KEY PRODUCT FEATURES

3. What am I investing in?

Fund Category	Feeder Fund (Wholesale Mixed Assets).				
Base Currency	USD.				
Class(es) of Units	• USD Class • MYR Class • MYR Hedged Class • SGD Hedged Class • AUD Hedged Class				
Launch Date	USD Class	MYR Class	MYR Hedged Class	SGD Hedged Class	AUD Hedged Class
	1 July 2026				
Initial Offer Price	USD Class	MYR Class	MYR Hedged Class	SGD Hedged Class	AUD Hedged Class
	USD1.0000	RM1.0000	RM1.0000	SGD1.0000	AUD1.0000
	Note: The Manager may offer additional Class(es) from time to time at its absolute discretion by way of a supplementary master information memorandum or replacement master information memorandum without prior consent from the Unit Holders provided that the offering of such additional Class(es) shall not in the opinion of the Manager prejudice the rights of the existing Unit Holders.				
Initial Offer Period	A period of twenty-one (21) days from the Launch Date of the Fund. The Initial Offer Period may be shortened when we deem appropriate to enter the market to capitalise on the prevailing yields and/or market condition.				
Commencement Date	The next Business Day immediately following the end of the Initial Offer Period.				
Asset Allocation	• A minimum of 85% of the Fund’s NAV will be invested in the Target Fund; and • A maximum of 15% of the Fund’s NAV will be invested in Liquid Assets.				
Performance Benchmark	The Fund adheres to the benchmark of the Target Fund for performance comparison. The Target Fund is not managed by the Investment Manager in reference to a benchmark (no benchmark). Any change of the Fund’s benchmark will be updated on our website and/or this product highlights sheet.				
Investment Strategy	The Fund seeks to achieve its investment objective by investing a minimum of 85% of the Fund’s NAV in the Target Fund and the remainder of the Fund’s NAV will be invested in Liquid Assets. The Fund may employ currency hedging strategies to hedge the foreign currency exposure to manage the currency risk of the Classes which are not denominated in the Base Currency. If and when the Manager considers the investment in the Target Fund is unable to meet the investment objective of the Fund or the Target Fund is no longer in the best interests of the Unit Holders, the Manager may replace the Target Fund with another collective investment scheme of a similar objective. The Manager will seek Unit Holders’ approval before any changes is made. As this is a feeder fund, the Manager will stay invested in the Target Fund as long as the Target Fund’s investment objective and strategies will enable the Fund to meet its investment objective.				

	Nevertheless, during adverse market conditions, the Manager may take a temporary defensive position which may be inconsistent with the Fund's strategy by reducing its investment in the Target Fund and increase the Fund's liquidity level by investing in Liquid Assets to safeguard the Unit Holders' interests. The Fund may change¹ its investments in one (1) class of the Target Fund into another class of the Target Fund (which must be denominated in the same currency) if the Manager is of the opinion that the change is in the interests of the Unit Holders. If the Manager wishes to effect such change, the Manager will seek concurrence from the Trustee and the Unit Holders will be notified before implementation of such change. Please refer to Chapter 3: The Information on Allianz Global Investors Fund – Allianz Dynamic Multi Asset Strategy SRI 75 in the Master Information Memorandum for details of the Target Fund.

	<i>or such other lesser number of Units the Manager may decide from time to time.</i>				
Distribution Policy	The Fund intends to distribute income, if any, on a monthly basis, at the Manager's discretion. The distribution, if any, may be made from (1) realised income, (2) realised gains, (3) unrealised income, (4) unrealised gains, (5) capital or (6) a combination of any of the above. The Manager has the right to vary the frequency and/or amounts of distributions. The effects of distributing income out of the Fund's capital would include but are not limited to the following: - the value of the investments in the Fund may be reduced; and - the capital of the Fund may be eroded. The distribution is achieved by forgoing the potential for future capital growth and this cycle may continue until all capital of the Fund is depleted. As a result, the value of future returns would be diminished and there would be an impact on the future growth potential of the Fund as the available assets to grow in the future is the net of the expenses charged to the Fund. The Manager has the right to make provisions for reserves in respect of distribution of the Class for each Fund. If the income available is too small or insignificant, any distribution may not be of benefit to the Unit Holders as the total cost to be incurred in any such distribution may be higher than the amount for distribution. The Manager has the discretion to decide on the amount to be distributed to the Unit Holders. Please note that if distribution is made, such distribution is not a forecast, indication or projection of the future performance of the Fund.				

¹ The Target Fund issues several share classes and may issue new share classes with different features and requirements in the future. The Fund has full discretion in deciding the specific feature of the share class of the Target Fund in which the Fund will invest. The Fund may also switch between different features of the share classes of the Target Fund which denominated in same currency. Such decision will be made in the best interest of Unit Holders. Investors are to note that the investment objective, investment strategy and risk profile of the Fund shall remain the same regardless of the investment of the Fund in different share class of the Target Fund.

	For avoidance of doubt, any distribution will be rounded to two (2) decimal points (sen per Unit) based on the policy on rounding adjusting of the NAV per Unit of the Class.

5. What are the possible outcomes of my investment?

This is a wholesale feeder fund where the Target Fund investing in a broad range of asset classes, with a focus on global Equity and Bond Markets in order to achieve over the medium to long-term a performance within a volatility range of 10% to 16% per annum in accordance with E/S characteristics. The performance of the Fund would be dependent on the investments of the Target Fund and reliant on the Investment Manager expertise in managing the Target Fund to meet its investment objective.

The investors may gain from the appreciation of Unit price as a result of the increase in value of the underlying and/or accrual of interest earned. However, investment involves risk. The value of the Fund may rise or fall. The Fund intend to distribute income, if any, on a monthly basis, at the Manager's discretion and may be declared out of the income and/or capital of the Fund. These risk factors, among others, may cause you to lose part or all of your investment.

KEY RISKS

6. What are the key risks associated with this product?

General risks of investing in the Fund	
Market Risk	Market risk refers to the possibility that an investment will lose value because of a general decline in financial markets, due to economic, political and/or other factors, which will result in a decline in the Fund's NAV.
Manager Risk	This risk refers to the day-to-day management of the Fund by the Manager which will impact the performance of the Fund. For example, investment decisions undertaken by the Manager, as a result of an incorrect view of the market or any non-compliance with internal policies, investment mandate, the Deed, relevant laws, Guidelines due to factors such as human error or weaknesses in operational processes and systems may adversely affect the performance of the Fund.
Inflation Risk	Inflation risk is the risk that investor's investment in the Fund may not grow or generate income at a rate that keeps pace with inflation. This would reduce investor's purchasing power even though the value of the investment in monetary terms has increased.
Non-compliance Risk	This risk arises from non-compliance with laws, rules, regulations, prescribed practices and internal policies and procedures by the Manager. For example, the Manager may fail to comply with internal policies and procedures due to internal factors such as oversight, human error and/or system error. This risk may also occur indirectly due to the imposition and/or amendment to the relevant regulatory frameworks, laws, rules and other prescribed practices affecting the Fund. The Manager has put in place internal controls to ensure that comprehensive and timely compliance monitoring is undertaken.
Loan Financing Risk	This risk occurs when investors take a loan or financing to finance their investment. The inherent risk of investing with borrowed or financed money includes investors being unable to service the loan or financing repayments. In the event Units are used as collateral, investors may be required to top-up the investors' existing instalment if the prices of Units fall below a certain level due to market conditions. Failing which, the Units may be sold at a lower NAV per Unit as compared to the NAV per Unit at the point of purchase towards settling the loan or financing.
Operational Risk	Apart from a market disruption event, system interruption can also impact processes when there is an interruption in the flow of information needed for making qualified decisions where decisions are made based on accurate flow of information with operated system in managing the Fund. These disruptions may impact the performance of the Fund, the settlement of trades in the Fund and may also affect the investor's transactions with the Fund. The Manager has put in place internal

controls to manage some of these disruptions such as business continuity plans. However, investors should note that not all circumstances can be prepared for nor anticipated. In such circumstances, the Manager in consultation with the Trustee will take appropriate measures to safeguard the Unit Holders' interests.

Specific risks related to the Fund

Concentration Risk

The Fund is exposed to concentration risk as it is investing a minimum of 85% of its NAV in the Target Fund. Hence, this would result in the Fund being exposed to the risk of its NAV declining when the Target Fund's NAV declines. All investment decisions on the Target Fund is left with the Investment Manager and the Fund's performance is fully dependent on the performance of the Target Fund.

Currency Risk

The Fund may offer Units in multiple currency Classes, which will expose the Unit Holder to currency risk in respect to the currency of Units of a Class other than the Base Currency.

(i) Currency risk at the hedged Class level

Investors in the hedged Classes may be subjected to currency risk due to imperfect hedging by the Manager when the Manager hedges the respective currency of the hedged Classes against the Base Currency. However, investors should note that hedging is subject to a minimum investment size of entering into a forward contract and the unhedged portion of the respective hedged Classes may still be affected by the exchange rate movement which may result in fluctuation of NAV of the respective hedged Classes. In addition, investors in the hedged Classes should note that by employing this hedging, investors would not be able to enjoy the additional currency gains when the Base Currency moves favourably against the currency of the hedged Classes. Additional transaction costs of hedging will also have to be borne by the investors in these hedged Classes.

Investors in the hedged Classes should also note that in the event if the size of the hedged Classes is relatively small, the Manager may not hedge the respective currency of the hedged Classes against the Base Currency if it is of the view that the hedging is not in the interests of the Fund and/or Unit Holders.

(ii) Currency risk at the non-hedged Class level

For investors in the non-hedged Classes, the impact of the exchange rate movement between the Base Currency and the currency of the respective non-hedged Classes (other than USD Class) may result in a depreciation of the investor's holdings as expressed in the Base Currency.

Counterparty Risk

Investors in the hedged Classes of the Fund are subject to counterparty risk on the derivatives contract that may be entered into with the financial institutions for the purpose of hedging strategy. Hence, any default or downgrade in rating by the counterparty may affect the NAV of the Fund. In mitigating this risk, the Manager will carry out stringent selection process on the counterparty prior to entering into derivatives contract with the counterparty.

Country Risk

The Fund invests in the Target Fund which is domiciled in Luxembourg. Any adverse changes in the economic fundamentals, social and political stability, currency movements and foreign investments policies in Luxembourg may have an impact on the prices of the Target Fund and consequently may also affect the Fund's NAV.

Suspension Risk

The Investment Manager has the right to suspend calculation of NAV or transaction of the Target Fund. Please refer to the Section Subscriptions, repurchases and redemptions and the calculation of the NAV of the Target Fund in the Target Fund's Prospectus for more details.

The Manager, in consultation with the Trustee, will take immediate and necessary steps to suspend the Fund in the event the Manager is made aware that the Target Fund is or will be suspended, this is to ensure that the Fund has a fair valuation as there will not be any dealings and calculation of NAV in the Fund whilst the Target Fund is suspended. The reason being that the Target Fund forms a material portion of the Fund's assets.

To avoid suspension of the Fund, the Manager seeks to manage this by allowing the Fund to hold adequate Liquid Assets (up to 15% of the Fund's NAV) to meet redemption requests. If the Liquid Assets are insufficient to meet redemption requests, the Manager may seek temporary financing by taking into consideration the best interests of Unit Holders. If the Manager is of the view that it has exhausted all possible avenues to avoid a suspension of the Fund, the Manager may as a last resort, in consultation with the Trustee and having considered the interests of the Unit Holders, suspend the redemption of Units where it is impractical for the Manager to calculate the NAV of the Fund due to market value or investments in the Target Fund cannot be determined fairly.

Please note that during the suspension period, there will be no NAV per Unit available and hence, any application for subscription, redemption or switching of Units received by the Manager during the suspension period will only be accepted and processed on the next Business Day after the cessation of the suspension. Unit Holders will be notified of the suspension and when the suspension is lifted. Upon such suspension, the Fund will not be able to pay Unit Holders' redemption proceeds in a timely manner and Unit Holders will be required to remain invested in the Fund for a longer period. In such a scenario, Unit Holder's investments will continue to be subjected to risk factors inherent to the Fund.

Fund Management of the Target Fund Risk

The Manager has exercised due skill and care in selecting the Target Fund. However, the Manager does not have control over the management of the Target Fund and there is no guarantee that the investment objective of the Target Fund will be met. This may affect the value of the Unit Holders' investments in the Fund.

The Target Fund may change its investment objective which may become inconsistent with the investment objective of the Fund. In such instances, the Manager will replace the Target Fund with another collective investment scheme which it considers to be more appropriate in meeting the investment objective of the Fund. Any changes on the replacement of the Target Fund would require the Unit Holders' approval.

Distribution Out of Capital Risk

Distribution may be paid out of capital when the realised gains or realised income of the Fund is insufficient to pay a distribution. Unit Holders should note that the payment of distribution out of capital represents a return or withdrawal of part of the amount the Unit Holders originally invested or from any capital gains attributable to the original investment. Such distribution may result in an immediate decrease in the NAV per Unit of the Class and in the capital of the Fund which is available for investment in the future. As a result, capital growth may be reduced and a high distribution yield from distribution out of capital does not imply a positive or high return on Unit Holders' total investments.

Note:

Please refer to section "Risk Factors" of the Master Information Memorandum, including specific risks related to the Target Fund for further information.

It is important to note that events affecting the investments cannot always be foreseen. Therefore, it is not possible to protect investments against all risks. The various assets classes generally exhibit different levels of risk.

You are recommended to read the whole Master Information Memorandum to assess the risks associated to the Fund. If necessary, you should consult your adviser(s) for a better understanding of the risks.

Please be advised that if a Sophisticated Investor invests in Units through an IUTA which adopts the nominee system of ownership, the Sophisticated Investor would not be considered to be a Unit Holder under the Deed as the Sophisticated Investor's name will not appear in the register of Unit Holders. The Sophisticated Investor may consequently not have all the rights ordinarily exercisable by a Unit Holder (for example, the right to call for a Unit Holders' meeting and to vote thereat).

FEE & CHARGES¹**7. What are the fees and charges involved?****Fees and charges related to the Fund:**

Sales Charge²	Up to 5.50% of the NAV per Unit imposed either by IUTAs, unit trust consultants or the Manager.				
Redemption Charge	No redemption charge will be imposed for each redemption.

Investment through the distributors shall be subject to their respective terms and conditions.
- In addition to the switching fee, Unit Holders will be charged the difference between the sales charge of the Class/Fund and the sales charge of the Class or TAIM's fund (or its classes of units) to be switched into when switching from a Class/Fund with a lower sales charge to a Class or TAIM's fund (or its classes of units) with a higher sales charge. The Manager reserves the right to vary the terms and conditions of switching from time to time and the Unit Holders will be notified accordingly.

Please refer to section "Fees and Charges Related to the Fund" of the Master Information Memorandum for further information.

YOU SHOULD NOT MAKE PAYMENT IN CASH TO A UNIT TRUST CONSULTANT OR ISSUE A CHEQUE IN THE NAME OF A UNIT TRUST CONSULTANT

8. How often are valuations available?

The Fund will be valued on a daily basis, which is on the Valuation Day. The valuation of all assets and liabilities of the Fund will be carried out in a fair and accurate manner, at the valuation point.

^{*} Any waiver and/or reduction of the annual trustee fee will be at the discretion of the Trustee.

If the Target Fund is closed for business or the valuation of the units or shares of the Target Fund is not available during the valuation point, the Manager will value the investment based on the latest available price as at the day the Target Fund was last opened for business or transacted.

Price of the Fund will be published on next Business Day (T+1 day) and the Unit Holders may obtain the latest price of the Fund from our website at www.tainvest.com.my or FIMM's website.

9. How can I exit from this investment and what are the risks and costs involved?

Cooling-off Policy	A cooling-off right is not available for the Fund.
Redemption of Units	- Redemption of Units can be made by completing a transaction form available from our head office or any of our business centres or by sending written instructions to us on any Business Day. Any duly completed redemption request received by us on or before 4.00 p.m. on a Business Day will be processed based on the NAV per Unit calculated at the end of the Business Day. A redemption request received by us after 4.00 p.m. will be deemed to have been received on the next Business Day. If a redemption request is received by us on a non-Business Day, such redemption request will be processed based on the NAV per Unit calculated at the close of the next Business Day. - Under normal circumstances, the redemption proceeds will be paid to you within ten (10) Business Days from the day the redemption request is received by us based on the selected payment method stated in the transaction form received by our head office or any of our business centres. Should the redemption request of the Target Fund be suspended (as prescribed in sections 2.2(e), 3.10 and 3.11 of the Master Information Memorandum), the redemption of the Fund will also be suspended accordingly. The redemption proceeds will be paid to you within ten (10) Business Days after the suspension is lifted. If any of the following circumstances shall occur which is beyond the control of the Manager: (i) operational, network or system disruptions involving the clearing houses, banks, Trustee, administrator (if any), custodian and/or Management Company; or (ii) settlement delays between the clearing houses, banks, Trustee, administrator (if any), custodian and/or Management Company, the Manager may require up to two (2) additional Business Days for the Fund to receive the redemption proceeds, hence the redemption proceeds will be paid to you within twelve (12) Business Days from the date the transaction form is received by the Manager. Should the redemption request of the Target Fund be suspended, the redemption of the Fund will also be suspended accordingly. The redemption proceeds will be paid to you within twelve (12) Business Days after the suspension is lifted. In the event if redemption gates apply to the Target Fund (refer to section 3.10 in the Master Information Memorandum), the redemption of the Fund will also be deferred accordingly. - In case of joint holders, we will process the redemption request based on the operating instruction stated in the account opening form when you first invested in the Fund. For the avoidance of doubt, all redemption proceeds will be made payable to the principal applicant by default, unless there is a request by the principal applicant that the redemption proceeds be made payable to the joint applicant.

Note:

Please refer to section "Redemption of Units" of the Master Information Memorandum for further information.
