Investment Strategy

The Fund seeks to achieve its investment objective by investing at least 90% of its NAV in Fixed Income Instruments which aim to repay the initial investment of investors at Maturity Date (including sales charge). Up to 10% of the Fund's NAV will be invested in options / structured warrants linked to the performance of the Rainbow Basket to generate return.

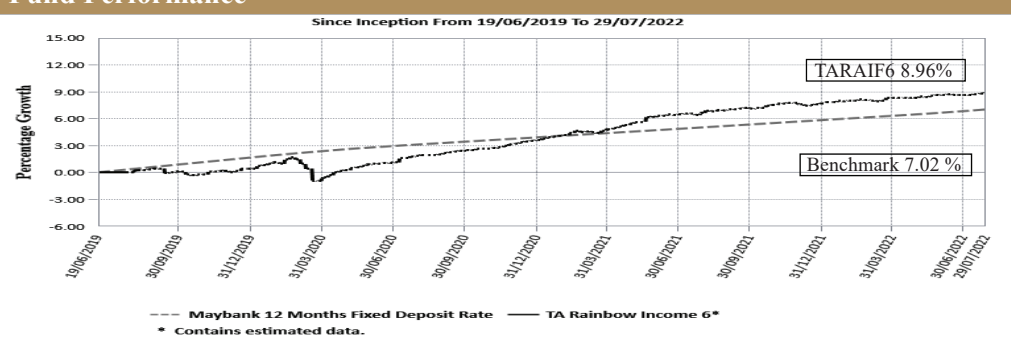

For the Fixed Income Instruments, the Fund intends to invest in deposits and/or money market instruments issued by Malaysian financial institutions rated at least "A" by RAM or equivalent rating by other recognised rating agencies. Whereas for investment in Bonds, the Bonds will be rated at least "A" by RAM or equivalent rating by other recognised rating agencies and the tenures of the Bonds will match (i.e: 3 years) or will be similar (i.e: shorter than 3 years) to the Tenure of the Fund.

The Fund will provide potential annual returns based on the performance linked to the Rainbow Basket. On top of that, the Fund targets to provide a Bonus Coupon at Maturity Date. The Bonus Coupon is neither fixed nor guaranteed and shall be declared at Maturity Date, if any.

As this is a close-ended fixed income fund, the Fund will be managed on a semi-active basis by the Manager. At maturity, issuers of the Fixed Income Instruments held by the Fund will be obligated to pay the notional amount provided there is no occurrence of credit default by the issuers. In order to mitigate credit and default risk, the selection will be based on stringent credit research and analysis. Semi-active management of the portfolio refers to the possibility that securities in the portfolio may be traded and rebalanced if needed to address default risk and/or uptrend interest rate concerns.

The Fund will invest in markets where the regulatory authority is an ordinary or associate member of the International Organization of Securities Commissions (IOSCO).
