the value of the said securities is below the investment cost on the last trading day before the effective date of Reclassification or Review until the total subsequent dividends received (if any) and the market price of the securities is equal to the cost of investment at which time disposal has to take place within one (1) calendar month, excess capital gains (if any) from the disposal of the securities should be channelled to *baitulmal* and/or charitable bodies approved by the Shariah Adviser; or
- (iii) to dispose of such securities at a price lower than the investment cost which will result in a decrease in the Fund's value.

(b) Islamic fixed income instruments or Islamic money market instruments or Islamic deposits

This risk refers to the risk of a possibility that the currently held Islamic fixed income instruments or Islamic money market instruments or Islamic deposits invested by Islamic funds may be declared as Shariah non-compliant by the relevant authority or the Shariah Adviser. If this occurs, the Manager will take the necessary steps to dispose of or withdraw such fixed income instruments or money market instruments or deposits.

Note: Please refer to cleansing process for the Fund for details.

Note:

Please refer to Section 3.20 of the Master Prospectus for further information.

Please be advised that if an investor invests in Units through an IUTA which adopts the nominee system of ownership, the investor would not be considered to be a Unit Holder under the Deed and the investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holder's meeting and to vote thereat and the right to have the Unit Holder's particulars appearing in the register of Unit Holders of the Fund).
